—SOME people publicly make statements at the expense of others, who, when their friends' whims are given to the world, they find that they do not look so well in print. Instead of thinking that their friends had committed a gross error of judgment in their innocence of heart, have an idea that the reporter is the cause of it. The unruly audience should be carefully watched over, and then, well-grounded facts could not be out.

PEOPLES are advised not to stick postage stamps to the inside of a letter, which often causes their destruction—but to pin them to the sheet.

—THE editor of trying horses said the street is the proper place to come to, as it comes to drawing up tea direct across the most frequented crossings in the village, it becomes a nuisance which should be discontinued. Almost every day, and especially Saturday, several of the crossings on Mill St. are blocked, and foot passengers are obliged to wade through the mud to get across. A stop should be put to this practice.
