Acton's Cemetery.

The question of providing a new ceme tery for Acton and vicinity—the necessity for which has been so frequently referred to in the Columns of the Faxe Parss-is again before the ratepayers of this municipality. The subject was taken up by the Council at the meeting on Tuesday evening and this body after some discussion decided to refer the matter to the electors for their opinions, at a public meeting to be held at an early day. This question is one which should interest every resident of Acton as well as many residuig in the vicinity, and the meeting should consequently be largely attended. The views held by those interested should be presented at the meeting so that the council may have ground for act ing intelligently in the matter and in accordance with the views of the majority. have in the past said so much upon this subject that there now appears to us to be little more for us to say. Different persons hold different opinions, however, and would be interesting to all concerned learn the views of others. With this object in view we take pleasure in inviting correspondence upon the subject through the medium of the FREE PARSS.

Of all kinds of "landlord" bills, those of the taverns are the worst and the heaviest. In Ireland the sum total of rents paid to landlords, about which there is such a national disturbance, amounts to \$56,000,-000, while the liquor bilis per year are \$60,-000,000, or \$4,000,000 in excess.

Speaking of the number of New Yorkers visiting Montreal last week, the The New Yerk Sun says: "It is surmised that the great erodus of fashionable men and women to Canada is only a new proof of the constantly-growing hold which Anglomania has taken on our wealthy classes."

As an offset to the usual cry that prohibition would injure business, the following fact may be sta ed, which is given on good authority : In Kansas the prohibitory law has been in force nearty three sears, and in that time the taxable wealthof the State has been increased thirty million dollars.

The bitterness of the party warfare that is now going on in Toronto is almost unparalleled even in Canada, where the interests of our country have so often been sacrificed to mere party ambition. One of the greatest-if not perhaps the greatest-of discoveries which mankind throughout the world have made during the last quarter of a century or so, is the great benefit flowing from temperance. The anti-Scott Act organs may not be pleased to learn that Rev. D. L. Brethour of this town, has received a unanimous call to remain on Milton circuit a third year Some time ago it was hinted-by several anti-Scoit Act papers -that the rev. gentleman devoted too much time to the discussion of the Scott Act, and enquired too minutely into the practical operation of the law in this county, to the neglect of his pulpit and pastoral duties. It is with no small degree of pleasure that we find the aubjoined resolution passed at regular February meeting of the Quarterly Board of Milton Methodist Church, which was carried unanimously. The following s the resolution :-

"Moved by A. Willmott, seconded by Johnson Harrison, that we, the members of the Quarterly Board of Milton circuit take this opportunity of expressing our hearty appreciation of the minis-terial labors of the Rev. New Magazine.

We have received the Cottage Hearth for Fobruary, which contains Its usual supply of interesting stories, poems, and household matter. Lucy Larcom's Poem, " I Climb to Rest," is one of the finest efforts of this sweet singer. "From Camp Berry to Gettysburg" is a beautifully illustrated aketch of the personal experience of Horace Lunt, of the 17th Maine Regiment, and is remarkable for its clear, vivid description of the scenes of 1861 to 1864. Joaquin Miller's " Home, Sweet Home," increases in interest. "A Quaker Wedding" gives an insight into the private life of these little-known people who commend themselves to us for their quiet, honest lives. Sealoving people will be interested in "The Constitution off Cape Horn," and all the members of the family cannot help finding agreeable and strengthening food at the well spread table served beside the genial are of the Cottage Hearth. We would especially commend to our young readers the Young Folk's Department where they wil find puzzles and games, with prizes offered for correct solution. "How to Paint on Silk and Satin " is a timely, well-written article, describing this pleasing way decorating our homes. The Kitchen Flowers, Music, Fancy Work and Fashions receive their usual careful attention, and taking the magazine as a whole, we do not see how a family can get along without its monthly visits, and we are therefore glad to call our readers attention to the fact that we offer the Cuttage Hearth and the FREE PRESS for the year 1884, to anyone who will send us \$2.00.
