

Hunting Fair to Good According to Reports

With the opening of the hunting season in most areas of Ontario, reports range from fair to good for birds and beasts, according to officials of the Ontario Department of Lands and Forests, and hunters.

Here's what seems in prospect:

Moose: Very good. Among the top spots in Ontario are the Gowganda and Gogama Districts, the area around Lake Abitibi, Lake of the Woods, almost anywhere along the new stretch of Highway No. 17 from just north of Sault Ste. Marie almost into Port Arthur-Fort William. As a matter of fact, motorists covering the 170 mile stretch from Agawa to White River are being warned to drive carefully since moose frequently come out to the road. The holiday weekend hunt for the Gowganda area was reported as 60 moose, 500 hunters.

Deer: Generally good. Favourite areas: Manitoulin Island, the stretch between Parry Sound and Sudbury; the area adjoining Number 11 highway west of Algonquin Park; Barry's Bay, Killaloo, Round Lake and south to just north of Lindsay and Peterborough, and Temagami.

Geese: Nothing can compare, in the opinion of most experts, with the James Bay area. Ducks are also very plentiful here. The Canada geese have been coming down towards Moosonee and Moose Factory earlier than usual this year. Goose patrols have been set up by the Department of Lands and Forests and checking stations are now in operation. Hunters are asked to report at the stations in order that a record can be kept of the number and kind of geese killed.

Ducks: Generally, fair to poor, but local hunters report good results.

Ruffed Grouse: Debatable. Some areas report the grouse were plentiful; others claim that few were seen. Driving over old lumber roads, singles with a few flocks are reported.

Hunters are being asked to assist in the research programme of the Department by forwarding one wing and tail feathers of grouse to District Offices or local conservation officers so sex and age ratios

Haileybury High Beats Red Devils

Haileybury High School, with a solid weight advantage going for them along the line and backfield, pounded out a 19-12 victory over KLCVI Junior Red Devils at Teck Athletic Field last week.

The Red Devils, fresh from their Monday 18-0 win over Chippewa Juniors in North Bay, found the going too rough against the Haileybury "school team".

John Campbell skirted to both Kirkland Lake touchdowns, both on long romps. He picked up the first one in the first quarter to give KLCVI the lead throughout that frame.

Bob Brown cracked over from the eight yard line to even the count for Haileybury. It was a straight power run right through the middle of the line and came on a second long series of gains after an initial drive had been stalled by a Haileybury backfield fumble.

Haileybury's sharp-passing quarterback Dave Black hit Real St. Cyr from the eight-yard line for the first point of the third quarter to put the visitors ahead, 12-6.

Campbell went wide around the left end and stepped over the goal-stripe for the second KLCVI major to even the score on their first series of plays after the Haileybury touchdown.

Quarterback Black was sitting on the Kirkland 30-yard stripe when he picked up a Haileybury fumble in his own backfield and scooted wide for the distance and the game-winning touchdown.

The last point of the game came on a rouge kicked by Rod Doran. No convert attempts were good by either team.

can be determined.

Successful moose hunters are also asked to turn in the lower jaw of their moose. Purpose is to determine the age of the individual animal and to obtain some idea as to age structure of the wild population in the forest.

In the meantime deer hunters are getting ready for the hunt in Temagami where good results are forecast.

Bible Fellowship Elects Officers

The regular monthly meeting of St. Paul's Bible Reading Fellowship was held Tuesday, September 27th, at 8:00 p.m., with seven members and three visitors present. The meeting was opened with the member's prayer being said in unison. Bible reading for the day was by Mrs. F. Cooper, synopsis by Mrs. E. Young. A discussion followed on the month's reading.

The minutes were read by the secretary, Mrs. T. Huff, and adopt-

ed as correct. Seconded by Mrs. F. Cooper.

The president, Mrs. G. Ninacs, asked the members if they would assist the W.A. when the annual W.A. meeting for the Deanery of Temiskaming will be held in Haileybury in October. A motion was passed for this by Mrs. N. Abraham and Mrs. E. Carriere.

It was discussed whether the group would have a table at the W.A. Bazaar and it was decided to ask the W.A.'s permission. This motion was made by Mrs. E. Young and seconded by Mrs. N. Abraham.

The lunch committee for the October meeting will be Mrs. E. Young, Mrs. J. Rundle and Mrs. G. Ninacs.

The president then relinquished

her office and with Father R. Nixon presiding, the following officers were elected for the coming term: Mrs. F. Cooper, president; Mrs. E. Carriere, vice-president; Mrs. E. Young, secretary; Mrs. N. Abraham, treasurer; press correspondent, Mrs. T. Huff.

The new president then took the chair and asked Father Nixon to close the meeting.

Lunch was served by Mrs. N. Abraham, Mrs. T. Huff and Mrs. F. Cooper.

Corporation profits in Canada in 1959 totalled \$3.3 billion, of which Ottawa took \$1.5 billion in corporation income taxes, \$957 million went back into business, and investors received \$863 million in dividends.
