MANHOOD. How Lost, How Restored.

We have recently published a new edition of Dr. Carter's Manhood, containing the most complete and up-to-date information on the subject of the decline of manhood, and the means of restoring it to its former vigour.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that the true cause of the decline of manhood, is the impurity of the internal organs, and the consequent accumulation of morbid humours in the system.

For more detailed information, see the book, which may be obtained of Messrs. T. Milburn & Co., 21 Ann St., New York.
