Hynd's, Jewellery and Fancy Goods Store action.

THURSDAY MORNING JULY 1, 1859.

TOWN AND COUNTRY.

-Dominion Day.  
-Haying has commenced.  
-Where will you spend the hollidays?

-Refreshing showers on Sunday and Monday.

-Haying has commenced. It is a good crop here.

-The boys are having their haircut at Sing Sing.

-Rockwood Academy has been closed for vacation.

-The recent showers have improved the appearance of all the crops.

-The Acton Brass Band will appear in a few days in a new uniform.

-To day is the thirteenth birthday of Miss Canada, our fair Dominion.

-Cherries are ripening. There will be a very small crop in this vicinity.

-Remember the Strawberry Festival in the Methodist Church to-night.

-The *Clarendon and News* each sported a full page advertisement last week.

-Return tickets, good for to-day, will be issued between all stations on the G. T. R. at single fare.

-The appearance of the village cemetery would be much improved if the long grass between the plots was cut.

-The 16th of August has been named as the civic holiday in Toronto. When is Acton's to be observed?

-Listowel town council have decided to allow a discount of five per cent on all taxes paid into the public treasury prior to the first of October.

-The street and sidewalk commis- sions have had the thistles and weeds on the public street cut down. The streets are now more presentable!

-An agricultural paragraph remarks that "soe-ep deferred makes the potatoe small". It's funny that if you want a good crop of potatoes...

-Everything in nature indulges in amazement. The lightning plays, the wind whistles, the thunder rolls, the snow flies, the waves leap, and the fields smile. Even the birds sing and the rivers run.

-"Pa, what does the printer live on?" "Why, my child?" "Because, I heard you say you hadn't paid for your paper for six year, and still you take it."

-Visitors to Nigara this year will find blessed relief in the fact that hawkmen and hotel stage drivers are not allowed to yell and worry the life out of a traveller as formerly.

-A train of twelve cars of Sunday school scholars from Shakespeare and Balaclava passed through here on Saturday morning for Toronto and Scarborough Heights. They were accompanied by the Wellesley band.

-If the persons who stole the locks off the door of one of the bathhouses at Nicklin's Lake will call at this office they can have the keys. A repetition of this behavior will not pass so quietly. Their names are known.

-An accident occurred on the T. & S. F. R. three miles west of Sargent, Kansas, on Friday, by which two passengers were thrown down an embankment. Among the injured was Frank Wheaten, of Campbellville, Canada, who was hurt on the back.

-It is our sad duty this week to chronicle the death of one of the children of Rev. W. J. Pigott, incumbent of St. Albans' Church here. The little fellow was attacked with diphtheria on Wednesday, 15th June, and died on Sunday last. To prevent contagion the funeral was held on Sunday evening at 3 o'clock. Mr. Pigott and family have the sympathy of the community in their loss.

-If you treat your cucumber right, it will do the same by you. Shave it into thin slices and sprinkle it liberally with salt. After standing an hour or two, turn it over in the dish, and let it remain the ice box over night. Squeeze it out in the napkin before dinner the next day, and it will then be ready for saldic treatment, and can be partaken off in large quantities with no ill results whatever.

-There are men who take an editor's paper "just to help it along." They don't care for the paper, don't read anything but city papers, but they take the home paper, just because the editor is "pretty good sort of a fellow." The trouble is that these scoundrel individuals hardly ever pay for the paper, and at last the deluded editor finds that they are just helping him along towards the poor house, and that he would need helping a long time before they would do him any good. Then sadly he drops them from his list, and writes "D. B." in red ink opposite their names and the amount of "three or four years" helping along" after which they go about abusing him for an ungrateful fellow, and predict his speedy ruin.

TURNIP SEED,

ICE SHIPMENTS.—Meister Gordon & Robt. of Stratford, have been busily engaged in shipping ice from their ice houses here during the past week.

FINE WHEAT.—About as handsome a field of wheat as can be seen in this vicinity may be viewed at the present time in the farm of Mr. Andrew Scott, on the 4th line, Esquinton.

FARMERS.—An exchange gives the following advice to farmers:—"Whenever you are requested to sign a contract by a stranger, for a new-fangled improvement, be sure to open it out to its full length, read both sides of it carefully, fold it up justly, return it to him truly, and tell him to go west, but don't put your name to it—No, never."

INCIPENT FIRE.—On Sunday evening last the alarm of fire was raised and it was found that a fire was in progress in the building occupied by Mr. John Turner, at the Baveloper and Notary. The best and largest Association in town. Call in and see! Signs of the big Watch, Geo. Hynd's, Jewellery and Fancy Goods Store action.
