

Across the Kitchen Table

BY MRS. MAC

Tomorrow is the first of December. We have been extremely fortunate in our November weather. Just imagine, almost no snow until the 22nd, and the temperatures so high that the thermostat could be low, until Sunday night. Monday morning, was, I know, quite chilly. I had only one key for my car and when I went out to start it to come to work, there was a bit of ice in the key hole of the door and for some unexplainable reason, the tip of the key broke off when I tried to get in. I dug it out with a crochet hook, (they are handy things to have around) but had to send an SOS to Sroka's to get the door open and the motor started. In a very short time I was on my way to Haileybury with the Sroka Volks, behind me to see that I didn't slide into the ditch or stall the engine. Ken made me two new keys so everything is fine again, even tho' I did get razed a bit.

I'm a standing joke around that garage. I don't think they have any other customer who can do as many foolish things as I can.

Talking about snow. My daughter and her husband and the two boys came down Sunday and the boys brought their skis and sleighs along. They couldn't understand why we had no snow when their roads in Englehart had to be snowplowed.

I cleaned out the old magazines during the week-end saving all the Christmas ones (for years back, I think) and Sunday night my two daughters and I had a wonderful time going through them. We all

Parents Night At Public School

A very successful Parents Night was held in the Haileybury Public School on Monday night when approximately sixty per cent of the parents were present.

One of the highlights of the evening was the Grade One Art Gallery, ayed in the lower hall. Their teacher, Miss Miller, had each pupil draw a picture of their own family and these were displayed as a good example of how each child regards their family.

In the upper hall, the work and note books of Grades Six, Seven and Eight were laid out for inspection. All teachers were in their rooms to meet the parents. Both parents and teachers considered the evening was a worth while effort.

On Wednesday morning Mr. Secord, of the Public Relations Postal Department of North Bay, was at the Public School to give the pupils a talk on the various aspects of post office procedure and the work involved in sending mail all over the world. The local post master, Mr. A. H. Cooke, accompanied Mr. Secord and introduced him to the pupils.

The pupils of the Seperate School joined the public school pupils to hear Mr. Secord's talk.

MERCII

I was born and raised in Haileybury, served four years in the R.C.N.V.R. and returned to my home town. Keenly interested in the work of the Legion, I was president of the local branch for two years and am now steward.

I wish to see Haileybury go ahead and if the citizens of the town will give me their support, I will, if elected as councillor, do my utmost to serve the town to the best of my ability.

It takes longer to stop when roads are slippery!

At 20 miles an hour, stopping takes 10 times as long on ice or sleet as on a dry road!

If you want to avoid winter accidents

slow down; keep your windshield free of ice and snow; follow at a safe distance.

If you do have to stop in a hurry, pump your brakes, don't jam them. (Power brakes need gentle pumping.)
