

OIL SEARCH IN QUEBEC

Seismic operations are presently being carried out by British American Oil on its 100,000-acre permit near Mont Joli in the Gaspé Peninsula. Here, an explosive is detonated deep in a Quebec forest and the waves are recorded on sensitive apparatus in the truck. — B-A Oil Photo

Post Office Encourages Printed in Canada Mail

Changes in postal regulations designed to discourage a misleading appearance of Canadian origin in foreign printed and advertising material brought to Canada for mailing were announced by Postmaster General William Hamilton.

Under existing postal regulations, to avoid placing postage stamps on each of many identical pieces of printed advertising material, bulk postage may be paid at the time of mailing. A permit obtained from the Post Office is printed on the envelope as an indication that this has been done. Such permits are termed "postage-paid-in-cash."

In somewhat similar fashion "business reply electros" are made available to prepay postage on business reply post cards. Until the present, no restrictions had been placed on the use of these special permits for material printed outside Canada. Under the new regulations, which go into effect October 1st, the Post Office will no longer make available either type of permit for materials printed abroad for mailing in Canada.

In announcing the change, Postmaster General Hamilton said that in the past some foreign advertisers had used Canadian postage-paid-in-cash dies to give their material a "made in Canada" appearance. The inclusion in foreign periodicals and advertising materials of business-reply cards bearing Canada Post Office permit numbers had heightened this impression, he said. In future, the post office will decline to issue such electros to foreign publishers or advertisers unless written assurance is furnished that the electro will be used only on mail matter printed in Canada.

The change in regulations coincides with a recent announcement by the Postmaster General that,

effective August 1st, the postage rate on foreign publications mailed in Canada would be increased from an average of about two and one-half cents per pound to a flat rate of five cents per pound.

Mr. Hamilton said that the rate and regulation changes had been under study for some time by the post office and that their implementation also conformed with recommendations of the Royal Commission on Publications recently tabled in the House of Commons.

New Post

Mrs. Margaret L. Boehner, superintendent of Englehart and District Hospital, will become acting superintendent of nurses at Kirkland District Hospital about September 15, R. J. Cameron, administrator, reported Monday.

She was appointed at the recent Hospital Board meeting to replace Miss T. Koivu, who was given a year's leave of absence to take a post-graduate course in nursing administration at McGill University.

Hunting Licence Needed for Bear

Lands and Forests Minister Spooner of Ontario has announced that bounties on bears have been discontinued.

The number of bounty payments had declined during the last four years—1,868 in the 1957-58 fiscal year and 447 in the 1960-61 fiscal year. A bounty of \$10 was paid for a bear and \$5 for a cub where either damaged livestock or property.

The Game and Fisheries Act was amended this year to make bear a game animal and Ontario residents must obtain a special licence to hunt and kill them although provision is made in the legislation for anyone to defend his property from damage by bears.
