

THE ACTON FREE PRESS. Published Every Thursday Morning. J. H. HACKING, Proprietor. \$1 Per Annum in Advance.

EASTERN OUTLOOK. Proposals for an Armistice. CONFUSION IN SERBIA. A Three Months' armistice Recommended on.

It is some satisfaction to know that our recent remarks concerning the Acton station and its surroundings, have at least had the effect of attracting the attention of the Grand Trunk superintendant to the state of affairs complained of. Mr. Hunt, station agent, has received instructions from Mr. Spicer to prepare a statement of what is required to remedy the difficulties, and to report at once. After consulting with the members of the Council, it is understood that he will recommend the building of a plank walk extending from the station platform to the oil tank, thence across the lower switch to the road. If the railway company agree to do this without delay, and also to say that no freight trains are allowed to obstruct the crossing, the public will certainly feel grateful. Our Council will see that good connection be made with the present sidewalk.

In addition to the convenience that will be afforded to parties going to and from the station (if the above plan be carried into effect), it will be a great boon to farmers and others who are so frequently obliged to keep their teams waiting an indefinite length of time in the vicinity of the switch crossing, till it suits the humor of freight trainmen to open the way. We may perhaps entertain a hope that the trainmen will be instructed to keep the crossing clear, both for teams and foot passengers.

Now is the time when all have practical experience of the wretchedly bad state of the roads that abound almost everywhere. And we were forcibly convinced, by a short drive the other day, of the truthfulness of the statement that Halton is the happy possessor of the best roads of any county in Ontario. Evidence of the apathy which distinguishes our township and county councils may be seen in every highway and byway. This county is one of the oldest and is represented to be one of the wealthiest in the province, and why the people have so quietly endured the degrading of leaving roads such as would scarcely be tolerated in the backwoods settlements, we are at a loss to comprehend. We cannot believe that our farmers willingly acquiesce in the passive negligence or stinginess which characterizes our councillors in the pitiful way in which they dole out a few dollars here and there from time to time to keep the roads at all passable. Surely all our ratepayers would find it greatly to their advantage to pay a trifling more in the shape of taxes and have a reasonable sum expended towards putting our roads in a passably good state of repair. Let this matter be a test question at our next municipal elections, and have it fairly pointed out that the wear and tear and other losses consequent on bad roads must be much greater than any extra tax that would be required. See that Councillors be elected who have a large share of liberality and public spirit, and let the old cry of economy in the administration of public affairs be an economy of wisdom, not of parsimoniousness.

The Hamilton Railway Debentures. At Hamilton on Tuesday a case of great commercial interest was argued in the Court of Chancery: It was an action brought to prevent the Corporation of the County of Halton from paying a bonus of \$65,000 to the Hamilton and North-western Railway, on the ground that the Company had violated the conditions upon which the bonus had been voted by amalgamating with Hamilton and Lake Erie Railway. The case was dismissed with costs.

Caledonian Society. At the Guelph Caledonian Society's annual gathering last week, the following officers were elected:—Chairman, J. H. Mackenzie; Vice-Chairman, Adam Robertson, Jr.; 2d. D. Guthrie; 3d. D. Kennedy; 4th, Robert Mitchell; Piper Major, W. T. Scott; Acton's Standard-bearer, John Spaulding and Jas. Mitchell; Grand Marshal, Alex. Congleton; Clerks, Rev. Mr. Hoag and Rev. Mr. Wardrop; Physicians, Drs. Cowan and McDonald; Bard, Robert Boyd; Auditors, Daniel McIntosh and John Mitchell.

Belgrade, Oct. 30.—A battle was fought yesterday in which the Turks drove the Servians from Djunis after a crushing defeat. Tchernyav's army is cut in two, and completely demoralized. Heratovitch's command has retired on Kruechevatz. A great public meeting at Belgrade. London, Oct. 30.—A despatch from Constantinople says it is stated that the Porte has accepted a proposal for a three months' armistice, with provision that if peace is not concluded within that time the armistice may be susceptible of two successive prolongations of six weeks each. It is further provided that hostilities shall cease throughout Servia, Montenegro, Bosnia and Herzegovina, and that no military attacks shall proceed to the east of war to settle the line of demarcation between the opposing forces.

Belgrade, Oct. 30.—Particulars of the battle between the Turks and Servians yesterday state that the Turks attacked the heights of Djunis. The Servian artillery, commanded by Gen. Tchernyav, in a desultory manner, refused to fight, and abandoned their positions despite the efforts of the Russian officers. A body of Russian volunteers defended the heights desperately, half their number being killed. The Turks carried their position, thus cutting the Servian army in two. After the fall of Djunis, General Tchernyav, with his staff and part of his army, retreated to Rajany, but they have since returned to the neighborhood of Deliged. Gen. Horvatovich's corps fought some time but were finally completely beaten and driven back on Kruechevatz. The Deliged positions are now untenable. Last night patrols went through the streets of Belgrade summoning the Russian officers to proceed to the Ministry of War, whence they were despatched to the front. Prince Milan left for the army to-day escorted by a body of Russians. The Prince had a long conference yesterday with M. Kistof, the resident Russian diplomatic agent.

Cosovo, Oct. 30.—Gen. Ignatieff, the Russian Ambassador, had an interview with the Sultan on Saturday, and with the Grand Vizier yesterday. Subsequently the Ambassadors of the six Powers had a conference. To-day Turkish Ministers held council. The prevalent impression regarding the situation is that it is pacific.

The Prince's correspondent at Belgrade telegraphs that they are no longer any delusions. Servia is now at the foot of Russia or the mercy of Turkey. The Circassian cavalry are burning villages near Paratchin and Cuprijlo. In Belgrade after the first excitement the usual apathy supervened in consequence of the belief that an armistice was near at hand.

London, Oct. 31.—It is stated on trustworthy authority that the Russian ultimatum has been accepted, and that a six weeks' armistice has been concluded between Servia and Turkey. The prospect for peace depends on the spirit in which Servia employs the opportunities afforded her. Prince Gortschakoff intends to adopt the English suggestion for a conference of the Powers, but objects to a representative from Turkey being admitted; it is expected, however, that Russia will yet agree to a compromise. Gortschakoff insists on thorough and real reform. There is some prospect of an arrangement of the difficulty about the prolongation of the armistice at the Conference of Powers.

The Fenian Invasion Story. Montreal, Oct. 28. Nouveau Monde prints a letter this afternoon from a correspondent in Vermont in which he states that a new Fenian invasion is being plotted against Canada without doubt. Everywhere they are holding frequent secret meetings which bode no good. The less discreet do not hesitate to say that they await a favorable opportunity to make a new attempt to invade Canada, and seize sufficient territory to enable them to operate against England after having procured a fleet and the necessary arms. The letter goes on to say that the Fenians are only waiting until England becomes involved in the Eastern war to make their plans known.

Toronto, Oct. 28.—The report of a proposed Fenian raid into Canada, telegraphed from St. Albans last night, is pronounced to be without foundation. The arrangement for landing and receiving the English mails at Rimouski, which have been in force all summer, have been discontinued for the winter season, and the mails will be landed and taken from Quebec until the close of navigation. The Importers' Association of Halifax have resolved to memorialize the Dominion Government to send the mails to Halifax instead of Portland during the winter. Arrangements have already been made for the Dominion line to run to Halifax, in connection with the Intercolonial.

The Hon. David Mills has been appointed Minister of the Interior. The Grangers have decided to organize an insurance company in their own behalf. Active preparations are being made for the close of the Centennial Exhibition.

Tuesday next has been set apart for the celebration of women's day at the Philadelphia Exhibition. Twenty-seven names have been set on strike off during the scrutiny in the Lincoln election case. Three thousand dollars of money were stolen from the Dunville express office which belonged to a large boot merchant in Toronto. "Doctor" Davis, who was convicted for the murder of Jennie Gilmore, is at the point of death in the Kingston Penitentiary. The cattle shipping firm of Ailsa Craig lost a \$3,000 cargo of cattle which they had shipped to England lately. Nearly all the cattle died on board ship.

Mr. Eugene O'Keefe, the well-known brewer of Toronto, has received news to the effect that he has fallen heir to an East Indian estate, valued at \$24,000,000. The Directors of the Northern Railway have paid to the Government the sum of £100,000 sterling in discharge of the lien of the railway held by the Government. One evening last week, a special train, containing Mr. Hickson and the officials of the Grand Trunk, made the run from Point Edward to Stratford—80 miles—in an hour and three-quarters, actual running time. This rate of speed is not often excelled in Canada. The estate of Mr. Thomas Colwell, an hotel keeper of Galt, has fallen into the hands of the Sheriff, in consequence of a judgment being issued against him. The same judgment caused the assignment of Mr. A. H. Pestman, another hotel keeper in the same town. Vennor, the Canadian weather prophet, who has foretold the kind of weather we were to have with tolerable accuracy during the past year, now informs us "there is yet no sign of an immediate winter. However, an abrupt winter may be expected when it does set in, extremely cold from the outset."

A peculiar case has just been disposed of in Brantford, at the Brant Assizes. Jos. Knox was put upon his trial charged with receiving stolen cattle. The evidence, however, went to show that he had stolen the cattle, and received them. He having been already acquitted of stealing the cattle at the Interim Sessions, there was no alternative but to let him go free.

At the annual meeting of the Credit Valley Railway, held in London on Thursday, the old board of Directors was re-elected. The President, Mr. James Laidlaw, in moving the adoption of the report, said that he regretted to have such a poor record of the work done last season, and trusted that the city and Government would, at an early date, take such action as would enable the company to have 80 or 100 miles next year. A boy named Conroy, twelve years old was poisoned with whiskey in Toronto on Saturday. He along with two other boys were playing. A drunken man carrying a bottle of whiskey passed the group, and the boy Jacobs followed him and succeeded in stealing the liquor and then threw the deceased down, and while one held him the other put the bottle to his lips and forced him to drink its contents, and he died soon after.

The N. Y. World of Wednesday neatly says: "Lord Dufferin has met with a welcome home, and what he said of the splendid appearance of Canada at the Centennial was occasioned by his greeting to the people of Ottawa. We should like to be able to accuse him of boasting, but we might as well confess that he told the simple truth."

The recent arrangement between the Hamilton & North Western Railway Co., and the County Council of Simcoe will enable the Company to carry out their present intention of soon commencing the necessary work on the second section of the line, from Georgetown to Barrie, which is to be opened for traffic by the end of 1877. The contractor expects to have the first section ready for the regular running of trains from Hamilton to Georgetown by the first week in December, whereupon he is to proceed with the next section, and, in 1878, with the third, all of which is under contract.

The story of a horrible outrage, alleged by the Ottawa Citizen to have occurred in the township of Ramsey, has been extensively republished over the country, and has even been the subject, as we observe, of a harrowing illustration in a New York newspaper. This evil effects of such an atrocious libel upon the character of our community appears never to have been contemplated, or at all events, regarded, by those who fabricated the details of this "outrage," which never had any foundation in fact. It is a pity the "farmer" who set the report afloat cannot be punished in some way.

FATAL RAILROAD ACCIDENT. A Centennial Train Run Into. TWO PERSONS KILLED AND TWENTY-ONE INJURED. SCRANTON, Pa., Oct. 31.—A fearful accident occurred on the Delaware, Lackawanna and Western Railroad last night at a small station known as Lehigh Summit on the Pocono Mountains, twenty miles from Scranton, the regular afternoon train to New York and Philadelphia, consisting of seven passenger coaches and three engines. It had about twelve hundred passengers on board, principally bound for the Centennial Exhibition. The train was two hours behind time, and reaching Summit shortly after eight o'clock stopped to take water from the tank. While there a heavy coal train, drawn by three engines, ran into the rear of the passenger train, telescoping two of the cars through and through, and breaking five others. The scenes that ensued were heartrending, although by the most miraculous circumstance the number of killed was small. David R. Pierce, of Hamilton, New York, and James Bragg, of Utica, N. Y., were killed, and twenty-one persons, all from New York State, were wounded, four of whom, Mr. Seymour, of Rono, N. Y., Mr. and Mrs. Pierce of Hamilton, N. Y., are not expected to recover. A passenger car caught fire in the wreck, and was consumed upon the track. The wounded are being kindly cared for at Scranton.

AN ERIN BRANCH OF PROMISE CASE.—At the York Assizes in Toronto on the 19th inst., Matilda May, a domestic, aged 18, Robert Smith for seduction and breach of promise. The parties are cousins and reside in the township of Erin. Defendant is son of a well-to-do farmer, and recently got married. Plaintiff had a child by him, which died shortly after birth. The defence was that Smith made promises, believing plaintiff was chaste, but afterwards found she was not. Several letters were put in proving that defendant was aware of her being pregnant, and promised to assist her. The jury brought in a verdict awarding plaintiff \$1,200 damages.

The New Dominion Monthly for November, contains some very interesting reading. The magazine continues to improve, and we trust the time is not far distant when we may find it printed on a finer quality of paper and enclosed in a more attractive cover than at present. Published by John Duggill & Son, Montreal, at only \$1.50 a year.

FATAL ACCIDENT.—On Sunday night a young man named, James Dinno an employee on the G. T. R. met with an accident which resulted in his death on Monday night. He accidentally fell underneath the rear of a freight train, near the North Station, several weeks ago, and over one of his legs, below the knee, crushing it badly. He was brought to Georgetown, when Dr. Starr was called in and dressed the mangled limb. It was thought that amputation would be necessary but the unfortunate man was too much prostrated to undergo the operation on Monday afternoon, so it was postponed. His mother, brother, and his affianced arrived from Toronto by the 1.45 express on Monday; the meeting was a scene too painful to witness. We understand he was shortly to have been married.—Georgetown Herald.

An epizootic has broken out in the southern part of London Township, and has affected the horses, of a peculiar character. The horses become paralyzed, and swell to such an extent that the animal is unable either to eat or drink. From the peculiar seat of the disease, in the tongue, medical aid affords but little relief. The animal is in the most excruciating pain, the tongue turning perfectly black. The veterinarian have not yet clearly defined the disease.—Woodstock Review.

A fiendish act of poisoning was committed on the premises of James McFadden, Township of Downie, Ont. Recently he observed some of his sheep lying in different places in the pasture field. On examination he found them to be dead. He searched the field and soon found the cause. A human hand had laid quantities of Paris green, mixed with salt, in the three different places. One of the piles the sheep had partially eaten, the other two were untouched. A reward of \$400 is offered for the conviction of the guilty party.

Cost of the Centennial. The New York Herald thinks that the Centennial Exhibition will be a financial success. The running expenses average about \$11,000 per day. At this rate the Herald says the entire running expenses of the exhibition from May 10 to November 10, would be about \$1,800,000, and this is as near its estimate as it was possible to procure. The total receipts to October 14th amount to \$2,688,635. This amount will be increased, says the Herald, by the gate money of the period during which the Exhibition is still to remain open, added to the income from concessions that the board of Finance feel justified in declaring that there will be surplus of \$1,500,000 after the \$1,800,000 running expenses have been subtracted.

ACTON MARKETS. Flour \$2.50 to 2.75. White Wheat 1.00 to 1.10. New Fall Wheat 1.00 to 1.05. Spring Wheat 1.00 to 1.05. Barley, No. 2 0.75 to 0.76. Barley, No. 1 0.85 to 0.90. Oats 0.65 to 0.70. Apples 0.40 to 0.70. Onions 1.00 to 1.00. Potatoes per bag 0.17 to 0.20. Butter 0.14 to 0.16. Eggs 0.00 to 0.00. Turkeys 0.00 to 0.00. Ducks 0.06 to 0.07.

Nitro-Glycerine Explosion. A MAN BLOWN TO PIECES. Port Colborne, Oct. 30.—This afternoon while a man named King, who was in charge of the glycerine used in the harbor improvements, was after a supply at the magazine, situated on a cliff in the lake below the main pier, an explosion took place, blowing the man to pieces, only a few small fragments of the body being found, shattering the crib and doing damage to a number of houses in the neighborhood, and breaking windows all over the village. The explosion was heard for miles in every direction. It is said there was only a small quantity of glycerine in store at the time, otherwise the loss of life and damage would have been greater. It is not known what caused the glycerine to explode, as King went in a boat alone, as was his custom. King was a careful man.

Duel Between Two Coloured Women. Annie Simmons and Mary Boules, of Louisville, both coloured, having quarrelled, resolved to fight a duel with knives. They met by agreement in front of a Baptist Church the other night, no witnesses being present, and they fought fiercely for half an hour. Boules was stabbed and gashed horribly in six different places, her right eye being cut out. Simmons was only slightly hurt and has been arrested. The cause of trouble is unknown.

SUGAR FOUND. On the York Road near Rockwood, recently a bag containing a quantity of sugar. The owner can have it on application to the undersigned by proving property and paying charges. W. M. GORDON, near Acton. October 29, 1876.
