TOWN AND COUNTY.

—House cleaning time.
—Now plant shade trees.
—GARDENERS are now busy.
—The organ grinders may soon be expected.
—Look into your cellars and see if the potatoes need sprouting.
—THERE is a by-law prohibiting cattle from running on the streets.
—A few more loads of wood taken in exchange for new gas-pipes, at this office.
—GOOD PROSPECTS—Every house in town is equipped, including all those recently completed.
—CLEAN up the street opposite your property, and give the village a neat and tidy appearance.
—APRIL showers bring forth May flowers, so we may expect flowers in profusion next month.
—THE carpenters are now busily engaged in finishing the exterior of Messrs. W.H. Storey and Little's residence.
—WEATHER Bulletin is mixed these days. The conditions in weather it would not be better to put a Bulletin in the paper.

AN EXCHANGE SAYS: "Farmers are strongly advised to cultivate the cane for one year." Start now, gentle school boys, in only return to the sugar cane.

—MR. SMITH, father wants to borrow your paper. He only wants to read it. Well, go back and tell your father to send me his paper. Tell him I only want to read it.

—MR. ALVA, S. Card has received a large quantity of new plates of all kinds, several plants new to us are among his collection. Those desirous of acquiring their homes should call and leave their orders.

THE SALVE.—It is astonishing what a noise that Ailmaric Salve, for the cure of all kinds of sores, is now making all over the States and Canada. The Rev. Theobaldus, Ailmaric, says he has a good deal to do in replying to the number of applicants for it.

FIRE IN GUELPH.—A fire broke out on Saturday night in the rear of Fielding's hotel, Guelph, doing considerable damage. The fire was extinguished by the fire department. The cause of the fire is not yet ascertained.

Equal to Telegraphy.

It is not so many years ago when Telegraphy was looked upon as a chimerical and visionary. We all know how it has become a reality. It is now a fact that it is equal to telegraphy. It is now a fact that it is equal to telegraphy. It is now a fact that it is equal to telegraphy.

RUMOR.—Yesterday morning Mr. Richard Piller, was driving a spirited horse, attached to a top buggy, through the town, and the animal probably conscious of the importance of the occasion (it being Mr. Piller's wedding day) was putting on considerable style, when the driver attempted to curb the animal's impetuosity it became unmanageable, and ran away, upsetting the buggy and smashing it to smithereens. Mr. P. was thrown out but fortunately sustained no serious injury. The horse broke from the buggy and ran into Mr. Campbell's barn yard.—*Milton News.*

—SOME parties complain that the Council are too free making people move their fences and rubbish off the public streets. We think differently. The Council are doing a creditable act in this respect, and will show no partiality. Good and strict regulations are the principal essentials for Councilmen. The present Councilmen are setting a good example for their successors.—*Georgetown Herald.* We think it would be to the appearance of some of our streets if the Council would insist on having the obstructions and rubbish removed. On a few of the streets the fence project from three to six feet on the street, and these fences should be moved to the proper position.

—Get your garden plowed.
—How about the Band Stand?
—Straw hats are now being donned.
—The looting season has commenced, boys, don't desecrate the Sabbath.
—The hurricane which visited us on Tuesday did great damage throughout the country.

TROUT FISHING.—Wait boys, don't be in a hurry, you can fish all you like after a week from next Saturday.

—CALL at the FREE PRESS office for your spring relining, we have every facility for doing first-class work, neat and clean.

THE WONDERFUL MAN.—The attention of our readers is directed to the unusual advertisement in this issue of Messrs. John Hogg & Son, Dry Goods Merchants, Guelph. They have just opened out their immense spring stocks, and in the ad. will be found enumerated a few of the many lines they have in stock. When visiting the city do not fail to call at the Wonderful Man's Store.

WINDOW BROKEN.—On Monday last Mr. Geo. Hynds Jeweller, stepped out of his shop, leaving his dog, possibly, the dog being closed and the dog, jumping through the large window, at the same time damaging a large quantity of glassware and other goods which were in the window. We presume Mr. Hynds would have been better pleased had some other person been owner of the dog.

—We have received a pamphlet containing a well written and sensible essay on "Alcohol in Health and Disease," by H. M. Backe, M.D. Medical Superintendent of the asylum for the insane, London. The work treats of alcohol in all its forms, in both health and disease, and clearly shows that however used it increases the comfort and happiness of life in proportion to the amount that it takes. The work is sold for ten cents.

Remedy For Hard Times.

Stop spending to much on fine clothes, rich food and style. Buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and make the proprietors rich, but put your trust in the greatest of all simple, pure remedies, Hop Bitters, that cure always at a trifling cost, and you will see better times and good health. Try it once. Bead of it in another column.

THURSDAY, APRIL 1890.

New Boot & Shoe Shop.

WILLIAMS WOULD RESPECTFULLY ANNOUNCE that having placed their business for the period and Canadian winters for this spring's trade, early last fall, they enabled themselves to take the great gain that has been made in all classes of goods during the last four months to use orders for clothing and shoes. They would most cordially direct a mention to their West-Indies and Scotch Tweed Suits, which are now in stock in quality and price. Also to a new stock of English-made felt hats which is much better in quality and lighter in weight than has been manufactured in Britain heretofore. In the finishing department they have a new lot of superior Kid Glove equal in quality to the celebrated Dunlop's Glove, and much cheaper. Also, French Cambric Shirts, the latest colored shirt ever introduced. A general assortment of Fine Furnishing Goods can always be obtained from Yours Most Respectfully,
