Hallowe'en Quiet In New Liskeard

There was no Hallowe'en riot or even a near riot in New Liskeard on Tuesday evening as police and firemen stamped out any fuses approaching the powder keg. There was not even an approach to the disgraceful occurrence of last year when fire hoses were used to cool off riotous youth.

New Liskeard police, with an assist from Haileybury OPP and New Liskeard Fire Department quietly patrolled the streets and their very presence was enough to curb any-

thing resembling a disturbance.

Early in the evening, before crowds started to collect, police in pairs were patrolling the main streets, and the fire department personnel was spread strategically through the side streets.

As the groups grew in size, looking for a leader, the police moved them on, and only once did the teenagers get a chance to organize their snake dance. It lasted only long enough for their leader to be led home to bed.

One stupid group of youngsters started a fire of tires on a side street near a tinder dry garage which was quickly brought under control. They were not caught in the act, which was lucky for them because arson is a really serious crime.

Another bunch tossed tires in front of moving cars, just for the fun of hearing brakes go on. Their minds were not keen enough to visualize just what could have happened if the tire had flipped through a windshield.

That was all except for the turning on of a few hydrants, tossing of garbage on the street and the exploding of a few firecrackers that some child had saved since May 24.

As one teenager was heard to say, "This is no fun, let's go home and have a party."

Whitewood and Armstrong had as much adult traffic as would be there on a busy Friday night as adults turned out to see what their offspring would accomplish. In this jam an accident occurred when a school girl and her tiny charge were bumped by a car while crossing the street. It is reported that no serious damage was done.

One prominent citizen expressed an opinion that was echoed by many. "I was glad to see the young people accept the situation, and return to their homes."

"I am close enough to my own youth to realize that this annual demonstration is a small rebellion against the disciplines of home, church and school," he remarked "and as long as it was kept within reasonable limits no one seriously minded."

"But when the laughable shenanigans started to include serious damage to property, complete defiance and dangerous pranks, then it was time to draw the line. "I am glad," he concluded, "that the young people accepted adult decision that they had gone too far and dispersed quietly and amiably."

Old Air Lines

A request has been received in this office for information regarding Air Lines supposed to have operated out of Haileybury during the years 1924 to 1928. They were the Elliot-Fairchild Air Service and Air Transport, the Patricia Airways and Exploration, the Laurentide Air Service, and the Northern Air Service.

Does anyone remember these Airlines, their owners or pilots, or the type of service they gave?

The Weather

Week Ending October 31, 1961

	Max.	Min.
Wednesday	43	41
Thursday	42	35
Friday	37	30
Saturday	50	27
Sunday	52	46
Monday	46	33
Tuesday	45	35

The month of October has compared very favourably with the same month last year, and also with the average since 1894.

The average temperature for the month this year was 47.7; last year, 45.2; since 1894, 42.9.

The maximum temperature this year was 77 degrees on the 7th; last year it was 70 on the 10th; and since 1894, 81.8 degrees in 1938.

The minimum temperature was 27 degrees this year, 24 last year, and 10.0 in 1917.

Sweepstakes

Two district punters drew horses in the Irish Sweepstake, but neither horse figured in the money ranks.

The Latchford holder, under the nom de plume of Good Show drew Water Skier and the Englehart holder, Half and Half, Scotch Woodcock.

Geological Report Of Cobalt Area

A preliminary geological report which gives very exhaustive treatment to part of the old Cobalt mining area is now available for release by the Ontario Department of Mines. The report, P. R. 1961-7, written by Dr. Robert Thomson, the Department's resident geologist in Cobalt, is the eighth of its kind, covering parts of the district, which he has published within the last few months.

The area covered in the newest publication includes part of Coleman Township, Concession III, lots 1 to 3, and Gillies Limit, Blocks 1 and 2, as well as claims A48 to 58 and A88 to 100.

The report summarizes the more important geological features of the whole area and follows up with detailed descriptions of the mining properties in the sections under review.

Misericordia Hospital has been adding steadily to its nursing staff, and above are a few of those who have come to the district town hospital during the past six months. Left to right, seated: Anne Amendola, New Liskeard, Maureen McAndrew, Cobalt, standing, Jane Hall, Haileybury, Marina McIlwain, Haileybury and Sheila Libby, Haileybury.

Magistrate Levies Heavy Fines As Sequel to Hunting Accidents

Trigger-happy hunters received a warning at District Court last Friday when three hunters were fined more than \$400 for their part in a shooting incident on the Montreal River recently.

Magistrate W. S. Gardner said that hunting regulations, made primarily for the protection of animals, now give more attention to humans in view of the increasing number of hunting accidents.

He found Felix Tremblay of Whitby and Dalton McLaren of North Cobalt on a joint charge of careless discharge of firearms. They were each fined \$150 and costs on this charge. A similar charge against Leander Tremblay

of New Liskeard was dismissed when it was established that he was operating the motor on the boat.

The three men were found guilty on the second charge of carrying loaded guns in a powered boat and were fined \$25 and \$3 and had their guns confiscated.

Lloyd Willard of North Cobalt, with a heavily bandaged hand told the court that he and two companions, Herb Long of North Cobalt and John Cochrane of New Liskeard were hunting moose on the Montreal River, using a canoe.

He said the canoe was about 30 feet off shore when they heard an outboard motor and then shooting. He didn't remember how many shots came close to their craft, but one struck his hand. He said that the shooting stopped when the canoe turned broadside to the powerboat.

He also said that he and Willard fired two shots to warn the other hunters and Long waved his paddle to attract attention.

Cpl. Hal Buttle of Haileybury Detachment of the Ontario Provincial Police read the statements from Tremblay and McLaren which said that they had been watching the moose crossing from the afternoon before. They thought the canoe and its occupants was a moose walking in the water near shore.

They were defended by Counsel Dalton Dean, QC, who urged that the incident was an honest mistake. Crown Attorney Black said that the men were guilty of gross negligence.

Magistrate told the accused men that to a certain degree he regretted finding them guilty. "But you are fortunate not being here on a manslaughter charge." He gave them until November 20 to pay their fines.

At the same court George Sidney, charged with careless discharge of firearms was granted a week's adjournment. Sidney was in

a hunting accident which resulted in the death of Alfred Boucher of Cobalt.

And a bench warrant was ordered for Paul Patterson of Burlington who will be brought to court to answer a charge which arose out of a shooting incident near Englehart in which property damage is claimed.

It is alleged that two cars stopped to allow the accused to shoot at a couple of partridge in a gully. Pellets, it's claimed, struck the windshield and radiator of one of the cars.

March of Dimes Holds Clinic

The Fourth March of Dimes Adult Orthopaedic Clinic is being held at the Kirkland and District Hospital on Friday, November 3rd, 1961. This clinic is convened by Dr. C. N. Brebner, Medical Advisor for the Districts of Cochrane and Temiskaming, and all patients attending, come from this area.

Dr. W. R. Harris, Chairman of the Provincial Medical Advisory Committee, Dr. Ian Macnab and Dr. E. H. Simmons, both members of the Medical Advisory Committee, orthopaedic specialists from Toronto, will be attending Clinicians who will examine these patients and forward reports of their findings to the family physicians. With the assistance of the March of Dimes, any of these patients requiring further remedial surgery will then go to Toronto. A staff of local Doctors and nurses will be on hand to assist in the examination of these patients. For many of them, this is the first step before vocational training and job placement.

Mrs. Marie Young, District Case-worker, has been responsible for these persons attending clinics.

Cobalt-Haileybury Club Starts Curling on Nov. 10

The ladies of the Cobalt - Haileybury Curling Club held their first general meeting of the season on October 25. A rather full season of activity seems to be the order of the day — the season will get off to a curling start on Friday, November 10, with a pot luck supper, with mixed curling to follow. Through experience we know just how good those suppers can be, and the curling afterwards is "just out of this world!" Let's have the whole club out! Remember its at 6:00 p.m.!

Mixed curling is really organized this season — each Friday there will be two draws at 7:00 and 9:00 — regular rinks will be drawn up and this will be run as a regular Club Competition, with prizes accordingly.

From here it looks as if there will be two regularly scheduled games a week, plus the mixed

games on Friday, leaving Saturday and Sunday open for various other games, play-offs, etc.

The ladies will have one long competition before Christmas, instead of two as formerly — this will run for eight or nine games. Immediately after the New Year, the Norma Herron Competition will be begun, so anyone not curling before Christmas and wishing to curl in it, please get your name in before Christmas! Otherwise you might just get left out! For your convenience in this, and also for any prospective curler, the following will take care of this for you: in Cobalt, Ruth Spencer at 4825; or Hildred Welch at 4920; in Haileybury, Jean St. Louis at OS 2-3278; or Jean Peckover at OS 2-3739.

Come on, guys and gals let's see you at the Club Friday the 10th. The regular curling schedule will start Monday, November 13.
