## THE REASON WHY.

### THINGS EVERY PERSON SHOULD KNOW.

You should know that if you want to get the choicest goods, and save money, you should go to Second Bros.

You should know that they have one of the largest and choicest stocks, and the handsomest establishment of the kind west of Toronto.

You should know that they give 10 pounds of white broken loaf or ground sugar for a dollar. You should know they give 11, 12, and 13 pounds of splendid sugars for a dollar.

You should know that you can get a caddy of fine tea for \$2.50; that you would have to pay \$3.75 for in quelp.

You should know that you can get two pounds more rice for a dollar than you can get in quelp.

You should know that you can get a set of china for \$5.50 that you would have to pay \$6.50 for in quelp.

You should know that you can get a set of white granite—41 pieces—for \$2.25 that you would have to pay \$3.75 for in quelp.

You should know that you can get one dozen quart glass jars for \$2.00 and a dozen two quart jars for \$2.00 that you would have to pay \$2.50 for in quelp.

You should know that you can buy all kinds of the best soyines, 12½ cent quelp.

You should know that you can buy all kinds of locks, hinges, nails, etc., at 25¢ per lb. and in most cases lower than you can buy them in quelp.

You should know that they have one of the largest stocks of tea in any retail house west of Toronto.

The reason why Second Bros. saves money and the rest of it to their credit is because they buy their goods from the best sources that they can buy from.

The reason why Second Bros. sell cheaper than quelp is:

1st. They have no rent to pay; in quelp they pay thousands.

2nd. Salaries are nothing in comparison to what they are in quelp.

3rd. Taxes are merely nominal; in quelp they are outrageous.

4th. They buy wood for \$3.25 per cord; in quelp they pay from \$5 to \$7 per cord.

5th. They pay nothing for gas; nature having fully supplied them.

6th. They pay nothing for water; in quelp it costs a large item.

7th. Every reasonable man must know that all the extra expenses must be added to the price of their goods in quelp, or fall at once.

8th. They do so quite as large a business as any house of the kind in quelp.

9th. They thoroughly understand their business; know where to buy, how to buy, and the time to buy; are wide awake to take advantage of any favorable turn of the markets, and give their customers the benefit.

You should know that they are determined to deal goods at such prices as will say to the people: You must deal at Second Bros. if you want to save money.

Only 12 Days.

More of the old fog credit business at the Post Office Store, Acton. The people all say they are glad, for they would rather pay the cash and get the 8 per cent discount.

Remember the 8 per cent discount at the Post Office Store.

8 per cent made by buying for cash at the Post Office Store, Acton.

Christie, Henderson & Co., being desirous of adopting the early closing movement, would respectfully request their customers who have evening purchases to make, to call early enough to enable them to close up at 8 o'clock sharp—Saturday evenings always excepted.

The cup that cheers but does not intoxicate—Christie, Henderson & Co.'s Tea.

New Hats—Latest styles in Men's Youth's and Boys' Hats just to hand, and will be sold at close prices to suit the times. Christie, Henderson & Co., Glasgow House, Acton.

Mrs. J. D. McMillan, Second Bros. have just received a consignment of that celebrated fifty cent tea that has come so celebrated last fall. This tea is said by experts and judges to be the best tea grown in China at that price, but it is rare and hard to get.

## GRAND TRAVEL TIME TABLE.

Trains leave Acton as follows:

Morning Mail 9:10 a.m.  
Day Express 1:30 p.m.  
Mixed 5:00 p.m.  
Night Express 7:15 p.m.

Spring wheat, \$1.18; new white wheat, \$1.20 to \$1.21; oats, 41c; barley, 80c.

## Acton Free Press

FRIDAY MORNING, AUG. 20, 1876.

It is not the Globe rather overdoing the subject. Its column after column of Goldwin Smith, two or three times a week, for several months, is piling on the agony pretty heavily. People have begun to sympathize with Mr. Smith, and wish to know what he really has to say, that the *Globe* is so much concerned with. His writings and his position as a newspaper editor are very different things, but they are not the same. It is not simply his political opinions that are criticized, but his opinions and sayings as a member of the Council of the University. The column-and-a-half of vituperation in Friday's issue, another in Saturday's, and still another in Monday's, cannot but have the effect of securing for Mr. Smith a greater number of readers and ultimate followers. His articles in the *Toronto Nation* will undoubtedly be read by more people and his influence consequently more widespread, whether he be for or evil. The *Globe* First party, of which he is the head and front, is scarcely known outside of Toronto, but the constant hounding of the *Globe* is sure to bring it into notoriety, and to lead the people throughout the country to inquire into its merits as well as demerits.

The Pot calling the Kettle black—the *Georgetown Herald* and *Milton Champion* picking grammatical flaws in their respective editorials. Brethren, do quit it. The flaws are sufficiently apparent without unnecessarily drawing the attention of the public to them. The Scriptural injunction about the beam and the mote is very suggestive.

The *Georgetown Herald* "defines all grammarians that ever breathed" to prove that he is not correct on the "grammatical question." Well, well, there's nothing like being positive in one's own opinion, whether it be correct or not. "Any one that takes the trouble to find out its real meaning must not be surprised if he comes to the inevitable conclusion that."

The *Herald* man is a thorough grammarian! How would the *Herald* look if there were some attention paid to punctuation, in its editorials!

There is a reduction of ten to twelve cents per bushel in the price of wheat, since this time last week.

The hop crop of England has been injured by blight.

## Commercial notices from Montreal and other countries of the whole sale trade of Canada.

to the effect that country merchants buy very cautious, and apparently solely with a view to their immediate wants. This is the proper course, and will do much to give trade a healthy tone and prepare everybody to take the best advantage of the change for the better when it does come.

Mr. John McNeil, an old resident of Guelph, died at Orangeville on Sunday last.

Mr. Thomas Messenger late editor and proprietor of the *Grand River Sentinel*, of Cambridge, is dead. Burial last week carried a by-law, by a majority of 185, granting \$70,000 for the erection of waterworks.

Great suffering is reported in China had Japan from the extreme heat that prevailed in those countries at the time of the typhoid.

The loss in cotton by the overflow of the Mississippi in the month of June, is estimated at 30,000 bales.

The army worn has invaded some of the counties of Nova Scotia. New Brunswick has also suffered from the pest.

The timber trade of Quebec is improving, and sales on a large scale than for some time previous have taken place.

There are now in Milan, it is said, 300 American girls studying singing with a view to the operatic stage.

Hon. Alex. McMillan, sailed from England on Thursday, and the Hon. George Brown is expected to sail on the 26th.

The bodies of the young couple drowned from the *Cybe* of the Winds, at Niagara Falls, a short time ago, have both been recovered.

One of the veterans of 1812, paid off in the County of Glangary recently, has reached the age of 103 years, and is said to be hale and active.

Lulu, that trotted a mile last week at Buffalo in 2:15; beat Goldsmith Maid on Saturday at Rochester, and now takes the position of queen of the trotting turf.

Col. MacKenzie and Major Matie have paid the surviving veterans of the war of 1812 and subsequent rebellion. Several of the veterans have turned 100 years of age.

One dollar and thirty-five cents was paid to Mr. C. J. Corval, last Saturday, for the first load of new wheat, at the flouring mills of R. Noble. It proved to be an extra good sample.

The official announcement of the appointment of W. K. Muir, as General Manager of the Canadian Southern Railway, has been received, and it is understood Mr. Muir takes the position at once.

The *Listowel Banner* says: "The harvest promises to be generally good. The grain is looking better than it has done for some time. The wheat is light, but the corn is heavy, and the potatoes are better than they are at the present time. The apples are also heavy, and the fruit is generally good. The weather is favorable, and the crops are well advanced. The farmers are generally satisfied with the prospects of the season. The price of grain is high, and the farmers are well paid for their labor. The market is generally good, and the farmers are well satisfied with the results of their labors. The season has been a successful one, and the farmers are well pleased with the results of their labors. The crops are well advanced, and the weather is favorable. The farmers are generally satisfied with the prospects of the season. The price of grain is high, and the farmers are well paid for their labor. The market is generally good, and the farmers are well satisfied with the results of their labors. The season has been a successful one, and the farmers are well pleased with the results of their labors. The crops are well advanced, and the weather is favorable. The farmers are generally satisfied with the prospects of the season. The price of grain is high, and the farmers are well paid for their labor. The market is generally good, and the farmers are well satisfied with the results of their labors.
