Dressing Combs, Fine Combs, Circular combs, Back combs.

Silver and colored Cardboard, Berlin Woods, All new. Call and see at GEORGE HYNDS Jewellery & Fancy goods store, Acton, Ontario.

TOWN AND COUNTY.

—ADVERTISE early and secure the full trade.

—THE last half of summer has commenced.

—THERE was no preceding in Knox's Church on Sunday.

—EAR plenty of ripe fruit if you want to be healthy in warm weather.

—THE Guelph fire brigade were not called out during the month of July.

—BRAXLEY BERRY excursions are very popular at present, St. Helena is the destination.

—THE young ladies are talking of getting up a "Tanner" picnic. We think it will be a success.

—A TRAIN load of German immigrants passed through Acton on the Grand Trunk Railway for the West, on Sunday night.

—WHEN a boy has a lot of fish he will lose it in three days, and when he has a lot of apples he hasn't a word to say about it.

—THERE is an immense crop of beehive-berry at St. Helena. It is estimated that 150 bushels were picked there on Monday.

TO YOUR FRIENDS.—This is a good copy of the FREE PRESS to send to your friends. You can get it ready for mailing at this office, for three cents.

QUARTERLY SERVICES.—The regular quarterly services will be held in the Methodist Church, on Sunday next. The Sermon of the Lord's Supper will be administered immediately after the morning services.

MR. VINTON has been very unfortunate in his predictions. They have all been backed into a cocked hat, and to speak Mr. Vinton as a weather prophet, is about as reliable as a King David's "statistician."

—Ladies' Advertiser.

THE DAILY MAIL.—The Toronto Daily Mail, determined to keep ahead of any daily journal in Canada, has decided to use steel and leading. The Mail has now as neat a typographical appearance as any daily paper on the continent.

BEST YET.—In our issue of the 16th we mentioned that Mr. Tom Mathew, of this village, had seen seven feet high. We thought that could hardly be beaten, but a subscriber writes from Louisville, Hazlet Co., to say that a Mr. "Elliott" of that place had at that time seen eight feet high. —Northwest Gazette. Good for Hazlet, our country wins every time.

THE VALUE OF A SPARROW.—English sparrows are declared to be very useful little creatures in more ways than one. It has been discovered that they are very fond of Canada thistle seeds and eat them with such avidity that in some places, where the sparrows are numerous, not a single seed can be found in the thistle down that is very plentiful there. Don't kill them, boys.

—THE Georgetown Herald of last Tuesday came to hand on Tuesday morning of this week. As an excuse for its late appearance the Herald says:—"We offer an apology to those who have paid their subscriptions, but delinquents will please have the goodness to attend." While we are very seldom late with an issue of the FREE PRESS, and never more than an hour or so, we believe in treating all our subscribers alike.

—IT was in Acton, in the pretty garden of her father, and this is how our reporter observed them:—

Beneath the shady tree they sat,
I held her hand, she held his hat;
I held my breath and lay right flat,
They kissed, I saw them do it;
He held that kissing was no crime,
She held her face up every time,
I held my peace and wrote this rhyme,
While they thought no one knew it.

PRETTY GOOD.—The Milton News is noted for self-praise respecting itself and its town. The following item appears in the last issue:—"What a mind-provoking thing it is for the FREE PRESS to ask—"When will Acton have its civic holiday?" The way these country villages do put on airs!" Now, if Milton was a metropolitan similar to London, Eng., or New York city, we would not wonder at such a remark, but when we find by examination of census statistics that Milton's population numbers only 193 more than Acton, we think the remark from our Bro. of the News entirely unwarranted, and would suggest to him that he would be profited by paying more attention to his own business; when ministers work for nothing and churches go in for free pews and no collections; when doctors attend patients "just to fill in their time," and railroads carry people for the fun of the thing, then we shall place our columns at the disposal of the great army of newspaper killers and insert free puff and advertisements by the dozens "for your noses and your noses." (We do not publish the paper for our health as some may think, and therefore from this day on we quit a business that no appreciative reader or decent man would ask us to stick to.) This is about as sensible a view of the custom as any we have ever seen, and we endorse the sentiment.

FREE PUFFS.—An exchange puts the case very plainly in announcing its departure from the custom of giving free puffs to any person, in the following:—"When dry goods men give away paper collars; grocers, sugar; hotel-keepers, beer and lemonade; stationers, envelopes and note paper; fruit dealers, pears, apples and peaches; when ministers work for nothing and churches go in for free pews and no collections; when doctors attend patients "just to fill in their time," and railroads carry people for the fun of the thing, then we shall place our columns at the disposal of the great army of newspaper killers and insert free puffs and advertisements by the dozens "for your noses and your noses." (We do not publish the paper for our health as some may think, and therefore from this day on we quit a business that no appreciative reader or decent man would ask us to stick to.) This is about as sensible a view of the custom as any we have ever seen, and we endorse the sentiment.

MISS LIZIE WRIGHT, of Rockwood, spent a few days this week with Acton friends.

MR. JAMES KELLY, of Guelph, spent yesterday with Acton friends.

MR. FRED H. SNEYD, foreman of the FREE PRESS staff, left yesterday morning for a trip to Boveaux, Muskoka.

—FOR a first class, stylish and durable daily carriage, go to John Speight's furniture store.

—THE trip to Toronto and return yesterday was only 80 cents. Quite a number took advantage of the cheap fare.

—ONE thanks are due to Mr. John Street, of Salmon City, Idaho, formerly of this village, for copies of San Francisco, Cal., papers.

BAND CONCERT.—The Band will give another of their popular ten cent concerts in the Drill Shed, on Monday evening next. Don't fail to attend.

—AFTER Dr. Tenner gets through, it will be in order for some member of the office and more conversational set to hire a ball and advertise her intention to go a month without speaking.

ACCIDENT.—Mr. H. T. Anderson, an employee of James Moore's tannery, cut the top off the knuckle of the second finger of his left hand on Tuesday. It will keep him from work a day or two.

—THE Mornington flour mills, owned and operated by Mr. John Nicklin, cousin to Messrs. R. & E. Nicklin, of this village, were destroyed by fire on Saturday morning. Loss about \$6,000. No insurance.

BASE BALL.—A base ball match will be played on the old base ball grounds, on Friday afternoon, between the employees of the Canada Glove Works and Mr. James Moore's glove leather manufactory. It will be an exciting game.

COUNTY MODEL SCHOOL.—The first term in the County Model School will begin on Monday, 30th August, and end on Saturday, the 23rd October. The closing examinations will begin on Thursday, the 21st October or Friday, the 22nd October, at the option of the County Board of Examiners.

—ON Thursday last, as Mr. John Boomer, miller, of Clifford, brother of Mrs. John Speight, was driving to Listowell, his horse became unmanageable, and ran away, throwing Mr. Boomer out of the buggy.

By the fall Mr. Boomer had his leg broken near the ankle, his ankle dislocated, and received a number of severe bruises.

—MR. Moses Oates, of Galt, makes the following forecast for August and September: August will be warm, probably hazy, in all likelihood remarkably dry. September will be much better than usual, with nearly an average of rain and rainy days. The thunder-storms will be severe in their effects, and will be a marked feature of the season.

SELL YOUR GRAIN.—A farmer of Zealand, Mich., has refused to sell his wheat for three years past, because he considered the price too low. The prospect of another large crop throughout the country frightened him into a resolution to sell. But on taking it from the granary the wheat was discovered to be musty and wormy, and buyers refused to buy it at any price. It then happens so.

ACTON CIVIC HOLIDAY.—Arrangements are being made to have the civic holiday for this village take place on the 19th or 20th inst. An excursion to Niagara Falls and Buffalo, by way of Toronto and across Lake Ontario is proposed. This would be a delightful trip, and if it is decided to take it in, the tickets will be made good for two or three days, thus giving plenty of time to those who wish to make a good trip. Full particulars next week.

THE CATHEDRAL CLOCK.—A few weeks since Mr. C. W. Hill, of the Acton Photo Studio, completed an ornamental bracket work clock, which has received the admiration of all who have seen it. The scroll work was cut out entirely of white holly. Mr. A. E. Matthews, agent of the Montreal Telegraph Company here, after viewing it, determined to beat it if possible, and has since finished one which is his volumes for his skill as an artistic worker in wood. Mr. Matthews did not restrict himself to one kind of wood, but has in the construction of his clock a quantity of each of the following woods:—Ash, rosewood, sycamore, buttonwood, white holly, black walnut, mahogany, butternut, bird-eye maple, curly maple, ironwood, spoolwood, hawthorn, pine, cherry, white oak, red oak. The clock is on exhibition at the post office.

CANADA GLOVE WORKS.—The Toronto Commonwealth of last week gave a lengthy description of the glove manufacturing establishment of Messrs. W. H. Storey & Son, of this village. A sketch of the business from the commencement to the present was given, as well as a description of the different processes to which the gloves are subjected during their manufacture, the same as that which appeared in the columns of the FREE PRESS a year or two since. From the article we glean the following statistics:—"It may not be amiss to mention that while last year the whole of their fall trade largely reached \$10,000, the orders already in for fall goods are over \$25,000, with a good prospect of reaching \$75,000 before the season closes. The spring trade showed a similarly gratifying increase. This establishment gives employment to upwards of one hundred operatives, and the pay list this year will foot up \$15,000 to \$20,000."

THE CRADLE.—PERMITS.—In Equinox, on Saturday 31st ult., the wife of William Perryman, of a son.

MOON.—At Crown's Corner, on the 28th ult., the wife of Joseph Moore, Esq., of a son.

THE GRAVE.—WATER.—In Equinox, on the 2nd inst., James, wife of Mr. John Walker, aged 50 years.

The funeral will leave the residence today (Thursday) at one o'clock, and proceed to the Acton Cemetery.

Hicks & Co., of London, England, report this week a very large supply of American cattle, and with this another reduction in prices. They also quote mutton at half a cent per lb. lower.

Potatoes, new, per bush	.. 0 30 to 0 40

—MONDAY was the 47th anniversary of Emancipation Day.

SEVERE ACCIDENT.—On Wednesday, 28th ult., Mr. Anthony Stevenson, blacksmith, of this village, met with a very painful accident. He was cutting an old saw with a cold chisel, when a silver of steel about three quarters of an inch in length flew off the saw and entered his wrist. He at once went to Dr. Lowry, who worked at it for two or three hours without succeeding in finding it. The next day the Dr. went with him (Mr. Stevenson) to Guelph, and, with the assistance of Dr. Keating, the silver was removed. A large opening was made in the flesh, and the silver was found between the bones of the forearm, in the deep muscles. Mr. Stevenson experienced intense pain, but the wound is healing rapidly, and he expects to be at work again in a few days.

SMALL CHANGE.—The complaint of the scarcity of small change is very general throughout Ontario, almost every business man being much annoyed and put to great trouble to secure sufficient for the requirements of his business. One cause of the scarcity is undoubtedly the drainage out of the country to the border states. In any of the cities along the border, more Canadian and English silver coin can be found than in a city of the same size in Canada. The reason of this is simple. Our Dominion coin passes at par there, the English shilling at 2s., the same as here, while Canadians will not take American silver coin save at a discount of 20 per cent., that is 25c. American pieces pass here for 30c. and 50c. pieces pass here for 40c. This excludes American silver, and while we lose our own we get nothing to replace it.

GUELPH'S HOLIDAY.—The 12th of August is Guelph's civic holiday, and the following is the 100th anniversary of the programme: At 1.30 a procession will be formed in front of the city hall, of the various lodges and encampments in Ontario, in regalia headed by the band. They will proceed to the exhibition grounds, the Right Worthy Grand Lodge being escorted by the uniformed Patriarchs of London and Gibraltar. On arriving at the grounds the following programme will be carried out: Baseball match between the Bradenburghs, of Hamilton, and the Invincibles, of Guelph, at 10 a.m. A 10-mile race, gas-on-gas-plate, prizes \$10, \$4, and \$2; and \$2; men's foot race, 150 yards, \$4 and \$1; boys' foot race, 100 yards, \$2 and \$1; wheelbarrow race, 125 yards, blindfolded, \$3 and \$2; a tug of war between Oldfellow's resident north and south of Guelph. In the evening the exhibition grounds will be illuminated with Chinese lanterns, and a promenade concert will be given by the Artillery Brigade and 13th Battalion bands, also a grand display of fireworks.

General News.

Dundas will want a steam fire engine.

Buyers of Ontario Bank bills are in circulation at Quebec.

Iron ore is arriving in Port Hope from the Soudan mines.

A branch of Montreal Bank is about to be established in Trenton.

A paper box manufactory is about to be started in London East.

Work has commenced on the new iron swing bridge in Trenton.

Kingston has a citizenry who insist on paying the municipal tax "like a man."

The new market building at Parkville is to be 35x52, and to cost about \$3,000.

There are ten School Boards at Prince Arthur's Landing, each claiming jurisdiction.

Owen Sound expects to vote \$15,000 for the improvement of the harbor; Montreal only \$4,000.

It is rumored that the Canada Southern is about to purchase the Credit Valley Railway and extend the line to St. Thomas.

A new grain warehouse is to be built in the western part of St. Thomas.

Dr. Nichol, formerly editor of the Kingston News, has been appointed Health Officer of Kingston, Jamaica, at an annual salary of \$500 sterling.

Four thousand five hundred dollars was voted in Exeter last week to bonus a woolen mill. The majority was 119. Only 19 voted against the by-law.

THE CRADLE.—PERMITS.—In Equinox, on Saturday 31st ult., the wife of William Perryman, of a son.

MOON.—At Crown's Corner, on the 28th ult., the wife of Joseph Moore, Esq., of a son.

THE GRAVE.—WATER.—In Equinox, on the 2nd inst., James, wife of Mr. John Walker, aged 50 years.

The funeral will leave the residence today (Thursday) at one o'clock, and proceed to the Acton Cemetery.

Hicks & Co., of London, England, report this week a very large supply of American cattle, and with this another reduction in prices. They also quote mutton at half a cent per lb. lower.

A nice bright raw sugar certainly contains more sweetening power than a refined or even brighter appearance. The best brand of raw sugar now offering is to be had at Christie, Henderson & Co., cheap.

The Greatest Remedy Ever Discovered.

Quinine is considered the greatest remedy known, not a devotee it has its equal in the peer, in the product of the C. of F. S. Nothing has been discovered to equal Cod Liver Oil as a purifier and a stimulant of the body in consumption and all wasting diseases; but it has been found by the latest scientific properties. In fact it is the most valuable remedy ever discovered.

—MARBLE WORKS.—Wellington Marble Works, Quebec St., Guelph. Messrs. McQuillan & Hamilton, proprietors, are direct importers of all kinds of Marble and Granite. Having a large stock on hand purchased previous to the late rise in price of marble, they will continue to sell all kinds of Monuments, Head Stones, Mantels in Slate or Marble, at their usual low prices. Satisfaction guaranteed.

A GOOD ACCOUNT.

"To sum it up, six long years of bed-ridden sickness and suffering, costing \$50 per year, were all over, and I was able to get up and walk without the loss of a day, and I want everybody to know it for the truth."

—J. W. WELLS, Butler, N.Y.

—Gents, we continue to do the ordered clothing trade of this section of the country. We have done this season the largest business ever done. The reason why.—The goods are right, the price is right, the cutting is right, the trimming is right, the making is right, we fit the body head and pocket. Special reductions to save moving the stock to the next premises, McLeod, Anderson & Co.

Equal to Telegraphy.

It is not so many years ago when Telegraphy was looked upon as a visionary and Professor Morse as a visionary. We all know now the wonder. More recently pharmacists scattered the idea that "cod liver oil" could be made pleasant to the taste, but it was not until the late autumn of 1890 that a cod liver oil was sold which was palatable and easy to take. It is the most valuable remedy ever discovered.

—CLEARING SALE.—The Mammoth House, Georgetown begs to announce a clearing sale which will continue to the middle of August. This is a bona fide clearing sale as they want to reduce their stock before moving into their new premises about the middle of August. Unheard of bargains will be given in all kinds of dry goods, including dress goods, cottons, prints, millinery, mantles, carpets, ready made clothing, gent's furnishings, etc. Now is your time to make money. McLeod, Anderson & Co.

BORDERED AND MOURNING PRINTS

In great variety. Ladies looking for fresh, bright goods must come to us. We are the only home in the trade at present showing new goods (any description). All other houses in the city are busy trying to work off the balance of the season's stock, commencing in itself, but bad for the customer.

We are determined, notwithstanding the very hot and oppressive weather, to present our business even during what is generally regarded as the hottest season of the year, with great cheerfulness, and respectfully ask all our customers that we shall use every effort to satisfy their customers to the reasonable West End.

"If fresh, bright goods will do it." "If lovely, handsome new goods will do it." "If the best goods for the money will do it." We are bound to win the Trade and keep it so. Ladies of the Royal City, "Ladies from the Country," Ladies from surrounding Towns and Villages.

COME DIRECT TO US,

We have the right goods, and are doing the live trade of the city.
