Mary Trefoil looked up-a dark-eyed pallid-faced woman, of two or three and twenty. Doctor Fitch knew her very well. She had been in Exmouth prison three months for theft, and during these three months she had lain nearly at the point of death, in the hospital ward, with a low, lingering fever. Doctor Fitch was rather proud of the skill which had rescued her from the iaws of death. He stopped his horse and looked at her.

"Yes, sir," said Mary Trefoil, spiritless ly, " I've got my discharge." "And where are you going now ?"

"I have none, sir."

"But this won't do," said Doctor Fitch noting the troubled light in the girl's eye the deadly whiteness of her brow and cheeks. "Look here; you must go somewhere, you know. You can't sit here. Can't you think of any place where they would give you food and shelter for a few days until you get strong?"

Mary Trefoil shook her head. She did not seem to be at all interested in the question. Doctor Fitch's horse reached up his head and browsed on the still green leaves of a wild grape-vine, which the boughs of a cedar had sheltered from the early frost.
