## Changes in Ontario's electricity industry could affect you

An important message from your public municipal electric utility

Putting electricity customers first.

As the Government of Ontario considers the future of the electricity industry, we at your public municipal electric utility will be fighting to ensure that any changes made will be in the best interests of all of Ontario's electricity customers.

### who we are:

We are the men and women who deliver electricity to you and your community. We design, operate and maintain local power lines. We handle power interruptions and customer concerns quickly and efficiently. We maintain high safety standards in delivering electricity and we work with you to make sure you're using your electricity wisely.

### what we deliver:

**lowest possible prices:** we operate on a not-for-profit basis and deliver electricity to you at amongst the lowest prices in the world.  
**reliability:** we work around the clock to keep the lights on in 2.8 million Ontario households and businesses.

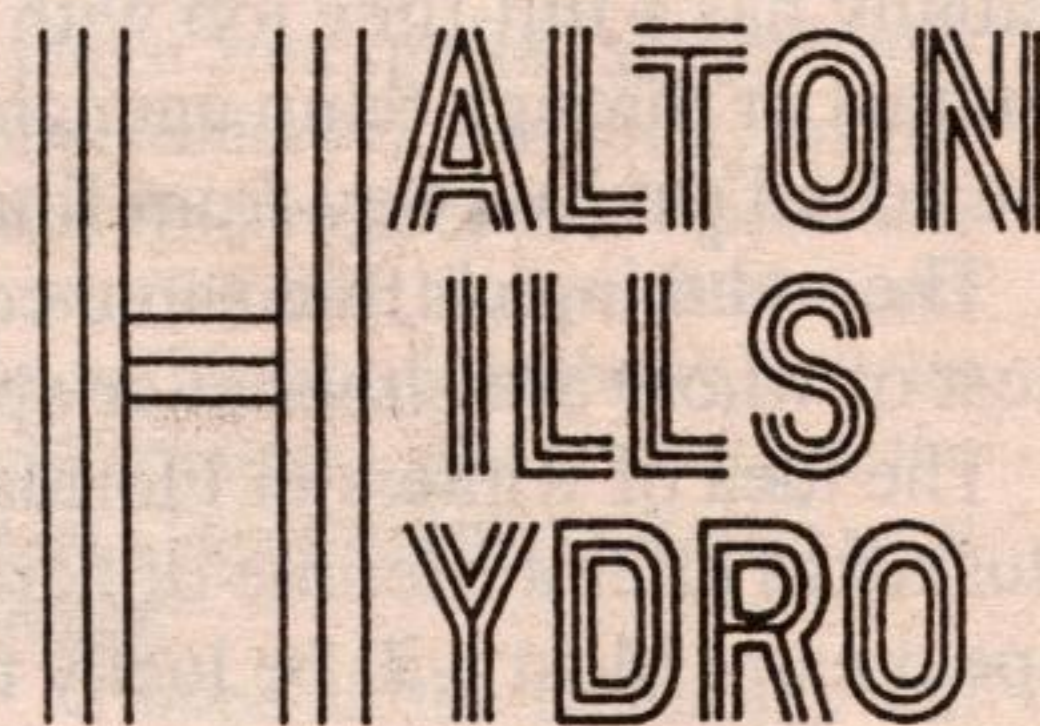

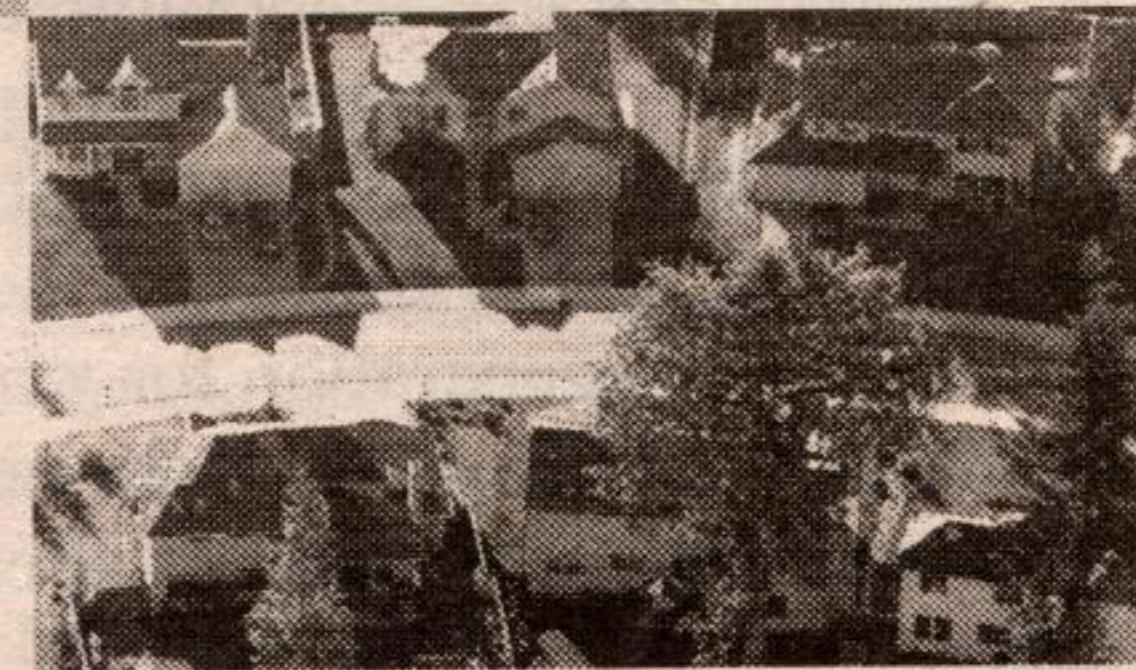

For more information about your local public utility and Ontario's electricity industry, call the local number below.

**quality service:** we provide quick, efficient and friendly service to you, our customers.

**local accountability:** local people are elected or appointed to your utility to make sure you have input into decisions which are best for your community.

**financial responsibility:** we operate on a user-pay system: your rates, not taxes, cover the total cost of your electricity service.

our continuing commitment: to put the interest of our customers first.
