Why buy a custom cover?

• No holes in truck – eliminating possibilities of rust or corrosion due to drilled holes.
• Zip-lock feature – fastening system delivers ultimate strength for summer rains and winter snows.

• Camber and expansion system for keeping vinyl tight in cold and warm weather.

• Patented installation is time and cost efficient.

• Automotive sealant tape protects truck from aluminum frame and clamps.

• Adaptable to all trucks with bedliners.

• Results of U.S. testing lab on vinyl cover show the Custom Cover to be stronger than competitors's best with minimum contraction and expansion in severe weather and the 19 oz. material providing ultimate strength and thickness

• Limited lifetime warranty.

• Increases gas mileage by reducing air drag.

• Keeps cargo out of sight, thereby reducing theft.

• Tailgate opens and closes with cover on or off.

• No tools are required to install/operate once it is set up, making it "user-friendly," unlike many competitors'.
