**TOWN AND COUNTY.**

**TUESDAY MORNING APRIL 10, 1873.**

**STUBBINS IN ABRAMS.** A great  
number of our subscribers whose papers are  
paid on the first of January last, and who  
have been receiving the FAIR PRESS regularly  
ever since, have neglected to pay up,  
and now we wish to inform them that if it  
is not paid before the 15th we will be forced  
to add 25 cents to the \$1.00—making it  
\$1.25. To those whose papers are paid in  
full, we say that they may pay up  
before the 15th, and we will be forced to  
charge them at the larger rates. Our  
terms are \$1.00 per annum, if paid in ad-  
vance; \$1.25, after three months; \$1.50,  
after six months; \$1.75, after nine months,  
and \$2.00 at the end of the year. Hurry  
and settle, as all rates will be fixed by  
the 15th.

Spring, beautiful spring.

Snow has nearly all disappeared.

Horse for sale or to rent—\$40

etc.

Lots of promenades on our  
streets and Sunday.

Local sportsmen are beginning to  
heat up tackle in view of the approaching  
first of May.

The FRUIT of the maple bush  
have already appeared, and sugar and syrup  
are among the delicacies of the season.

Mr. W. C. BEATTY, the Conserva-  
tive candidate for local parliamentary honours,  
visited the FAIR PRESS office on Thurs-  
day last.

THE SPRING of Spring this Spring,  
don't appear to spring as lively as the  
spring of last Spring when it sprung.

On TUESDAY as Mr. J. B. Coates  
was cutting hives in his factory, by some  
means got his thumb under the knife, cutting  
off about half an inch.

We are glad to see that Mr.  
Alfred Matthews, who lately had his shoul-  
der blade broken, is able to be around again,  
although the fracture is still very painful.

It is a noticeable fact that the  
earliest bird gets a notice in the newspaper,  
and the first merchant to advertise his  
spring stock first gets the notice of the  
public.

To morrow being Good Friday,  
special service will be held in St. Alban's  
(English) Church, in the morning, at 10:30  
o'clock. On Easter Sunday the Sacrament  
will be administered in that church, service  
to commence at 10:30 a.m.

The Norwich Guards are comin-

ing by bringing a detachment from  
houses which do business outside of  
the County of Halton, but we notice they  
give particular prominence to the fact that  
the paper is kept on file in New York,  
"where advertising contracts may be made  
for it in New York." O, consistency, etc.

ORDERING PAPERS STOPPED.—Sub-  
scribers who may wish to discontinue taking  
a newspaper should bear in mind that they  
must first pay what they owe. Sometimes  
a copy is returned marked "Refused,"  
while a subscriber may not have received  
it for two months before he calls. A pub-  
lisher can't afford to pay until all arrears are  
paid, and it is immaterial whether he takes  
it from the post office or not—he will have  
to pay in full.

The FAIR.—There was an exceed-  
ingly large number of people in town on  
Thursday last—fair day, but very few  
animals were brought in. Still, as regards  
success it was much ahead of the last, and  
we hope the farmers of this district will  
be more numerous in coming to the fair next  
year. The most remarkable feature  
is that no master horse lured the young  
men before the help was called for, as  
they are much pleased to walk to suit their  
fair companion afterwards.

THE WALKING CRAZE has reached  
Acton, and troops of young men may be  
seen "ranging" to it every night,  
making big distance in little time. We  
also noticed that these evenings—the moonlight is so beautiful—that the young  
ladies join the ranks, and when they get a  
little tired they stop to rest, and for support  
in the strong arms of some of the young  
gentlemen. The people of Guelph will  
have the satisfaction of knowing that  
the Acton fair is considered to be a good  
one, and good prices are always received.  
The usual number of trading horses were in  
town. The auction sale of the estate and  
effects of Jas. Byers was very successful.

THE BELMIL Telegraph publishes a  
list of the dead leats who have succeeded  
in beating the proprietors of that journal  
out of subscription or job work. Following  
is a sample of the indices given out:—Wm.  
Hawke. This individual is known  
to most of our town readers. A mason and  
plasterer by trade, he has a shop of work  
of his own, and is engaged in improving  
his fit estate by showing his natural bent  
disposition by endeavoring to fit out of four  
years subscription. We think the idea is  
a good one, and those who owe us may watch  
for our list.

Guelph Business House.—In  
Guelph on Saturday last we  
called on the Furniture Manufacturers of  
Morley, Worsfold and Wiley, and were both  
astonished and pleased to see the large  
stock of furniture they have in, from the  
exceedingly handsome parlor furniture down  
to the commonest styles suitable for the  
kitchen. Rich and poor can be suited at  
their warerooms. See ad. We also called  
on Mr. O. Barber, of the well-established  
V. E. Edge Butcher and Millinery establish-  
ment, and were surprised to see piles of  
dress goods, etc., which were being sold to  
customers. Shaw & Morton were also busy  
supplying the needs of their customers,  
and the large amount of ordered clothing they  
have on hand make up ample for the  
ability to get along in the world. Robert  
Murphy, who is engaged in supplying  
merchandise with fruit, vegetables, fish,  
etc. Murphy has the best stock and sells  
more goods than any other store in the  
city. W. Stewart & Co. are to be congratulated  
on the amount of goods they have  
succeeded in placing before their customers,  
and we are glad to know their efforts to  
please are being appreciated and a large  
business is being done at this enterprising estab-  
lishment.

SPAIN weather has come.  
Get in your stock of eggs for  
Easter.

TUESDAY was the anniversary of  
the Jewish Passover.

Have you yet visited your country  
friends where they make maple sugar?

MERCHANTS are beginning to show  
themselves on Niskin's pond. Lots  
of sport for the boys now.

WE LEARN that James White,  
Esq., is buying a number of beef  
cattle through the township of Erin.

EVERYBODY who has brought  
out his overcoat last Thursday and Friday,  
but they have again this week decided to  
put it away until next winter.

A MERCHANT those interested in  
hunting will be held at Clark's Hotel,  
Acton, on Tuesday evening next, for  
the purpose of organizing a club.

BY REFERRING to our adv. column  
it will be seen that Miss C. Smith will  
open up a new millinery store in Acton  
on Saturday next, 12th inst. We  
hope for her a fair share of patronage.

AN exchange mentions five things  
which every man can do better than any  
one else! Poke a fire; put on his own  
hat; a newspaper; tell a story after another  
has been told it; examine a tulipine  
time-table.

MR. EDWARD MOORE has been  
badly engaged during the past few days in  
getting in new machinery, and making im-  
provements in his mill, prior to starting  
up. We believe the mill will be in operation  
in a day or two.

Good FRIDAY.—It has been the  
usual custom of the merchants and  
business men of Acton to close their  
business houses on Good Friday, and  
we believe it is their intention to mor-  
row to observe the day in the same  
manner.

THE BODY of the late Mr.  
Cameron was brought from Toronto to  
Acton on Monday, and on Tuesday it was  
consecrated to its last resting place.

The entire community expresses sym-  
pathy with Mr. Cameron and family in  
their heavy bereavement.

BUT ETC.—On Tuesday afternoon  
Mr. John Murray, of Nassau Mills, handed  
us a goose egg, which we believe is the  
largest that has been seen in this neighbor-  
hood for some years. The egg was laid by  
a goose of the common breed, and weighed  
12 ounces, measuring 1½ inches one way  
and 9½ inches the other in circumference.  
If anyone thinks they have a large, egg  
let us see them.

BASEBALL.—The new rules do away  
with all catches not made from the  
field balls, and, by ten years experiment in  
Colorado, have demonstrated that it is something  
which every farmer ought to  
know. His plan is simply to plant one or  
two field balls in each potato. He  
says the large ones will eat every-  
thing, and that for this reason he has been  
successful in raising potatoes while others have  
failed. The proposed remedy is simple,  
and it costs almost nothing to try it.
