Acton's Cemetery

The question of providing a new come tary for Acton and vicinity—the necessity for which has been so frequently referred to in the Columns of the Fars Parss-is again before the ratepayers of this municipelity. The subject was taken up by the Council at the meeting on Tuesday evening. and this body after some discussion decided to refer the matter to the electors for their opinions, at a public meeting to be held at an early day. This question is one which should interest every resident of Acton as well as many residing in the vicinity, and the meeting should consequently be largely attended. The views held by those interested should be presented at the meeting so that the council may have ground for acting intelligently in the matter and in accordance with the views of the majority. have in the past said so much upon this subject that there now appears to us to be little more for us to say. Different persons hold different opinions, however, and would be interesting to all concerned t learn the views of others. With this object in view we take pleasure in inviting correspondence upon the subject through the medium of the Farz Parss.

Whatever may be said in regard to the never-failing propensity of the management of great railway lines to provide fer the public only what is actually demanded in the way of accommodations and comfort, can in no way apply to the management of the Chicago, Rock Island & Pacific Railway, or as it is more familiarly known, The Great Rock Island Route." This line has for years been recognized as the best and most comfortable route between Chicago and Kansas City and the Southwest, and has been abundantly able on this account to successfully cope with its competitors. But not satisfied with this success and its already elegant equipment, its managers have caused to be turned out its shops at Chicago, a magnificent line of Dinin! Cars which go into immediate service on the Kansas City Line. These cars contain all the conveniences of well furnish. ed dining rooms, are elegant in design and finish, and models of the advanced railway art of the day. Within them meals are furnished equal to those of any first-class hotel in the land at the lew rate of seventyfive cents. Travelers on this line now find on its trains all the comforts and conveniences of first-class hotels. Besides the best of first and second-class coaches there are Parlor Chair Cars. (which are free to a passengers holding through first-class tickets), Pullman Palace Sleeping Cars and Dining Cars.

This Company's lines-all of which are equally well equipped-also extend to Council Bluffs and the West, and Minneapolis and St. Paul and the Northwest; and the deserved praises bestowed upon it by returned travelers who speak from experience, make it noted throughout the land.

New Magazine.

We have received the Cottage Hearth for February, which contains its usual supply of interesting stories, poems, and household matter. Lucy Larcom's Poem, " I Climb to Rest," is one of the finest efforts of this sweet singer. "From Camp Berry to Gettysburg" is a beautifully illustrated sketch of the personal experience of Horace Lunt, of the 17th Maine Regiment, and is remarkable for its clear, vivid description of the scenes of 1861 to 1864. Josquin Miller's " Home, Sweet Home," increases in interest. "A Quaker Wedding" gives an insight into the private life of these lit tle-known people who commend themselves to us for their quiet, honest fives. Sealoving people will be interested in "The Constitution off Cape Horn," and all the members of the family cannot help finding agreeable and strengthening food at the well spread table served beside the genial fire of the Cottage Hearth. We would especi ally commend to our young readers the Young Folk's Department where they wil find puzzles and games, with prizes offered correct solution. "How to Paint Silk and Satin " is a timely, well-written article, describing this pleasing way decorating our homes. The Kitchen. Flowers, Music, Fancy Work and Fashions receive their usual careful attention, and taking the magazine as a whole, we do not see how a family can get along without its monthly visits, and we are therefore glad to call our readers attention to the fact that we offer the Cottage Hearth and the FREE PRESS for the year 1884, to anyone who will send us \$2.00. Call at our office and see sample copy of the magazine.
