

Rockettes Edge Hardware 5-3

The Cobalt Ladies Rockettes edged the New Liskeard Temiskaming Hardware Ladies 5 to 3 in a Central Group playoff game at the Beach Park on Sunday. Ann Hassett was the winning pitcher while M. Breault was the loser. Cobalt took the lead in the fourth when V. Montgomery doubled and scored on D. Spencer's single. Montgomery, Belanger and Spencer added runs in the sixth with Breault, Kirkby and Cote scoring for Liskeard. C. Kenty tallied in the ninth for Cobalt.

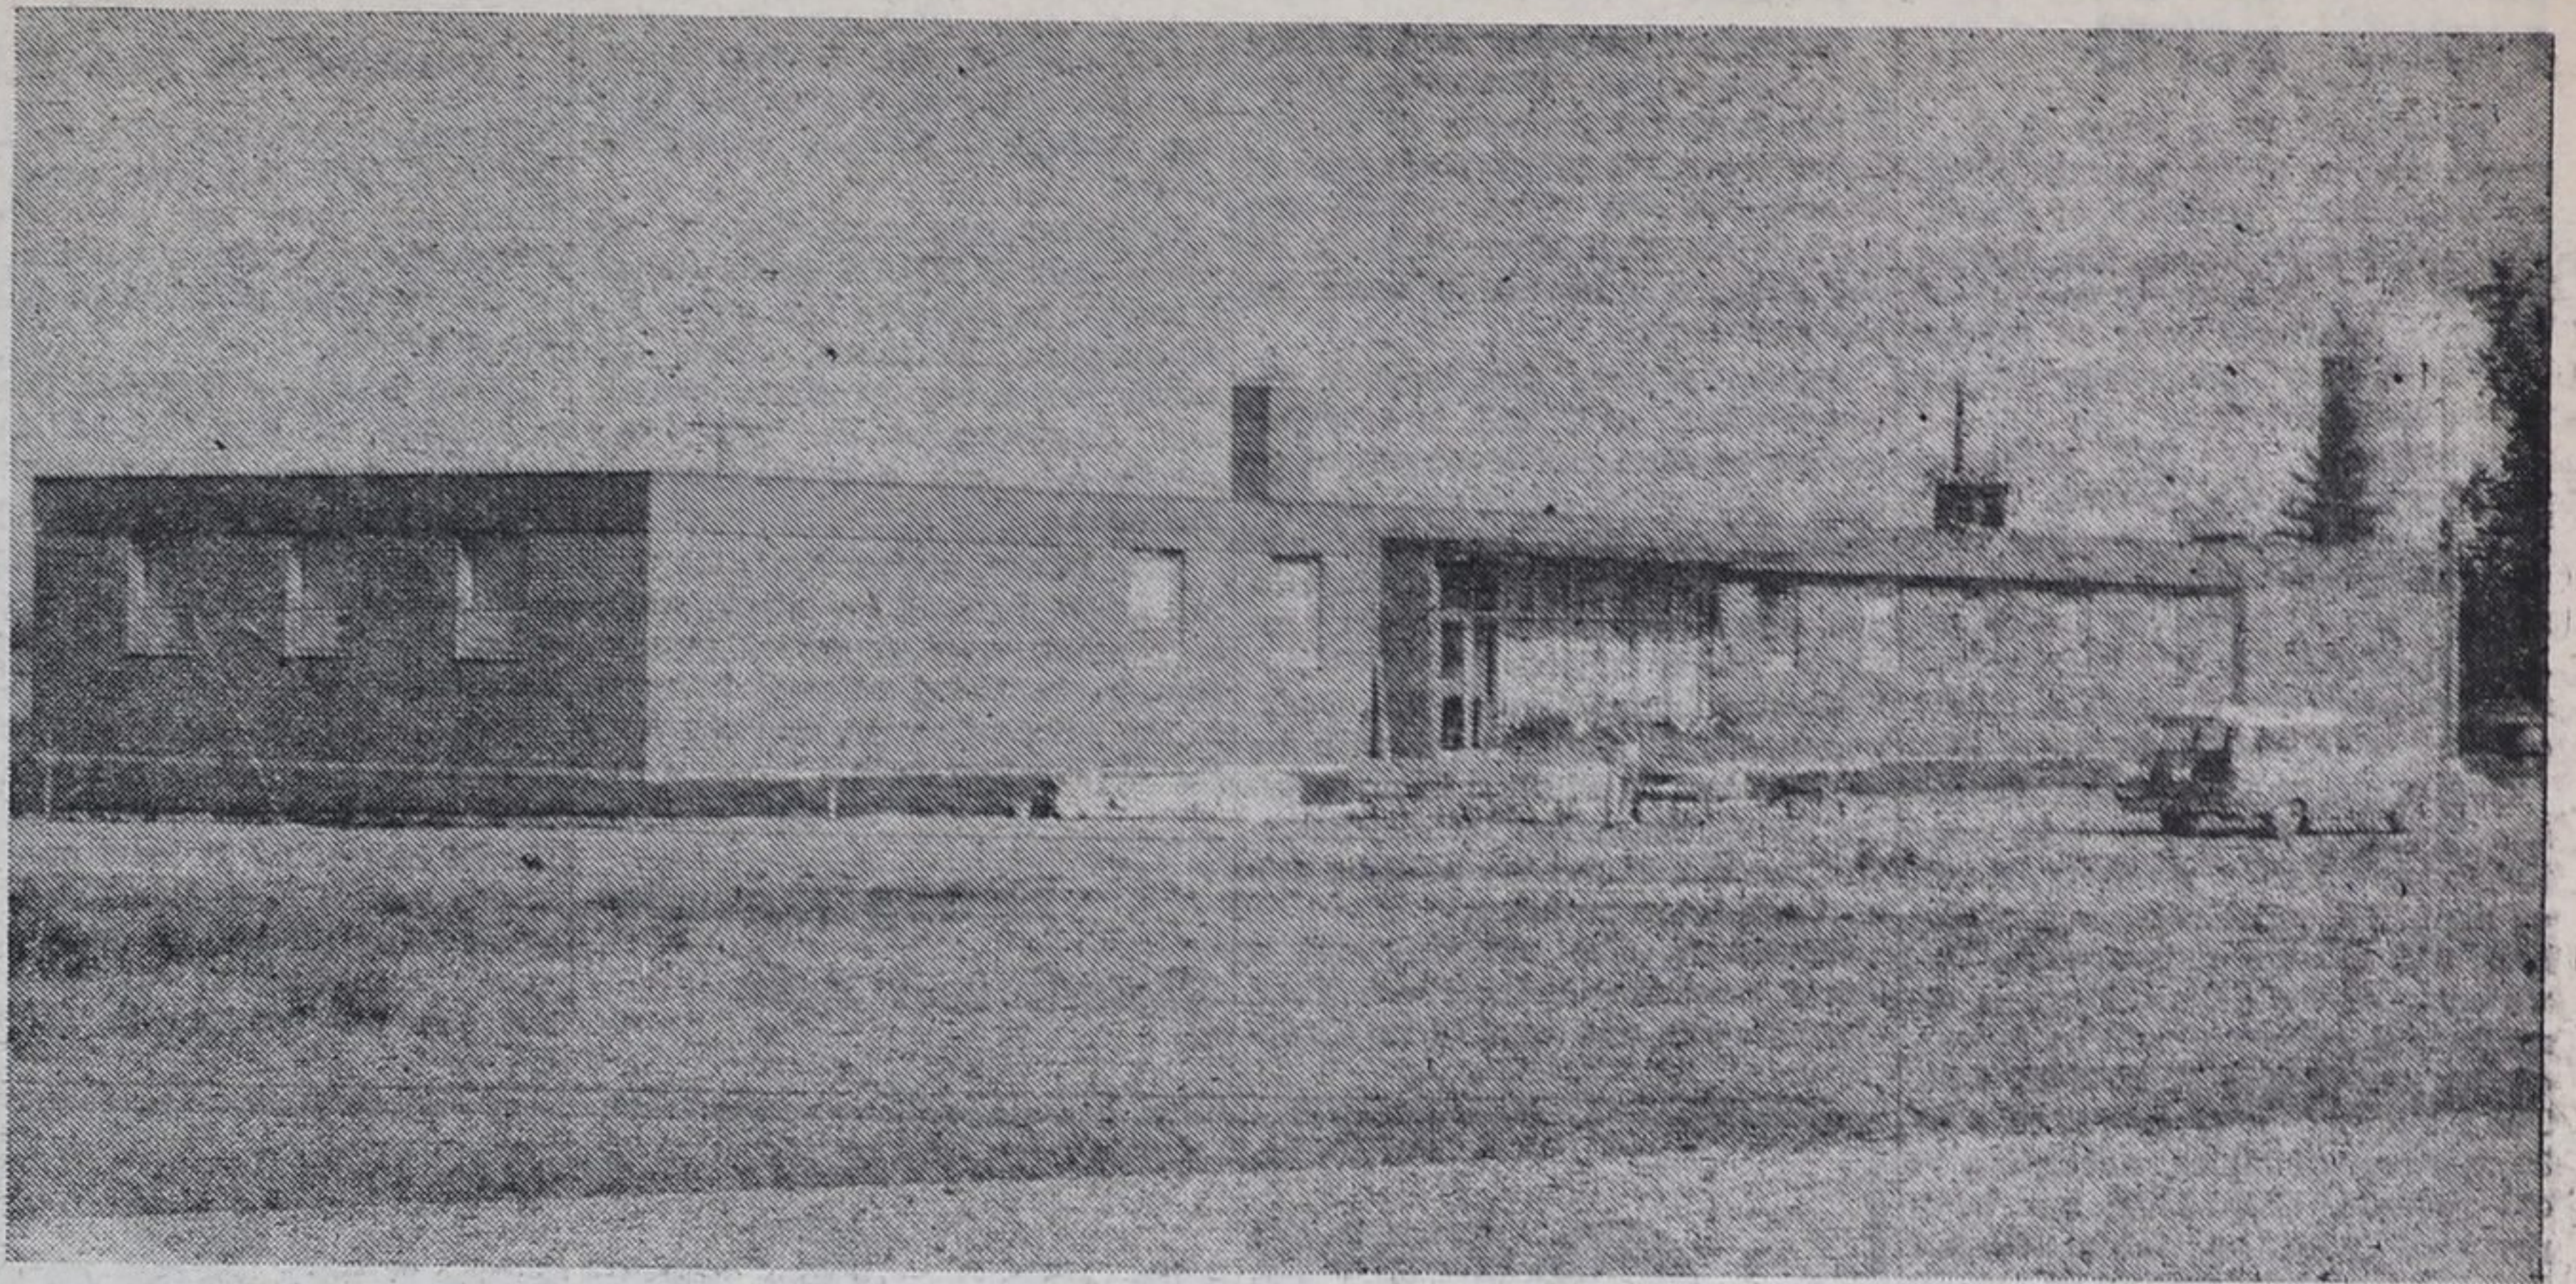

New Liskeard Ladies Wallop Haileybury

In the first game of the round robin playoffs for the Central Group Ladies' Softball honours, the New Liskeard Temiskaming Hardware Ladies whalloped Haileybury Nurses 24 to 2 behind the strong arm pitching of Muriel Breault. Nurse Labrecke was the losing pitcher. New Liskeard were leading five to three after five innings but added three runs in the sixth, five in the seventh and nine in the eighth before ending the match with two runs in the ninth. Stohart, Flood and Breault were the pick of the winners, while Quesnel, Mathew and Otter played well for the Nurses.

Lumber Kings Trounce Jims

The Latchford Lumber Kings trounced the Sport Centre Jims 5 to 1 at the Beach Park in a regular Central Group League play off fixture. Ted Bates was the winning pitcher while K. Latham took the loss. Ted Bates scored in the first and B. LaRose in the second to give Latchford the lead. Tom Steele scored for Jims in the fifth. The Lumber Kings broke loose for three runs in the sixth, four in the eighth and six in the ninth to walk away with the game.

The Ontario Department of Agriculture will hold the official opening of its new Farm Services Building in New Liskeard on Saturday next. The Hon. William A. Goodfellow, Minister of Agriculture, will be on hand for the ceremony, and the general public has been invited to attend.

Test Methods, Varieties and Blood Lines On Ontario Demonstration Farmland

Located within the town limits of New Liskeard is situated the Ontario Demonstration Farm. A unit which strives to provide local information pertaining to Agricultural problems for North-Eastern Ontario on practically all phases of Agricultural production.

In charge of this fine modern plant is John Butler, farm superintendent, a graduate of McGill University and Kemptonville Agricultural College who carries a B.Sc. Agriculture.

As well as his academic degree,

Mr. Butler has been a farmer, spent three years on the Dominion Experimental Farm at Ottawa specializing in Animal Husbandry and an Ag. Rep. at Huron and Renfrew counties. In between he tacked four-and-a-half years with the RCAF.

Since his arrival here in 1958, Mr. Butler has instituted many experiments at the farm which proved out and are now being put into practice by district farmers.

Many others are still in the experimental stage, and may or may not prove practical for Northern Ontario farms.

"Our job at the farm is to carry

work for our Northern farmers," explained Mr. Butler, "in this way, for instance, we can establish the fact that a certain type of oats will grow well here, and more than that, we can show it growing to the interested farmers."

"This philosophy, and practice is carried into all phases of farming," continued Mr. Butler, "and our terms of reference is such that we are able to carry on experiments that would be economic suicide for any farmer to try."

"We have an advantage, too, in that all the findings of the many agricultural units and services across the province are readily available to us."

During the past three years an extensive building program has been under way, structure which it is felt will greatly improve the unit itself, and through their application greatly increase the facilities which the unit will be able to offer to rural and urban people through North Eastern Ontario.

New buildings erected during this time have included a plank truss loose-housing beef barn, sheep barn, poultry house, tower silo and automatic feeding equipment. The latest building constructed and now complete has been the Regional Agricultural Services Building in which all branches of the Ontario Department of Agriculture are located. This building has been designed to meet the agricultural requirements of North Eastern Ontario and thus provide farmers in the northern areas with service which prior to this, have not always been possible, due to our geographical location.

Ontario Department of Agriculture branches and services in this

building include office accommodation for the District of Temiskaming Agricultural Representative, Demonstration Farm Superintendent, Regional Veterinary Diagnostic Laboratory, Field Crop Laboratory, Home Economist, Agricultural Engineer, Dairy Branch Fieldman, Fruit and Vegetable Inspector and Dairy Herd Improvement Fieldman, plus the additional staff affiliated with Extension Branch, Demonstration Farm, Veterinary Diagnostic Laboratory.

Discovery Night In Second Year

It has just been announced that the O'Keefe Brewing Company will again sponsor the CFCL Award Winning Talent Show, DISCOVERY NIGHT, this Fall. Plans are now being made to again start a search for promising talent for the second series, and auditions will be held throughout the coverage area of CFCL - TV.

The first series which commenced less than a year ago and ran for 39 weeks created tremendous interest both with viewers and among the many performers who appear weekly in the hope of becoming one of the three final winners with prizes topping \$800.00.

For many it was their first venture before the cameras, but the experience will stand them in good stead in the entertainment business. Some found it was a stepping stone to greater things. Some will return to try their luck again this year.

Mr. Jean DeVilliers, Program Director of CFCL-TV and originator of the series, is confident that the second series will be even a greater success than the first. DISCOVERY NIGHT won for CFCL-TV its first Gold Medal Award from America's TV Radio Mirror, for the "Best Music Show - Canada" produced by a privately owned station.

Auditions will commence in the various centres on Monday, August 14. Prospective performers this year who would like to audition will be asked to leave particulars with a "contact man" in their particular area. Here are the dates and contacts for the first leg of the Audition Tour in this area:

- August 21 — Haileybury — 7:00 p.m. High School: Contact Miss Frances Caron.
- August 21 — Cobalt — 9:00 p.m. Canadian Legion Hall: Contact Fern Desjardins.
- August 22 — New Liskeard — 7:00 p.m. Canadian Legion Hall: Contact Miss Carrie Taylor.
- August 22 — Englehart — 9:00 p.m. High School: Contact Mrs. Doreen James.

Cobalter Drowned Pinned Inside His Car

Well-known in the Tri-Towns, and born in Cobalt, Joseph Edward McAndrew died in a car crash last Saturday. Mr. McAndrew, 44, was drowned in the Veuve River about 27 miles east of Sudbury, when he was pinned behind the wheel of his car which had crashed into about nine feet of water.

Mr. McAndrew was driving from his Elliot Lake home to visit his mother at Cobalt. He was the oldest son of the late Albinus (Red) McAndrew, and Mrs. McAndrew. For several years he has been assaying at Milliken Lake Mine.

His wife was hospitalized at Sudbury following the crash with shock and minor injuries. Another woman passenger and her 8-year-

old son escaped injury.

Funeral services were held Wednesday from St. Patrick's Church at Cobalt with Father M. J. Scully officiating.

Mr. McAndrew is survived by his wife and two daughters, Mrs. Jim Somers of Virginiatown, and Mrs. Ernest Scully, Sarnia. Also surviving are seven sisters and three brothers.

They are Maurice, Cobalt; Gerald and Jack, Elliot Lake; (Lila) Mr. George Cuevillon, Kirkland Lake; (Joan) Mrs. S. A. Stilwell, Sudbury; (Beatrice) Mrs. N. J. Matymish, Powassan; Maureen, St. Joseph's Hospital, North Bay; Marguerite, Marjorie and Donna, all of Cobalt.

Two Sisters Die At Englehart Fire

Born in Scotland 82 years ago, Mrs. Paterson died suddenly as the result of a house fire Sunday morning. She was predeceased by her husband, the late James Paterson, in 1949. Survivors are two sons, William of Brampton; Donald, Englehart; two daughters, Margaret of Long Branch; and (Mary) Mrs. Bernie Bruce of Englehart.

The late Mrs. Paterson rested at the McDonald Funeral Home until time for the services in St. Paul's Presbyterian Church on Tuesday. Interment was in the family plot in the Englehart Cemetery.

Mrs. Jean Connell died in the same house fire. She was 84. Her body was shipped to Bolton Sunday night by train and burial will be in the family plot in Bolton. Mrs. Connell was a sister-in-law of the late Mrs. James Paterson.
