THURSDAY MORNING, JULY 15, 1880.

THE PRESENT OUTLOOK.

Seldom have the people of Canada had such an outlook—one so full of promise as that which the country now presents. Unless the crops have been injured by the recent heavy rains, the prospects for an abundant harvest, the foundation of wealth and prosperity, never have been surpassed, scarcely ever equalled. This prospect is not confined to one section nor to one province, but so far as we can gather, it seems general throughout the whole extent of country. The hay crop will be about double the average, while the fall wheat in nearly all sections of Ontario has been a source of admiration to all who have travelled extensively over the country. The spring wheat is said to have been struck with rust in [illegible] a very general complaint as yet, and though individuals may suffer, the general result will be but little affected, if the wet weather had had its innings. Nearly all other crops are bright with promise, and the agricultural outlook is such as should make the heart of the farmer sing for joy. With large yields of cereals and fair prices, the past vestiges of the hard times ought to disappear and the Dominion may be considered as launched on another spring-tide of prosperity.

Children on the Street at Night.

During the spring and summer of the present year it has been a noticeable fact that more children have been allowed to run on the streets at night than ever before in the history of the village. It is to be regretted that this is the case, and we would urge parents to keep their children, especially the younger ones, at home after sundown. When these little folks are on the streets at night they come in contact with those of impure morals, and are thus corrupted, not only is this the case, but they annoy the citizens by their rude and noisy sports, and strangers visiting the village often come to the conclusion that our inhabitants are not more than half civilized. The parents should bear in mind that the public street is no place for children to play, and that home is the proper place for them after dark.

MARKETING.

In marketing vegetables, remember that much depends on the attractiveness of their appearance. Don't heap them in a confused mess, but arrange garden stuff so that their good quality will be apparent. Oftentimes the best selections carried to market by themselves will bring more than the whole crop, good, bad, and indifferent, indiscriminately thrown together. A box of strawberries, each berry of nearly uniform size and appearance, will sell for more, and more readily, than the box which gives a confused look to the berries. The good marketer studies how to please his customers, and doesn't grudge a little care in sorting or washing, in order that his wares shall show the best they are capable of.

Postal Currency.

A light, convenient, small currency for transmission through the mails is one of the most pressing business wants of the present time. Those, whose business necessitates the sending and receiving of considerable amounts in small sums, find great difficulty and no slight loss by the use of the existing cumbersome system of money orders, while the use of postage stamps is open to many serious objections. The Post Office Department would confer a great boon if they would devise some more simple method than now prevails.

Painful Accident.

On Monday morning about nine o'clock a painful accident took place on the Hamilton and Dundas Street Railways. Mr. John Ferris, assistant accountant in the Bank of Hamilton, while undertaking to jump on the car to come into the city, fell, and had his right leg run over within a few inches of his ancle. The cars were crowded to their utmost carrying capacity, both inside and on the platform at the time, and two ere passed over his leg before they were stopped. The unfortunate sufferer was taken at once to his home at Gleafern, Queen street, where a number of physicians were soon in attendance. It was decided at the consultation between Drs. MacDonald, Wolverton, Malloch, Mullen, and Kitson to amputate the leg, which was accordingly done, the patient being placed under the influence of chloroform. Mr. Ferris is doing as well as could be expected, and stood the shock well.

A Sad Warning to Boys.

Guelph Lad Decapitated by a Freight Train.

At noon on Wednesday last as a freight train was going east, Wm. Ryde, a young boy about 13 years of age, son of Mrs. Ryde, a vegetable dealer in the Guelph market, was killed by having his head completely severed from his body. Young Ryde was hanging on the brake rod of the conductor's van when the train backed up, and it is supposed the jolt of the cars threw him off. He fell under the wheels and seven cars passed over him. The train was stopped as soon as possible, and the remains of the unfortunate lad were removed to the drill shed. An inquest was held on the evening of the same day, and the following verdict was found:—

"That the deceased James Ryde came to his death by being run over by a Grand Trunk freight train, and that no blame can be attached to any of the employees of the Grand Trunk railway, but that his death resulted from his own carelessness in attempting to get off the train while in motion [illegible] the Grand Trunk authorities to take all lawful means to arrest and make examples of boys found trespassing by jumping on trains and would suggest the propriety of placing an officer at Guelph to protect their property, as the line runs through the most populous part of the city."

This should prove a warning to all boys, not only in Guelph, but through out the country, who are in the habit of jumping on passing trains.

Nassagaweya Items.

From our own correspondents.

The school teachers are off on vacation at present, giving the children a chance of helping at the haivesting. It is very thoughtful of them.

Owing to the late showers the farmers have been hindered to a certain extent in making hay. The crop in this township as a whole is good, but not so heavy as last year.

The members of Prospect Division, Sons of Temperance, intend holding an Open Division on the evening of Friday the 23rd inst. Bro. Thos. Webster, G. S. of Brantford, has consented to deliver an address at the meeting.

The fall wheat is coming on very fast and quite a few are expecting to commence cutting this week. There are some fine fields of it in Nassagaweya, and if it turns out as it looks now, it will be far better than anticipated last spring. The other crops are doing well, except spring wheat, which looks bad owing, as some suppose, to the Hessian fly.

The Credit Valley Railway has ceased running for the present, on account of the employees striking for back pay. There are no signs of the company coming to an agreement with them. The Company surely will not run its business according to the name of the valley. It is rather hard to pay taxes for a railway and have nothing but the bare road to look at.

Mr. Talmie, merchant, Cummins ville, has failed.

Rev. Mr. Fisher who succeeded Rev. D. M. McKenzie in the pulpit of Ebenezer Church has arrived and preached his opening sermon.

Mr. Wm. Watson, one of the councillors of this municipality, met with a severe accident a short time ago while removing stones with a stone machine.

The following officers of Prospect Division, Sons of Temperance, for the present quarter were installed on Friday evening last:—

W. P. Sister A. Hill.
W. A. Bro. A. Barlow.
R. S. " J. W. Easterbrook.
F. S. " J. McPhederan.
Treas. " M. McMillan.
Chap. " J. Ingle.
Con. " H. McPhederan.
A. Con. Sis. E. Taylor.
I. S. " A. McPhederan.
O. S. " S. Simpson.

FASHIONABLE WEDDING.—One of those pleasant incidents which tend to inspire the hearts of the young people took place in the M. E. Church, Moffat, on the 30th ult., being the union of Miss Mary Allison, daughter of Robert Allison, Esq., and Mr. W. J. Gunstone, both of this township. The bride was attended by Misses Aggie Allison and Maggie Gunstone, and the groom by Messrs. W. Leachman and Joseph Allison. The ceremony was performed by Revs. Duff, of Florence, and Bristol, of Mountaburg. A happy time was spent at the residence of the bride's father after the ceremony.

BROOKVILLE.

A Fasting Doctor.

An English physician named Dr. Tanner, residing in New York, is attempting the extraordinary feat of fasting for forty days. He takes nothing internally except a little water occasionally. He is subjected to the closest scrutiny by newspaper reporters and physicians and has not yet been discovered in any deceit. He sleeps most of the time. He has already completed sixteen days. The regular physicians who have watched him closely believe he is steadily growing weaker. It is said he may lose his senses at any time, and that condition may be followed by sudden death. The Dr. does not share his opinion. He is still confident he can accomplish the undertaking. He has lost 27½ lbs. in weight.

General News.

Seventy-two children died from the effects of the heat in New York on Tuesday.

The discovery of a rich vein of copper is reported at Tarbolton township, lot 12, con. 4.

—A new public Hall is to be erected in Galt, which will be leased by the Temperance Society.

A horse, valued at $1,500, belonging to Forepaugh's show, died in a car at Belleville on Sunday.

The Mayor of Brantford has issued a proclamation appointing the 28th of July as a civic holiday.

Great damage to the standing crops has been sustained in the western counties of Ontario by recent storms, notably in Middlesex county on Friday night.

—Voting on the by-law granting $10,000 in aid of the Waterloo, Wellington & Georgian Bay Railway, held in the southern section of the township of Peel, was defeated by 8 votes on Saturday.

Hicks & Co. of London, England, report late sheep and cattle markets as being very bad. Large importations have brought down the prices, and [illegible] demand.

—The prisoner, Geo. Bennett, at present lying in jail under sentence of death for the murder of Hon. Geo. Brown, continues to be in good spirits, and seems to be quite unconcerned as to whether he will be hanged or reprieved.

An unknown man was found on Sunday afternoon in Mr. Groh's bush, about a mile from Hespeler, hanging by the neck, the body being in a very decayed state, the flesh dropping from the bones. It is supposed he must have committed the rash act two or three weeks ago.

Miss Annie Elliott, of Walpole, cleared the railroad track, in a lonely place near Jarvis, lately of the debris of a fallen tree which lay across it. The tree was providentially greatly broken by the fall, and although she was barely able to get it all off, yet she managed the feat just in time to save a passenger train from being wrecked.

Mr. Thomas Brotherod, of Howard township, near Ridgetown, was attacked on Thursday by a hog that had been running wild for about three years, and had grown to an enormous size, with tusks like a wild boar. The hog threw him down and bit him through the heart, then went for his throat, completely severing the jugular vein, and injuring him on the face and hands. He died in fifteen minutes. His funeral to-day was attended by the entire community where he lived. Deceased was a wealthy farmer, and highly respected.

The full list of prizes awarded has just been received from Sydney, and Messrs. Brinsmead & Sons stand, with two first class awards and a special certificate, at the head of all the piano manufacturers who exhibited at the Exhibition. Following them, that is to say among the first-class awards without special certificate, are Messrs. Erard, Messrs. Steinway, Messrs. Chickering, Messrs. Bechstein, Messrs. Bluthner, Messrs. Ronche, and a local Sydney piano manufacturer. People say, England is deteriorating. In pianos, at any rate at Sydney, an English firm has gone ahead of the most celebrated makers of France, America and Germany.—*Ade.*

On Thursday afternoon a fire was discovered in the Guelph Lumber Company's yard at Parry Sound a short distance from their steam sawmill. It spread so rapidly that in spite of the efforts of a very large number of men, including the hands from the neighboring mills, who were soon on the spot, it was soon beyond control, and consumed all the lumber, tramways and docks lying between the saw-mill and shingle mills, except what was thrown into the water. Both of the mills were saved with great exertion. It is estimated that two million feet of lumber were destroyed—said to be insured. The fire arose through sparks from the smoke stack falling on a pile of dry lath.

In searching the den of an enormous black snake at Granger Ridge, O., there were found under the carcase of the slain monster a pile of bones of sheep and other animals. A little further on revealed the tiny skull of a child lying near a gold necklace. One of the searchers recognized the latter as belonging to a six-year-old daughter of his, whom they had supposed stolen by gypsies two years before. Nearer inspection brought to light a heap of little bones, all human, the mouldering shoes and comb worn by the poor child when she was last seen. The effect on the father was most pitiable. The bones were gathered together and buried without telling the mother, who has been in very delicate health since the girl disappeared.

CHICAGO, July 13.—The State Board of Agriculture's tables of the July Crop report are complete, and are based upon correspondence from each county in the state to the first July. They show the total value of the staple farm products will be larger by millions of dollars than ever before. The total wheat acreage is 20 per cent. greater than last year, and the condition on July 1st, with very few exceptional counties was equal to that of last year. Oats are 15 per cent more. The hay crop is nearly double. The Irish potato crop is immense, and the sweet potato crop larger than ever before. All sorts of fruits are in fine condition.

Strike on the C. V. Railway.

Traffic was suspended on Wednesday 7th inst., along the entire line of the Credit Valley railway, owing to the employees, one and all, having quit work. The company, it appears, owe the men three months' wages, but has no funds to meet the same, and this fact having been pretty well understood by the men, they on Tuesday afternoon decided not to work any more until the arrearages were paid up. The proposal it is said, was made by the shopmen, and engineers, conductors, foremen, agents, brakesmen, section bosses, trackmen, ballast men—in fact every employee of the company, excepting perhaps those in the head office—agreed to the suggestion quietly and at once. Consequently none of the employees from one end of the line to the other appeared at their usual places on Thursday morning, and there was no work done on the road, nor did any trains arrive or depart. The men took the situation very quietly and nothing of a threatening or violent nature was heard. They state their intention of remaining away from work until the company come to a settlement. A committee has been appointed to represent the employees should the Directors desire a conference.

Remedy For Hard Times.

Stop spending so much on fine clothes, rich food and style. But good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and makes the proprietors rich, but put your trust in the greatest of all simple, pure remedies, Hop Bitters, that cures always at a trifling cost, and you will see better times and good health. Try it once. Read of it in another column.

AS CERTAIN AS EFFECT FOLLOWS CAUSE, so surely will disease eventually fasten itself upon a system deficient in vital energy, if tonic medication is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs. Invigoration, prompt and thorough is the only safeguard. No remnant of depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, has more clearly demonstrated its efficacy than Northrop & Lyman's Quinine Wine. In this preparation, associated with the salutary medicines which forms its basis, is pure sherry wine and certain aromatic constituents, which impart an agreeable taste to the article, and gives additional emphasis to its effects. In cases of general debility and dyspepsia it is invaluable and the desired effect is, in the vast majority of cases, remarkably prompt as well as decisive. That good natural appetite, which gives a relish for the coarsest fare, is insured by the use of the Quinine Wine, which also confers brain soothing and body refreshing sleep. Fever and ague and bilious remittent fever, are diseases to the eradication of which it is specially adapted; but it should be used only in the intervals between the seizures. The far-reaching effects of a good tonic, in all complaints involving loss of physical energy, are well understood by physicians, and the comprehensive influence for good of this preparation upon the system, is so far to bear out the professional belief in the value of invigorants as opponents of disease. Be sure to ask for the "Quinine Wine prepared by Northrop & Lyman, Toronto. Sold by all druggists.

THE GRAVE.

RENTON—At 42 Paisley street, Guelph, July 13, Mary, wife of Mr. Geo. Renton, aged 52 years.

Deceased was mother of Mr. S. W. Galbraith, formerly of this journal, now of the *Democrat*, Flint, Mich.

SCOTT'S EMULSION

PURE COD LIVER OIL

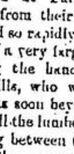
WITH

HYPOPHOSPHITES OF LIME AND SODA.

This preparation combines the two best remedies ever discovered for **Consumption, Colds and Chronic Coughs, Scrofula, Rheumatism and Diseases of the Blood, General Debility,** and all **Wasting Diseases of Children.** It not only contains the well known and highly esteemed virtues of Cod Liver Oil in a form that is perfectly tasteless and acceptable to the most delicate stomach, but in addition, the wonderful tonic and life-giving properties of the Hypophosphites, so incorporated that the remedial powers of both are largely increased. Physicians universally acknowledge the vastly superior virtues of this combined food and medicine in all the above diseases. It is not only better tolerated, but much more readily assimilated by the system than plain Cod Liver Oil, and a better agent in enriching and purifying the blood, allaying the irritation of the throat and lungs, restoring the impaired functions and giving strength and vigor to the whole body. It is sweet and palatable to the taste, never separates, deposits or spoils. Be sure and ask for **Scott's Emulsion.** For sale by all druggists at $1.00 per bottle.

MANHOOD,

HOW LOST, HOW RESTORED!



We have recently published a new edition of **Dr. Culverwell's Celebrated Essay** on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments of Marriage, etc., resulting from excesses.

Price, in a sealed envelope, only 6 cts. or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Address,

The Culverwell Medical Co.,
41 Ann St., New York.
Post Office Box 4586.

$300

A MONTH guaranteed, $12 a day at home made by the industrious. Capital not required; we will start you. Men, women, boys and girls, make money faster at work for us than at anything else.
