Kirkdale mail 11:30 a.m. on Tuesdays and
Fridays.
Riverside mail 10 a.m. on Tuesdays and
Fridays.

Registered letters must be mailed 15 min-
utes before closing time.

THURSDAY MORNING MARCH 4, 1890.

TOWN AND COUNTY.

SPRING-LIKE weather.

ROBINS and CROWS are our latest visitors.

SIDEWALK cleaning has been a light job this winter.

MEASLES and typhoid fever are prevalent in Milton.

PUT away your sister young man, but keep it a handy place.

COUNTY Council met on Tuesday, 2nd inst. Full report next week.

THE Georgetown Herald came down rather hard on one of his brother columnists last week.

YOUNG ladies unable to support husbands, will not be likely to ask lesser to marry them, even if it is a long year.

MESSES. John R. George, Smith and Henry Williams are the Licensing Commissioners for Halton County.

Now that spring is about to open, and people think of getting photos, let not forest Hill, the artist of this vicinity.

PARENTS who are interested in the education of their children should occasionally visit the public schools. It encourages both teachers and pupils.

A MECHANICAL Institute has been organized in Georgetown, and the villages have liberally subscribed to a fund for the purchase of a library for the institute.

MESSES. Christie, Henderson & Co. have given their bay scales a thorough overhauling, and now the farmers and others using the scales can depend on correct weight.

DURING THE past week, two or three men, with as many teams, have been engaged in the vicinity collecting up iron from the farms and others, and shipping it to Toronto.

The Bible Society meeting held in the Presbyterian Church last evening, was very well attended. As yet we have not learned how the collectors succeeded in canvassing their several wards.

HOT relish hay when it is cut as short as oats and mixed with their other food. It is said that while it saves bran, shorts, and other food, in winter, it puts on flesh as rapidly as anything that can be given them.

A FARMER named Bowman, living near Milton, had his barn and shed with their contents of hay, grain, etc., burned about seven o'clock on Friday morning. It is supposed that it was the work of an incendiary. Insured for \$1,500.

THE Ontario Agricultural College will take water from the Guelph water works, and gas from the city gas works. All of which will be an excellent thing for all concerned. The main will be laid during the coming spring.—Herald.

TEACHERS' ASSOCIATION.—The Halton County Teachers' association will hold its regular half yearly meeting at Milton, on the 11th, 12th and 13th inst. Mr. McLellan will be present and take part in the various sessions. A good programme has been prepared, and an interesting meeting is anticipated.

ON Tuesday evening, some squandered an entrance into Grace Church, Milton, and left most of the cushioned seats, and even the communion table, in a damaged condition. We hope the perpetrators of the cowardly trick will be captured and severely punished for their wanton desecration of church property.

PASSENGER RATES TO WINNIPEG.—The following are the prices, from some of the principal points on the Great Western Railway to Winnipeg, for the

1890.—Toronto and Hamilton, \$2.50;

Burlington, Galt, Guelph and Paris, \$2.50;

London and St. Thomas, \$2.50; Windsor, \$2.50; Kincardine and Ingersoll, \$2.50.

The Greatest Remedy Ever Discovered.

Quinine is considered the greatest remedy known, but we believe it is equal, if not its peer, in the product of Dr. Fredrick Breeze's "Blood Purifier." It cures the liver disease as a builder and sustainer of the body in consumption and wasting diseases, and especially in the case of malignant properties. In Scott's Emulsion of Pare Red Liver Oil this emulsion is entirely composed of Quinine and Quinine salts and seems to be the most valuable remedy ever discovered.

WOULD YOU Do.—"Leap year gives young ladies a gentleman's privilege in making love." Perhaps it does, but no respectable young man will have anything to do with a young lady who takes a position on the floor, however, she may be dressed, so that the gentleman may get the best of her. Not until it looks well for a dozen or more young ladies to do this, in front of a church, and a faint heart might give up, and knock ing one another off, and falling a-tumble on the sidewalk, in order to kill him cold, the suggestion is dismissed, and then buckle up to a young man and escort him home. No.

George D. H. Judd Co., New York, are the publishers.

Worm Powders

MARL CAME in like a lion.

FARMERS! Make to day's fair a success.

St. Patrick's Day two weeks from yesterday.

NO service in St. Alban's Church next Sunday.

NOW begin to think about ordering your seeds.

Mrs. O. C. Cook, of Toronto, paid her Acton friends a visit last week.

WORK to the very bad roads has been done during the past week.

JUDICIOUS advertising is sure to bring large returns, to increase your business reputation, to add to your acquaintances.

A GENTLEMAN who has been in Canada for 39 years says he has never known so much rain to fall in the winter as during this present season.

We received a call from Mr. W. S. McTavish, of Knox College, Toronto, on Tuesday. Our friend looks well, college life apparently agreeing with him.

It is about time for "new maple sugar," but the weather has a character which would hardly warrant the exhibition of what was left of last year's supply.

Mr. Malcolm McPherson, of Palermo, formerly of this vicinity, spent a few days with his friends here during the week. His smiling countenance was welcomed by all his old friends and acquaintances.

FAREWELL SERMON.—Rev. C. R. Lee, who has been incumbent of St. Alban's Church in this village for the past five years, preached his farewell sermon on Sunday evening last, to a large congregation. He left this week for his new charge at Port Colborne.

ON Monday last Messrs. R. & E. Nicklin received an order for a number of carloads of ice to be shipped to Detroit, but owing to the soft weather the ice on their pond became too soft to be of any use. Large quantities are being shipped from Guelph to Cincinnati and other American cities.

THE Guelph Water Works, which have been under construction for a year, have been completed. The engines were started on Monday, and a preliminary test made. Only a slight pressure was put on. Everything worked in a highly satisfactory manner. A thorough test will be made in a few days.

IT is the writer of the very beautiful poem, which was found on the street during the past week, beginning with the following lines, will call at this office she can have it published.

Doubt that the Stars are fire,
Doubt that the sun does move,
But never doubt love.

WE welcome to our exclusive list, the "Triple Link," a neat and well edited sheet published in Laramie, Wyoming, and devoted to the interest of manhood, the arts and sciences and general literature. It is a tri-monthly journal of 20 columns, and printed on "toiled" paper. We take pleasure in recommending it to the members of the order.

MATRIMONIAL.—Yesterdays one of our Acton young men, Mr. Peter McNich, late of the firm of Fyfe & McNich, merchant tailors of this village, was united in wedlock to Mrs. Corrigan, of Berlin, sister of Mrs. H. J. Hall, formerly of this village. We present to the newly married couple our congratulations and wish them a happy and prosperous career.

Equal to Telegraphy.

It is not so many years ago when Telegraphy was looked upon as a chimera, and the world was skeptical of its practicability, so far off the idea that it could be, but little progress has been made.

WE have some telegraphic equipment which we sell at a profit, which is to be had at C. W. Hill's.
