THURSDAY MORNING, JULY 22, 1880.

HARVESTING.

The harvesting in this region is now in full blast. A great deal of good hay has been well housed. In some except ional cases fields were a little the worse for the rains but the farmers made the most of the sunny weather to secure a good hay crop. The wheat harvest looks well. In an occasional field, where the grain is very thick and heavy it is laid by the frequent showers. Should the weather be propitious throughout this week, a large quantity will be cut and much of it secured. Harvest hands are scarce, but thanks to the Reaper, the fields can be cut in a much shorter time than by the formerly slow process of cradling. Wages average $1.50 or $1.75 per day, although some are giving as high as $2.00. Potatoes, oats, beans and other spring crops look very well in the adjoining Townships.

The Princess for England.

Canadians will regret to hear that indisposition has made it necessary for the Princess Louise again to leave Canada and return to England. She will, it is said, leave about the end of this month, probably taking advantage of the return of her brother, Prince Leopold, to accompany him. Some time ago, while the Princess was in England on a visit, it was reported from there that she was extremely averse to returning to Canada, as her stay here was understood to have been anything but pleasant to her, and that her return was principally due to the influence of the Queen. Her present visit will, no doubt, cause a revival of these reports and it will be regarded as a strong confirmation of them. Although the grounds given for her reported dislike to a residence in Canada were very reasonable, yet we must accept the statement in contradiction of the reported aversion which was given by the Governor General not very long ago. It appears that her health has been somewhat affected by the Ottawa accident, and all who saw her while on her recent visit with Prince Leopold will remember how pale, and thin her face appeared and will readily acquiesce in the opinion that a change of air, which necessitates a temporary absence from Canada, is desirable.—*Witness.*

Irish Prospects.

The very favorable reports of the crops in Ireland must be encouraging to residents of the Emerald Isle. Recent telegrams state that the weather so far has been very favorable. It is expected the potato crop will be enormous. From all accounts it promises to exceed anything seen in Ireland since the period anterior to the famine of 1847. The root and cereal crops also promise abundance.

Credit Valley Railway.

We learn that the workmen on the Credit Valley Railway lately on strike have, on the receipt of their arrears of wages for April and May, gone to work with the best prospects of receiving their weekly earnings regularly hereafter. The Company has already passed through great difficulties, and doubtless has more to encounter, but now that the road is in running order there is good reason for the belief that the indomitable courage and perseverance which have carried it so far will be as successful in future. The Credit Valley, in spite of its enemies, will yet do its share to make Toronto the chief railway centre in Canada.

Mrs. James Dunn died at Park hill on Saturday, from Paris green, taken to "end the heart-ache and the thousand ills" produced by a drunken husband.

EXHIBITION.—The farmers in this vicinity are invited to visit the farm of Mr. Alex. H. Brown, about a mile east of Acton, and see the work performed by the new Osborne Harvester which reaps and binds the grain in the neatest manner possible. Don't fail to go and see the machine at work. it is worth a visit. Alex. F. Smith is agent.

Nassagaweya Items.

From our own correspondents.

Open meeting of Prospect Division, on Friday evening.

The Rev. H. H. McPherson preached a splendid sermon on Temperance on Sabbath last.

The Credit Valley Railway Company and their Employes have come to an understanding and work has been resumed.

Mr. Geo. W. Logie who has been teaching Waterdown high school for the past year, arrived home on Saturday. He is looking well.

The work of the pea bug is now visible on the early sown peas. On account of the bug the farmers have sown corn to quite an extent. If peas were not sown for two years it might banish the bug.

The farmers are all busy in the fall wheat harvest, and if the weather keeps favorable most of it will be cut and part housed this week. The rust has hurt it considerably and it is shrunk to a great extent. Harvest hands have been scarce there being quite an inquiry for them. The extreme hot weather made the work burdensome, until the latter part of last week when it moderated considerably.

NED.

The Nassagaweya Appeal.

The following is the decision of His Honor Judge Miller, on the appeal of Nassagaweya township against the equalization of assessment made by the County recently:—"Upon hearing the evidence adduced by the appellants on the matter of the appeal herein, and by and with the consent of the parties representing the several municipalities of the County of Halton, excepting Nelson township, town of Oakville and village of Acton, which were not represented, I determine the matter of appeal as follows; I do order and determine that the valuation of the real estate of the said township of Nassagaweya made by the said County of Halton, on the equalization of assessment, shall be decreased by the amount of $133,680, and that the equalization of the whole assessment for the said County of Halton shall be as follows, viz:—

Trafalgar	$2,526,900
Esquesing	2,471,870
Nelson	1,745,075
Nassagaweya	1,089,695
Milton	143,750
Oakville	193,750
Georgetown	137,500
Acton	106,250
Burlington	106,250
	$8,520,840

And I do further order that the said County of Halton shall pay to the said appellants their costs of the said appeal, which I fix at the sum of $35.

(Signed), T. MILLER,
Judge,

"whom by consent of the parties the said matter of appeal was referred."

Notice to Farmers.

Seeing the time has arrived for harvesting and threshing Barley we would respectfully advise all who have barley to get it well threshed and hearded, and if necessary put it twice through the threshing machine. But a very good alternative is to turn the concave of the machine the opposite way to what it is for ordinary threshing. Farmers will find this more than double repay them, as it improves the weight and makes it much easier to clean with a fanning mill and is also worth more either for United States market or for export to Europe, as the great barrier against our Barley in the European market has been the lack of weight.

G. & E. TOLTON.

The Illness of the Princess.

The whole people of Canada will learn with regret that the serious accident which befell her last winter has had a permanent ill effect upon the health of the Princess Louise, and that she is obliged to leave Canada for a time to promote her recovery. On her recent visit to Toronto a great change was observable in her appearance. All will regret her absence, and join in the expression of earnest hope that she may soon be restored to health, and to the position in this country which she filled so well.

Messrs Hicks & Co. London, England, report a small supply of sheep & cattle, and as a consequence an improvement in price.

Mrs Dunn, wife of a resident of Kincardine committed suicide last Monday night by drowning herself in a well. Her body was only recovered last evening. An infant whom she took out of the house with her has not yet been found.

Remedy For Hard Times.

Stop spending so much on fine clothes, rich food and style. Buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and makes the proprietors rich, but put your trust in the greatest of all simple, pure remedies, Hop Bitters, that cures always at a trifling cost, and you will see better times and good health Try it once. Read of it in another column.

WHAT THEY SAY OF IT? A FEW FACTS FOR THE PEOPLE.—There are but few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectric Oil. Read the following and be convinced:—Thomas Robinson, Farnham Centre, P. Q. writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Electric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it equally as good for horses as for man."—A. Mayhew, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, 'one of the best medicines they have ever used;' it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusau, Township of Percy, writes "I was persuaded to try Dr. Thomas' Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a public benefit."

BEWARE OF IMITATIONS.—Ask for Dr Thomas' Eclectric Oil, See that the signature of S. N. THOMAS is on the wrapper, and the names of Northrop & Lyman are shown in the bottle, and TAKE NO OTHER. Sold by all medicine dealers. Price 25 cents. NORTHROP & LYMAN Toronto, Ont., Proprietors for the Dominion.

SCOTT'S EMULSION

PURE COD LIVER OIL

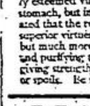
WITH

HYPOPHOSPHITES OF LIME AND SODA.

This preparation combines the two best remedies ever discovered for **Consumption, Colds and Chronic Coughs, Scrofula, Rheumatism and Diseases of the Blood, General Debility,** and all **Wasting Diseases of Children.** It not only contains the well known and highly esteemed virtues of Cod Liver Oil in a form that is perfectly tasteless and acceptable to the most delicate stomach, but in addition, the wonderful tonic and life-giving properties of the Hypophosphites, so incorporated that the remedial powers of both are largely increased. Physicians universally acknowledge the vastly superior virtues of this combined food and medicine in all the above diseases. It is not only better tolerated, but much more readily assimilated by the system than plain Cod Liver Oil, and a better agent in enriching and purifying the blood, allaying the irritation of the throat and lungs, restoring the impaired functions and giving strength and vigor to the whole body. It is sweet and palatable to the taste, never separates, deposits or spoils. Be sure and ask for **Scott's Emulsion.** For sale by all druggists at $1.00 per bottle.

MANHOOD,

HOW LOST, HOW RESTORED!



We have recently published a new edition of **Dr. Culverwell's Celebrated Essay** on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments of Marriage, etc., resulting from excesses.

Price, in a sealed envelope, only 6 cts. or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicines or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.
