Acton Free Press

FRIDAY MORNING, NOV. 5, 1875.

It would seem that we have committed a most grievous offence, and unwittingly brought upon ourselves the ill-will of a few friends of the Free Press.

We last week mildly expressed our views concerning the personal fitness of the two candidates then seeking election, and we are now seriously charged with having therein departed from the strict line of neutrality.

In the excitement of the moment, three or four of our Conservative readers have even gone so far as to return their copies of the paper with scurrilous remarks written on the margin, clearly exhibiting the narrow-minded bigotry by which they are controlled.

It would be a waste of words to try to convince men of this stamp that we have not published a syllable in connection with this election which could by the greatest strain of imagination be construed into anything but strict political neutrality.

While professing political independence, it is clearly not the duty of a newspaper editor to creep quietly through an election campaign, and like a noose, say not a word concerning the personal fitness of either of the candidates.

Ordinary intelligence rebels against such strictures. Candidates for parliamentary honors are public property, and as such, it is the privilege and duty of the newspaper man to point out their failings and personal merits.

We have endeavored as far as possible to keep within the line of personal as well as political neutrality. If we have failed in either respect, it was not knowingly, or with the most remote feelings of disrespect to either party.

If Col. Clay, or his friends, feel at all aggrieved at our remarks concerning his advanced years, we are very sorry that it should be so, although we do not see that we have any reason to retract one word that was said, except probably that we were misinformed in regard to his age.

We have since been told that he has not yet been seventy years, and in this case, we trust he will pardon us for having set him down as being apparently beyond that number.

Now, perhaps it would be as well to say a word or two in this connection in respect to our position. It was clearly stated in the Prospect that the Free Press should not be devoted to the interest of any "Political Party or faction, that it should at all times be free to discuss matters of public policy on their merits." This is what we proposed, and this is what we have carried out to the letter.

During an election campaign it is a difficult matter to keep strictly on the line, without seeming to favor one side or the other, and while carefully avoiding the discussion of political issues, it is a duty we owe to our readers to give them the fullest information in our power respecting the candidates and their views.

Being a comparative stranger here, and not knowing, except by report, anything of the past history of the two candidates, we avoided saying anything concerning them until we had seen and heard them address public meetings. We then found a very easy matter to draw comparisons and form an opinion as to their respective abilities. Had we done otherwise than express our convictions in the manner we did last week, we should have felt convicted of moral cowardice and of being unworthy of public respect.

And we may say here, to those few parties who think it a grand thing to show their petty spite by returning their papers and reviling us by their loud-mouthed blather, that they exhibit their wrath to no purpose. Such actions have no influence on us whatever. While pitying their ignorance, we are only sorry that their chances for learning wisdom are so very slim. It is well for the country that this class of men be not very numerous.

In North Grey, the Conservatives have replaced Mr. Scott, who was unopposed and disqualified, by Mr. McKnight.

Mr. W. W. Worth, elected Dr. J. D. South, a reformer, on Friday last, by a majority of 13.

PUBLIC EXERCISE—TRIAL BY JURY.—THE MARRIAGE QUESTION.—YOUR STREET—WEST TORONTO ELECTION, ETC., ETC.

The intense excitement, caused by the arrest of A. P. Davis and wife for the murder of the unfortunate Dennis Gilmore, and which excited all their senses, was pronounced, has at length died away. Every one felt satisfied, at least shortly after their arrest, that they were the guilty parties; every one felt satisfied with the fair trial they received, and few regretted the severe sentence passed upon them. There is some danger "that our virtue has gone some sleep for seven years more."

Such thoughts are apt to make us wonder if the time had not arrived, or if it is near at hand, when it will be well with the jury system, and do away with the jury system entirely. Jurors are for the most part men of limited education—men who have spent most of their days without reading the simplest problems of life to solve. The result is, that when placed as judges over their fellow-men, they are perfectly honest, and desirous of weighing all the evidence for and against, but they are not fitted to do the work of the counsel for the prosecution or defense. This is not saying anything against the character of the juror. It is one of the most natural results which we would expect. We do not mean to say that literary education will ensure the selection of a better jury, but we do mean to say that we have men in our time whose high literary learning were exercised, but whose judgment would be utterly wanting in the most important cases. Much rather would we be at the mercy of a man whose highest recommendation was that he was a "good fellow," and who had a "good deal of common sense," than of a man who had a "good deal of literary education," and who had a "good deal of common sense."

The Credit Valley Railway.

The annual meeting of this company took place at Toronto, on Thursday. The following is the report of the Directors:

Your Directors have to report that the grading is finished on 116 1/2 miles, and there remains to be done 42 miles.

The grading is completed from a point near the Carlton Place Causeway to Streetsville, thence northwards on the branch line via Meadowdale, Churchville, Brampton, and Cheltenham to the Credit River, with the exception of about half a mile near Brampton, thence northwards to Orangeville, and from Orangeville to Streetsville, thence northwards to Hamilton, and from Hamilton to Toronto, with the exception of about four miles between a point on the Credit River, above Cheltenham to the forks of the River Credit, and a few miles amounting in all six and a half miles, near Cataract, Ontario, Hillsburg, Fergus, Elora, where a right of way could not be obtained; and on the main line from Streetsville to Milton and the Brock road, with the exception of four and a half miles, for which the right of way has also not been obtained, and about a mile and a half near Campbellville. Nothing has been done since the meeting of the Board on the 23rd of December, and the eastern limit of the township of North Dumfries, for which piece no municipal aid was received. From the east limit of North Dumfries the grading has been completed to Ingersoll, with the exception of a portion of the cutting at Galt between the east limit of North Dumfries and Galt, and eight and one-half miles between Innerskip and Ingersoll.

There are finished the Humber, Mimico, Pallo's Creek, Cooksville, Barba's Ravine, Credit, and Mith bridges, and 1,001 feet small tree-bridges on branch line. Church's "Overload" and "Millpond" bridges are also completed, including fourteen spans of Howe truss.

There is no erected thirty-five mile line on main line, between ten miles on Orangeville branch, between Streetsville and Cheltenham, and three miles on Elora branch.

One hundred and sixty culverts and sixty-one pairs of cattle guards have been erected, and are in position on main line. Fifty-seven culverts and sixteen pairs cattle guards on Orangeville branch; and sixty culverts and twelve pairs cattle guards on Elora branch.

There are on hand and paid for fifty-one pairs of cattle guards, and fifty pairs of cattle guards, and have been paid for 437 acre lands, amounting to \$44,780, and there have been paid for plant and working material, including the steam shovel \$22,125 30.

Every possible effort has been made to reduce the cost of money in all the departments of the Company's affairs, and notwithstanding some overcharge for right of way, loss in attempting to build a concrete bridge at Meadowdale, and loss sustained by failure of contractors, and other minor matters, the whole probably not exceeding from eight to twelve thousand dollars, your Directors believe that so much work has never been so well and so economically done for a public company in Canada. In addition to the municipal assistance, there have been paid out of money in the hands of the Company, \$279,000 on account of construction, this sum including a large amount for right of way donated to the Company. There remains now in the hands of the Municipal Trustees \$198,624 in cash, in unpaid debentures, and in other securities, a certain extent unavailable, from the location and circumstances of the works, without further assistance.

The Company has not received any of the Government Grant. The Order in Council states that the money is to be paid exclusive of the Government Grant.

The Government has incidentally assisted the Company to continue its work during the past season.

The works are now nearly suspended and must remain until further financial arrangements have been made. An average of 630 men and 135 teams have been employed during the past season.

Your Directors have to state that to secure the success of the line, it will be necessary to get from the Government fifteen hundred dollars per mile more than the outside already granted, or a little in excess of the amount granted the Hamilton and North Western Railway, and from the City of Toronto \$250,000, and from Fergus, Elora, and Orangeville, \$8,000 each.

No Order in Council was asked or obtained for that section of the line passing through Erin and Galt, in the County of Wellington, to Fergus, Elora and Salen, connecting with the Wellington, Grey, and Bruce Railway between two and three miles, and that section had been definitely settled. This aid must now be petitioned for.

Your Directors cannot suppose that the aforesaid aid will be refused, either by the Government or the municipalities, in view of the important interests concerned, including those of so many town, village and manufacturing areas, as are involved in the successful operation of the Credit Valley Railway, there being two towns, thirteen villages
