Of all the remarkable geysers in Yellowstone National Park, the most popular amongst visitors is Old Faithful. It has never failed to lift its white plume of water and steam 170 feet into the air at intervals of about 65 minutes. The eruptions last for about four minutes, then Old Faithful rests until the next performance.

Saxophonist at St. Mary's Academy

Jeunesses Musicales invite their members to attend their third concert of the season on January 23, at St. Mary's Academy.

You will be entertained by an outstanding performer, Pierre Bourque, saxophonist. Born in Plessisville, he studied music at the Province of Quebec Conservatory in Quebec City and it was then that he met "Marcel Mule", the great French saxophone virtuoso. The latter was on tour for J. M. C. with his "Quatuor Mule", a saxophone quartet. This meeting inspired Pierre Bourque to attend the J.M.C. Summer Music Camp where a member of the quartet, Georges Gourdet, was teaching. He then made his way to Paris and was admitted to the "Conservatoire". He recently won a second prize in his class and was granted a one-month leave of absence in order to undertake this tour for J.M.C. Let us hope that the success of his tour will spark him to win that ultimate honour upon his return to Paris — First Prize from the Paris Conservatory.
