Leo Deraiche, also fighting for fication for his action on council during his terms in office, and had the following to say:

"Not many years ago the ents in the race are already on are able to pay who are holding people of the Township of Bucke out," he said, "and these we will elected Reeve Charles Courtemanch in place of Harry Groom. running for reeve on an excellent more difficult time, I will propose I was a member of Mr. Courterecord as Finance Chairman dur- installment paying presently used manche's council, and worked closely with him for a number of years.

What we found was almost litcommunity had been jeopardized gested in council," said Mr. Hop- erally, a 'one horse, one wagon,' township.

> We had to completely re-equip the township's work department. We had to bring fire protection to all the township, instead of just the North Cobalt area. We had to build a fire hall, and make many improvements to the township's physical assests and administrative system.

We did all this without any great increase in taxes, but due to the number of inequalities existing in the assessment, we consulted the department of municipal affairs, and we were strongly recommended to re-assess the township.

We also realized, that should the township have to make any major expenditure, our borrowing power was strictly limited to a percentage of the assessment. With the low assessment, the council was virtually powerless to embark on any major project.

Therefore, after taking the best advice, we had the township reassessed. Naturally, there was a these were whipped up for politi- Carnival plans "rolling on wheels" cal reasons, and Reeve Courtemanche and almost the entire council were thrown out of office.

During the past year there has been little progress in the township. After, at one time, urging taxpayers rot to pay their taxes, the Reeve now finds that the township will face a mammoth overdraft at the bank if taxpayers don't rally round.

lower taxes by complaining, but by taking positive action to bring more business and industry to the

Hong Kong has always been a crowded, busy little island.

With refugees escaping from the Chinese mainland at the rate

of 300 a day the overcrowding has become a vast and serious

problem. The Canadian Save the Children Fund is establishing

nurseries for refugee children, enabling parents to work and so

achieve some independence and avoid starvation. Here you see

"hand inspection" before a hot meal is served. There is stark

need; and much work for Canadian dollars to do. This Christmas

the CSCF is appealing for funds to expand its help to child-

ren in Hong Kong and throughout the world.

Temagami Winter Carnival Com- responsibilities last year will likemittee was held recently in Goddard's Hall with Wilfred Spooner, general chairman, taking the chair good deal of hard feelings, but to get the 1962 Temagami Winter

> Cliff Cox acted as secretary. Present were members of last year's committee, J. H. Swann, Frank Goddard, Lockie Goddard, Ted White-House, Jack Pacey, Jack Davis, Bill Wells and Ralph Costante.

It was decided after some discussion that the carnival will be I pledge myself to work towards held Feb. 16, 17, and 18 in order putting the township back on the not to conflict with carnivals progressive lines instituted by being held by other northern Reeve Courtemanche. We will not towns, which have followed Temagami's example in promoting winter sports.

The Temagami Carnival, first sponsored by the Temagami Chamber of Commerce, has snowballed into an event of sizeable importance in the winter life of northern towns. Visitors attend from many points and sport competitors enter from as far south as New Hampshire.

It was voted that a general chairman be assisted by two appointed vice-chairman this year in order to compensate for the heavy demand on time and personal attention of men at the head of the carnival project. Some 15 competitive events are anticipated and committee mem-

ly be on the job.

Many enquiries are being received in connection with the dog team derby and stock car racing. The carnival queen contest always provokes great interest. It is hoped that ski event will be favoured with suitable weather and snow.

Among those present and participating actively in discussions were outstanding drivers and owners of racing dog teams, Roma Goudrea of Chelmsford, Len Cote of Martin River and Tony Landry of Azilda.

President Kennedy has dumped a Christmas present into the lap of district silver mines. It was announced in Washington yesterday that he has ordered the U.S. Treasury to stop selling silver from its reserves.

This, in effect, is creating a free silver market, something the operators have been hoping for, for many years. Silver from the U.S. Treasury reserves has been holding the price down to around 91 cents.

It is freely predicted that silver will hit at least \$1.25 an ounce. This will spur an immense new search for silver in the area from Gowganda to Silver Center.

Silver operators are unanimous in the area that the almost inevitable increase in the price of silver Haileybury voters this year will Whelan, Dr. W. C. Arnold, Ben will ult in vastly extended ac-

Ken Buffam, an entry in the twoway battle for the mayor's seat in Haileybury, believes that his 14 for re-election to serve the town years of experience in municipal affairs could be of value to the ratepayers of this town.

Mr. Buffam served as mayor of Cobalt for 10 years, there was three years on council there, has had one year on Haileybury council, and in addition to this served for a number of years as chairman of the Cobalt School Board.

"During my years on Cobalt council, close tab was kept on town spending, and my record of annually balanced budgets was the best the Silvertown ever enjoyed." he said.

"I was able to effect this," congiven the recreation authority of tinued Mr. Buffam, "because I had the town complete moral and all the complete co-operation of the possible financial support; the fire council, the works department, the department has the best truck in town clerk and the police and fire
