a child's talk. To this end all so-called learning will be more or less illustrated, and will strive to reach a high place in the confidence and he at sof the people. In few weeks, our first number will appear, and we shall fondly hope for it a hearty

welcome." . . The facts above narrated are indeed most important. It is gratifying to know that the life long experiences of a gentleman who stands without a peer in successfully demonstrating the principles of hygiene; whose heart has always been in sympathy with the afflicted, and whose brain has ever been active in planning for their relief, are to be given to the public through the passage of a magazine. And it is especially significant and proof positive of rare merit that a proprietary medicine, even with such high standing as Warner's Safe Cure is known to have, should be endorsed and recommended by a man so able, so reputable and of such national renown as Dr.

Acton Free Press.
