Ottawa.

In Canada — \$2.50 per year in advance.  
In United States — \$3.50 per year in advance.

**I See by  
THE PAPERS**

HOUSTON, Tex. (AP) — Two ships carrying oil and chemicals collided and burst into flames recently in the Houston ship channel in Galveston Bay.

A U.S. Coast Guard spokesman said two men were killed and 16 others injured. Eight men still were missing at mid-morning.

At least three women and a child were aboard.

All the hospital cases were from the Union Reliance, a 492-foot freighter of Nationalist Chinese registry bound for New Orleans.

The other ship is the 9,003-ton Norwegian tanker M. S. Berean, bound for Houston.

AMOS, Que (CP) — A fire of unknown origin recently destroyed the Roman Catholic Normal School for Boys in Amos, 300 miles northwest of Montreal.

Provincial police reported the three-storey building was a total loss some three hours after the fire broke out. Some 130 students were enrolled at the institution.

No one was believed to be in the school when the blaze started.

MONTREAL (CP) — Gerard Bakker was 63 years old and the father of eight children when he abandoned wealth and social standing in his native Holland to become a Roman Catholic priest.

Msgr. Bakker, now 70 and with 16 grandchildren, is spending the years most men reserve for retirement as a missionary fighting leprosy in the steaming French Cameroons.

He was interviewed while passing through Montreal on a campaign to raise funds for hospitals, schools and churches in the equatorial republic.

He has raised nearly \$500,000 in his seven years as a priest.

"Deeds, not words," is the motto of Msgr. Bakker, who finds words of little help to the 30,000 lepers in whose welfare he is interested.

Msgr. Bakker was director of a combined bank - insurance company in Nijmegen, Holland, when the Second World War started. He says constant fear for the children during Nazi air raids destroyed his wife's health.

She died of a heart attack in 1944.

Slowly, his life began to change. When the Allies liberated Nijmegen, Bakker turned his home over to the Red Cross and helped nurse the sick and the wounded.

"Later in the quiet and seclusion of a retreat I prayed for guidance on what to do with my life, and the grace of God came to me," he says. "I had to serve wherever humanity needed help most, and where more than among the suffering bodies and souls of Africa?"

This was in 1949, when he was 59 and three of his six sons had joined the Jesuit order. Msgr. Bakker was ordained before any of them after four years' training in Rome.

SUDBURY (CP) — Two Sudbury men were sentenced to reformatory recently after attempting to sell scrap copper to the same place where it was

stolen a few days before.

Ernest Duguay, alias Robert Chartrand, 35, and Charles Castonguay, 29, both pleaded guilty of possessing 765 pounds of scrap copper, stolen from the Nickel City Auto Supply. Each was sentenced to six months.

When they brought the material to the Nickel City yard and tried to sell it, an employee recognized it and called police.

WINDSOR (CP) — It's doubtful that the Communists are trying to conquer the world with laughter, but they do have their moments.

Wallace Nesbitt, chairman of the Canadian delegation to the United Nations gave this example in a speech here Monday.

He once encountered a Russian and a Chinese delegate having a heated debate at the UN.

Aware of the ideological dispute between their countries, Mr. Nesbitt laughingly asked: "Having an argument?"

"Yes," one of them replied, "but I don't see why you're laughing. We're only arguing over the best way to liquidate you."

ATHENS (AP)—Wailing flood victims and grim rescue squads continued today to sift through the wreckage left by the worst storm in Athenian memory, a deluge that took 39 lives and injured 350. Eight others are missing.

Army engineers, firemen and police worked through the night under searchlights looking for the missing in the mud and rubble of homes smashed by torrential rains, giant hailstones an hurricane-force winds in a four-hour weather rampage Monday.

Between 3,000 and 4,500 persons were sheltered in government buildings and schools.

Officials said almost 300 houses had been wrecked and 600 others seriously damaged.

DRYDEN (CP) — Two missing hunters found recently in the northwestern Ontario bush near here ate raw meat to survive, the father of one of the rescued men said.

Myron Myers, father of Elwyn Myers, 26, of Penwater, Mich., said his son and his Indian guide, Thomas Strong, 23, of McIntosh, Ont., shot and killed a rabbit and a deer.

He said in a telephone interview that the men could not light a fire to cook the meat. Matches carried by Mr. Myers had become wet and useless.

The elder Myers spoke to his son after he and Strong were rescued following a week in the bush in the Portal Lake area, 50 miles northwest of here.

The missing men were found by an Indian search party Monday and flown to safety. They were admitted to Dryden Hospital. The younger Myers, an ex-marine is suffering from exposure. Sharp branches tore Strong's leg as they walked through the dense bush.

The elder Myers, who flew into the area after his son was reported missing, said his son was on a moose-hunting trip prior to entering dentistry school.

The younger Myers told rescuers that they became lost after they were flown into Portal Lake October 28. They had no compass and were unable to find their way back to the lake in time for the rendezvous with a pickup plane two days later.

They built a lean-to for shelter and used the skin from the deer they shot as a blanket.

LONDON (AP) — Princess Margaret's husband, Lord Snowdon, went back to work recently three days after his wife gave birth to his son and heir.

The former Antony Armstrong Jones has an unpaid post at London's Council of Industrial Design as an adviser on display technique.

Meanwhile, the princess and her son were reported to be "progressing very well."

Margaret was up and about again today. She also got up for a while Sunday.

TORONTO (CP) —Fernand Belanger, 11, of Tee Lake, Que., died in the operating room of the Hospital for Sick Children recently, minutes after arriving by helicopter, Que., via the North Bay Air Force Base.

He was hit Sunday by an accidental blast from his father's shot-

gun. The father, Gilbert Belanger, and his son were hunting rabbits.

Mr. Belanger carried Fernand, eldest of seven children in the family, to a highway and hitchhiked the five miles to Timiskaming Hospital.

Monday's mercy flight was co-ordinated by RCAF Search and Rescue at Trenton. An H-34 Sikorsky helicopter picked up the wounded boy at Timiskaming and ferried him to North Bay Air Force Base, where he was put aboard an Albatross airplane and brought to Downsview Airport.

HULL, Que (CP) — It will soon be against the law to make night-time trips to out-houses in suburban South Hull with lights that aren't fireproof.

Council of the largely rural municipality recently approved a bylaw calling for a closed lantern or flashlight on such jaunts.

The bylaw also calls on householders to set up do-it-yourself fire departments in their homes — with ladders, hoses and other firefighting equipment.
