

# Across the Kitchen Table

BY MRS. MAC

Next Monday morning I will be forsaking the "Kitchen Table" for the car and the open road, (at least, I hope that by starting early it will be open) and my son and I will take off for Dunnville, close to Lake Erie. I have never driven there before and I expect to enjoy the trip thoroughly, especially as we plan to return by way of Carleton Place and perhaps Ottawa. So I should see some parts of Ontario that I have never seen before. It will be the first long drive that Ross and I have taken together, and as his sense of humour is even more developed than mine, I expect there will be several giggles along the way.

I will be out of the office until Monday, October 16th, and as there will be no one in my place, I hope that anyone who has any news items will phone them in to the Speaker Office in New Liskeard, (Zenith-64000, no toll chg.) or if they are long items, mail them in.

It is nice to be planning a holiday away from home again and as it is almost fifteen years since I have seen my friend there, except for about half an hour last summer when she was in New Liskeard enroute for the west coast, there will be a lot of family history, on both sides, to catch up on. She taught in our school at Tomstown about forty years ago, and of the six teachers who boarded with me at various times, she is the only one who has kept in touch.

After the Haileyburian and the Speaker came out last week, with the heading "Governor-General's Itinerary", Mayor Cooke told me that he was astounded to hear that the Governor-General was to visit the town. However, as I have nothing to do with the headlines in either paper, it didn't worry me very much, but I did feel that the Lieutenant-Governor should appreciate the promotion. In fact, I

even told Mr. Cooke that I might break down some day and promote him. So if some future account of a council meeting should start off: "Postmaster-General Cooke occupied the mayor's chair", don't flip, it will just be a paper promotion, the same as the Lieutenant-Governor's.

In granting the pupils and students a holiday, the Lieutenant-Governor certainly made a hit with them, but judging by some of the remarks I heard on the street, I don't think all the mothers appreciated it, on a dark and dreary washday.

My roses are blooming again, particularly Peace and Crimson Glory. I also have eighty crocus bulbs and about the same number of tulips and daffodils to plant as soon as I come back.

## footnote from Glenn Walton

perhaps tomorrow...

Soon... very soon... he'll take his first "free" step. At that moment his tiny feet will be bearing the full weight of his body, about 20 pounds. If the 26 pliable little bones in each foot are to develop healthfully, he'll need correct shoes, properly fitted - Pussyfoots, "first walkers" by Savage.

Pussyfoots have flexible sueded leather soles and treaded heels to guard against slipping; they're smooth inside to resist chafing. Moccasin toes provide wiggle-room. The tongue extends right to the toe for easy on and off. And Pussyfoots are Sanitized® for lasting hygienic protection. Your baby's first fitting is most important. We have the experience and patience to do it properly.
