

Fir Plywood Sun-bathing Screen Helps that tan along

You don't have to spend a vacation in Miami to acquire that deep, healthy tan everybody admires. You can get the same effect — and save time and money — by building your own portable sun-bathing screen and windbreak.

All that's needed for the job are a 4' x 8' panel of fir plywood, four hinges and a few rolls of household aluminum foil. The plywood panel is divided into three equal pieces and joined by hinges as shown. Once the hinges are at-

tached, the foil can be applied in overlapping strips with an ordinary office-type stapler.

Some users recommend slightly crinkling the foil first to provide greater sun reflection.

Utilising the principle of reflection, the screen makes sun-bathing possible even on partly-clouded days. And if you get caught in a passing shower, the waterproof glue used in bonding fir plywood, edge-marked PMBC EXTERIOR, will give complete protection for your sun bath unit.

Faulkner - Lloyd

Lilacs, red roses and iris formed a beautiful floral background at Latchford United Church on Saturday, July 8th, when the Rev. Ft.-Lieut. Parkhouse of the R.C.A.F. Station, North Bay, united in marriage Alena Georgina Lloyd, daughter of Mr. Alton and Mrs. Jean Lloyd of Latchford and L.A.C. Robert Faulkner, R.C.A.F. Station, North Bay, son of Mr. and Mrs. H. Faulkner of Woodstock, New Brunswick.

Given in marriage by her father, the bride chose a street-length sheath dress of white brocade with overskirt of the same material, short sleeves and boat neckline. A double cornet encrusted with sequins and seed pearls held the bride's elbow-length veil of nylon illusion. She carried a crescent-shaped bouquet of American Beauty Roses with streamers of tiny buds.

Mrs. Michael O'Connell of North Bay was bridesmaid. She wore a yellow sheath dress of brocade with a nylon overskirt and carried a bouquet of white and bronze baby mums.

L. A. C. Michael O'Connell of the R.C.A.F. Station, North Bay, was groomsman. Clare Hartman, cousin of the bride and Ronald Anderson were the ushers.

Miss Irene O'Shaughnessy, accompanied by Mrs. Nora Nadeau of Cobalt at the organ, rendered two solos, "I Love You Truly" and during the signing of the register, "Because".

A reception was held at the Town Hall with 70 guests in attendance. The bride's table was centered with the traditional wedding cake and tall silver tapers. The bride's mother received in a suit dress of pink with white accessories and wore a corsage of white roses. The groom's mother assisted wearing a blue printed silk dress with pink accessories and a corsage of pink roses.

James E. Grant

A veteran mining man known in both the U.S. and Canada, James Edmund Grant died in Haileybury on Wednesday, July 12th. For more than 60 years he had been active in technical, engineering and mining affairs and still took an interest in new ideas until his death.

Mr. Grant was believed to be in his 80's but he was always reticent about his age. "A man is no older than he feels," he said, and to the end he took a lively interest in many diverse fields.

Formerly general manager of the Wright-Hargreaves Mine at Kirkland Lake, he was also vice-president and one of the original directors of Rahn Metals, North Bay.

Born at Brockville, Mr. Grant was apprenticed as a machinist and later worked for the General Electric Company at Schenectady, New York. There, he met the famous mathematician Charles Steimitz, who inspired him to a lifelong interest in technical matters.

In 1898 he took part in the Klondike Rush, and trekked over the famous Chilcot Pass. Mr. Grant spent seven summers and four winters in the Klondike, and then went to San Francisco via Panama, where he set up business as a patent attorney and draftsman.

He was in the centre of San Francisco during the earthquake of 1906 and played a part in the rescue and relief operations. Later, he ran an employment agency, studying at university in his spare time until he went to Goldfields, Nevada, another booming mining camp.

Mr. Grant left Goldfields in 1909 and came north to Cobalt where he spent a year. From Cobalt he went to the Porcupine camp, where he was superintendent of construction for Hollinger and Dome Mines. From 1912 to 1918 he was construc-

tion engineer for McIntyre Gold Mines, and then was appointed superintendent of the Wright-Hargreaves Mine at Kirkland Lake. In 1925 Mr. Grant was made general manager of Wright-Hargreaves until he retired in 1929.

Mr. Grant moved to Haileybury where he had an active consulting business for many years. He was associated with the development of many important mines including the Stadacona-Rouyn, Wood-Cadillac, Amm Gold Mines and Nickel Offset.

He had a wide range of interests outside the mining and metal fields. In his younger days he was a well-known lacrosse player and at one time a prize-winning bicycle racer in the New England states.

In later years he was an ardent hunter and fisherman and constant supporter of fish and game and conservation groups. He was a member of the Haileybury Golf Club, Haileybury Rotary Club, Curling Club, the Engineers' Club, Toronto, and the Canadian Institute of Mining and Metallurgy.

Mr. Grant married the former Florence Stark of Ottawa in 1921, and she survives. Also surviving is one daughter, Jean.

Funeral services and interment were at Brockville on Saturday.

DOG DAYS

These are the times that try men's souls, and their air-conditioning units — the "dog days".

Gone are the perfect days of June and in their place are about 40 days of hot, sticky weather that clings from early July to mid-August.

You might have guessed it was the Greeks who gave us the name for this summer misery. The ancients derived the name from the dog star, Sirius, which rises with the sun during this period.

The BBC provides a total of 80 hours a day of external broadcasting programs in 38 languages.

Milk Producers Asked To Endorse Petition

Ontario's fluid milk shippers will be faced with a petition to sign this week as the Ontario Whole Milk Producers League takes a major step in initiating a marketing plan for fluid milk. The petition will ask for a plebiscite to be held sometime in the future on a marketing plan. If 15 per cent of the 12,000-odd fluid milk producers sign the petition, it will be presented to the Ontario Milk Industry Board.

"We are moving ahead with our

plans as quickly as possible," says W. R. Peters, President of the League. "At our last directors meeting, the League officials were instructed to seek the status of a marketing board, and to develop a marketing plan for fluid milk. The petition is the first step."

The League directors also made the decision to co-operate to the utmost with the other three milk producer groups to develop an overall marketing plan for milk. This will likely develop after a fluid milk marketing board and plan is established.

The Whole Milk Producers League was formed almost 30 years ago to negotiate prices and terms and conditions of sale of fluid milk on behalf of its producer members. However, it is not a marketing board operating under the Milk Industry Act. The other three producer groups . . . the cheese producers, concentrated milk producers and the cream producers . . . all have marketing boards. With an overall marketing plan, it is desirable that the different groups each have marketing boards, in order that they be on equal legal footing.

A marketing plan for fluid milk is now being drafted. It will be placed before producers if the petition is successful. Meetings of the producers will be held throughout the province to discuss the plan in detail, before a vote is held on it.

League officials hope that the petition will be completed by mid-August. It asks simply that the producers "be given the opportunity to vote on a plan to become a marketing board for the marketing of milk produced by fluid milk producers."

Bride of Month Honored at Shower

CHARLTON — A shower in honor of a bride of the month, Judith Kiehna, whose marriage to Arnold Brownlee takes place on Saturday, July 29, was held in the Memorial Hall, Charlton, on Saturday evening, July 15.

The guest of honor was seated under a gaily decorated umbrella, from which confetti-filled balloons were hanging. Games were played with prizes being given the winners.

The bride-to-be, assisted by her mother, Mrs. H. Kiehna, and Arnold's mother, Mrs. H. Brownlee, opened the many gifts, while Judith's sister, Mrs. G. Cole, took several pictures.

Lunch was served by Mrs. Jack Playford and Mrs. Morris Toye, assisted by Sharon McFarlane, Cathy Ryan and Melinda Playford.

Others who attended were: Mrs. P. Croisier of Wawbewawa; Mrs. Art Cole, Mrs. Bruce Besley and Mrs. Mary Hill, Englehart; Mrs. Norman Playford, Mrs. James Kearns and Mary, Mrs. Elvin McFarlane, Mrs. F. Hill, Mrs. W. Schenk and Linda, Mrs. Geoffrey Hughes and Betty, Mrs. A. Ryan, Mrs. Leonard Brownlee, Mrs. Clifford Brownlee, Arlene McFarlane, Margaret Kiehna and Joanne and Cheryl Playford.

Several others who could not attend sent gifts. Those sending gifts were: Mrs. F. Kiehna, Mrs. A. Caza, Mrs. M. Sullivan, Mrs. R. Toye, Mrs. Boyes, Mrs. C. Playford, Mrs. E. Smart, Mrs. W. Harkness and Marilyn, Mrs. F. Roach, Mrs. G. Miller, Mrs. J. Quinn, Mrs. H. Hill and Mrs. S. Thwaites and Mrs. M. Smart.

Siscoe Mines

Silver production at Siscoe Mines, O'Brien for 1961 has kept pace with the record production of 1960.

Production in the second quarter was lower than that of the previous year, but the first quarter output took up most of the slack.

At the end of July, production reached 679,482 ounces as compared with the 680,308 ounces for the same period last year.

MID-SUMMER Home Fix-up

PREFINISHED ABITIBI PANELS

4x8 Butternut Autumn Walnut \$5.76 4x8 Provincial Cherry \$6.08
