LAWRENCE BUCK
Proprietor

When I first started business in the Tri-Town district, I was determined to make friends for my new venture by offering the best of merchandise at the best possible prices, backed by a complete service department, and a policy that the customer must be satisfied.

Our growing file of customers who return to buy more, and the long list of those who come to us on the recommendation of their friends is evidence enough that we are doing the right thing.

Increasing business has forced us again to expand our premises, and while you will be shopping in a new location, you will find that our policy of "the best for less" will still apply.

I wish to thank you for your past patronage which has made this expansion possible.
