We have received a copy of the Illustrated Almanac, which contains a series of Engravings respecting the more important buildings, manufactures, and works of Melbourne, and some of the other towns of Victoria, Australia.

The 9.30 p.m. train, on Saturday, came near meeting with a serious accident at Berlin. It appears that the operator at Berlin held an order to detain this train at his station, for orders, which he failed to do; pending this order the train dispatcher gave an up freight train orders at Berlin to cross the down passenger at Berlin at the latter place. The up freight train just got clear of switch when the down train came along thus making one of the narrow escapes experienced lately by G. T. R. trains.

If the two trains had struck at this place the accident would have been very serious as there is a very steep embankment on each side of the track. We have frequently of late been under the necessity of calling attention to the actions of a gang of worthless young rascals, who are in the habit of going around town at night till very late, making unparliamentary and proving themselves a nuisance.

We have called the attention of the village authorities to the nuisance, in which these young rascals are indulging, but they do not seem to have taken any action in the matter. Nearly every night during the past two weeks they have made the rounds of the village, visiting nearly every stoop against the windows, besides, in some instances, breaking windows. We suppose that those youths who, by the way, have very good opinions of themselves, think that this is a trifle for them, but we would advise them to stop, as we have been told by one of our citizens, that if they again go near his place he has prepared a dose of powder and shot, which will be administered without stint. If this state of affairs is continued during next week, the next issue of the Free Press will contain an entire list of the names of the boys who are concerned. The boys are known.
