The Goldfinger and the Thumb.

The Goldfager were its diamond ring,
With pearls encircled round,
As proud and gay as earlem king
With regal micedour crowned.

I am Fortane's child and here a'one. It said to the other four;
"It is due myself and the worlth I own,
To more with you no more."

Then quickly spoke the sager Thumb. The chairman of the four, If thou with us no more will come,

So in its princely grandour lone Goldinger proud remailed, All for itself it lived and shone, And kept its pride unstalled.

But when June brought her roses fair, It longed to much for one. Help yourself to the rose most rure," Neld Thumb; "I'll help you none." Then Goldfinger tried so long in vain To pluck one blooming rose.

But all its pouris not one cou'd rain,

licfore the day light's close.

It tried in rain a cherry red To gether from a tree. "Can't one of all my poarle," It said,
"Some truit or fowers give me !"

and then a glore it tried to knit But all Its seedles fell : It could not use its teste or wit Its grief no words could tell

"Forgive me, brothers," then it said,
"With a hourt-broaking mosn;
"With a thousand pearls upon my head
I could not live alone." "I know I'm homely," said the Thumb,
"And homely I was born;
Tet all the world to me must come,

"I am a homely little dwarf, Awkward, uncouth, and queer, An artist at my form would laugh, Tet am I beld most deut.

When they feel most forform,

I hold the sword and pen; I wing the thought's ethereal flight, To reach the hourts of men. 'I'm first to help and last to leave-

That besteth by your side; Some rose of Joy it grows for you, Greater than all rour pride.

### INVISIBLE WOUND.

TRASSLETED FROM THE HUNGARIAN OF KACKES JOEAL

One of the most celebrated practitioners | the midst of the gayest happiness. of Pesth, Dr. K., was called upon one morudelay for him was danger. He must be re- open. ceived immediately.

knife-pleating like crimping to the broadest kilting and box pleate.

The coat base ne and pleated round skirt will be one of the stylish designs for woollen dresses. The barque is short and even all round, or else it curves shorter on the hips. It may have a vert, or a square guimpe like a plastron made of the material used for trin-ming, or else it may have the plastron rest, which is pointed below the waist, and really consists of two revers sewn together down the middle, extending from the neck down, and curving narrower at the waist-line. This may be of plain cloth or of satin, or else it may be almost covered with parallel lines of sigzag braid placed cross-wise in points. The back has very flat position pleate in the middle scam, which may either be of the wool goods or its trimmings, or else it may have a bias revers set in each seam of the side forms. - Other basques are slightly double-breasted, requiring only two or three buttens for the doubled part, which discloses the vest set in tenesth. The The first importations of autumn millinery roundness that it will continue in favour; consist mainly of large bonnets, but, as was also the wide belt beginning in the seams. surplice trimming gives the figure such the case last season, two extremes are re- under the arms and fastening in front.

and the very large Gainsboroughs are the and vests, and for stripes down the front of the skirt between box pleats. the skirt between box pleate.

The pleated skirts show every variety worn during the summer, but there are two All these quaint shapes are represented in styles most often repeated, vir., that for

### The Advantages of a Near Horizon

Foresight is a valuable faculty, but there

others reverso this arrangement, and have is beyond. In the possibilities of the near future there is enough to keep our ambition in sufficiently vigorous action. A young man just starting in business will succeed New tints of cloth shades are shown in the better if he have in view a point which he bonnets. Rembrandt green is very largely may reasonably expect by honcety and dili-represented, and is dark like myrtle green, but with more blue in it. The new red is if he indulge in dreams of what he will do make it popular with blondes, while for brunottes is rieux feuge, like the dull scarlet nitude of its operations and returns. He known as Pompeiian red. Japonais is a new stands a better chance of becoming a milliongreen-blue, and there are beautifully fine sire in the long run if he is content to keep felt and plash bounds in the gendarme blue | before his mind at any given time the possible shade that was so difficult to obtain last schievements of say a year than if he were year ; snother artistic blue is called Don- to have constantly beforehim a position which anier, and all the duck's-breast shades that it is utterly impossible, in the ordinary invited him to sit down.

"I am tired. I have not slept for a week.

There is something the matter with my right hand—I do not know what. Is it a court-yard I gathered together all the keys in the house and tried them in the lock of fering was slight, but now it is a burning. If felt like a man committing his first crime, any outward sign of the pain, and yet the strong in intensity any or a that a strange hand had ransacked them. for that matter there is no one who would and rose pink are well used in combinations few poor clients if he revels in visions of the large beared; I was well-night suffer there is no one who would with the dark colours. bonnet. Occasionally the whole bird is would it put him in good heart, to pile up placed in a natural poise on the front or side before him all the arithmetical, alrebraical of the hat, but far oftener one bird is made and geometrical text-books which he must to do service for two hats by being solit in master before his educations this branch of halves from bill to tail, and having a spirited knowledge will be considered complete ! Or little top-knot or some tail feathers added. When he is laborously stamping on his memory the letters of the Greek alphabet, to display before him all the difficulties of glisten like jewels are more used than the to display before him all the difficulties of erger birds. Sometimes an ornament con- declension, conjugation, syntax, dialect, and the minute shades of meaning which will ed together as if in a nest, their heads and try his wit and patience in the long years of long bills crowded as if pushing each other scademic life for which he is preparing from the nest, and thus showing their up-turned throats with their beautiful plumage. School-books should never be bulky enough to need a thick cover. A big school-book is will be like to-day in most respects, -but a thousand to-morrows the ten thousand tomorrows which will make up the next thirty years of our life-what a formidable prospect of monotonous employment ! A reasonable forecasting is not to be deprecated, or a from-hand-to-mouth method of getting through life to be at all commended; but at the same time we do wisely in only now and then prying into the far future.

> A BILL before the Hungarian Parliament proposes that after six years the Magyar language shall be obligatory in all schools The district of Adabazar, within one hundred miles of Constantinople, is in a
