At the Glasgow House. I always see Christie, Henderson & Co.'s Furniture. -Guelph Curling Club has been re-organized. It is said that Acton intends to form a Curling Club for the coming season.

Mr. Percy Secord is agent for Stanley's new book, 'Through the Dark Continent.' This book is the book of the day and should well be read. -Coal and wood dealers looked bleak while the late fine weather was existing, but now they appear to be very much pleased.

There are quite a number of wild ducks on the pond, variously waiting to be shot, that they may grace some sportsman's dinner table. -Mr. Thos. Dickson and family leave Acton to day, to join Mr. Dickson in England. We wish her a pleasant journey.

Four new railway passenger coaches, sent through Acton yesterday afternoon on the G. T. R. They are to be used on the Cape Breton railroad. -Messrs Christie, Henderson & Co. of this Village, have started a dry goods establishment in Walkerton, and have taken Mr. Chris. Dempsy into partnership. The firm will be known as C. Dempsy & Co.

Christie, Henderson & Co. well cheap. -The time has come when the summer clothing is laid away; when dresses it would be well to examine the pockets carefully for letters etc. to be mailed. If left there they are likely to breed worms.

Mr. Joseph Fourley leaves Acton to-day for London, where he will shortly engage in business. We wish him success. -One night about a week ago, two parties on the Town Line between Acton and Brampton, near the bridge, were generally excited and surprised at hearing shrill screams and cries proceeding from the bush on the hill near the place mentioned.

After waiting a short time to see what was the cause of the screaming, a buggy lurched in sight, accompanied by a saddle-horse. As the small cavalcade passed, the men, with abated breath, watched. Their minds were busily engaged at the same time.

Suddenly, one of the men cried out: 'There's another sturdy case!' and jumping into his paces which was standing near, proceeded to follow and see how the thing would terminate. His companion, not to be behindhand, straddled a horse which was standing by and brought up the rear. They drove the horses at good speed and succeeded in keeping the 'chased party' in sight.

The Daily News, published in Berlin is a spicy little sheet. Besides editorials on the events of the day, its local column is well filled, and other interesting reading matter finds a place in its columns. In politics it is Conservative. It is a good daily, and should be well patronized, and we have no doubt but that it is.

High School Entrance Examination. -An examination of pupils for admission to the Oakville High School will be held (D.V.) on Tuesday, the 18th December, 1876, at 9 a.m. Candidates should notify the Head Master, N. J. Willwood, Esq., Oakville, P.O., not later than the 5th November, of their intention to present themselves for examination.

Preparation. -The people of Winipeg are evidently preparing for a cold winter. Behold an extract from the passenger list of one steamer which arrived at Winnipeg the other day: 'Is from the Free Press and wife, W. and family, K. P. Deary and wife, W. and family, H. P. Deary and wife, D. and family, E. Berton and wife.' Winnipeg will be a good place for third class school teachers in a year or two. -The Free Press will be given to new subscribers from now till the 1st of January, 1880, for \$1.05.

The next number of the Free Press will be sent from the building next door to the Methodist church, which was formerly occupied by T. Stewart & Co., as a tinshop. This building has been fitted up expressly for us, windows have been put in, a partition pulled down and other necessary accommodations have been put in. Subscribers who call at the office for their papers will please bear in mind to call at the above place. -Now is the time to attend to general repairs, fence-fixing, &c., before cold weather and snow make the task unpleasant. If any of our farming friends have any draining to do, the present is an excellent time, as the straw is now dry and work is not so pressing. Every foot of land a farmer can drain should be made profitable; and if the season is allowed to pass with draining neglected, a year's work is before the opportunity returns.

Starting. -I was struck with amazement the other day at the number of people who were at the Mammoth House. Such lovely Dress Goods, Black and Colored Cashmeres, cloths of Winscot, warm white and grey Flannels, Canton Flannels, Blankets, Bedding, Deans, Table Linens, Prints and Cottons. It was really astonishing and asked McLeod, Anderson & Co. where they got such piles of Dress Goods at such low prices. They answered, the call and buying large quantities fetch them. This is the place to buy cheap Goods. -New Dominion Notes. -In consequence of numerous forgeries, the Dominion Government some time ago decided to call in the \$1 and \$2 Dominion notes, and make a new issue. We understand that the new notes are at once ready for circulation, and are of an exceeding elegant design, having on either side vignettes of Lord and Lady Dufferin - beautifully engraved and excellent likenesses. This is a happy tribute to their excellencies, and will enable the people of the Dominion to keep in their pockets what they are not wont to keep in their hearts - the image of the most popular representatives of royalty that Canada has ever been blessed with.
