Reasoning on Debility.

Under this title a great deal has been written, and yet the substance of the entire subject "lies in a nutshell," or rather in four words-Impurity of the Blood. This is the source of debility or weakness, whatever may be the proximate or immediate cause of the misfortune, and they are numerous. When Holloway directed his attention to this important and not unfrequent state of ailment, he found numerous theories existing; but instead of being led away by vain disquisitions, he restricted himself to the consideration of what Nature requires for the maintenance of health and | size, \$1.00. strength in the human system. As he said. the stomach must reduce food into a wholesome pulp, which, in due course, is converted by admixture with the bile secreted by the liver into a milky substance, from which the nutritious portion is taken up by the absorbents of the bowels and conveyed through its appropriate vessel (the thoracic duct) to the heart, through which it passes to the lungs and becomes blood, circulating through every part of the system, whose wear and tear it requires, renews and invigorates-if it le purs. If this be not the case, then the body wastes-every part of it shrinks for want of nutriment-the vital stamina fail-and there is general debility or weakness. It was this accurate and simple view of the subject which led to the composition of those Pills which the world has gladly accepted from Holloway, and found to be such a perfect restorative of broken and dilapidated constitutions-from whatever cause proceeding-whether the result of unbridled licentiousness and vice or the consequence of exhausting and poisonous mineral medicines. Fortunate for humanity was the day when Thomas Holloway mangurated his new mode of treatment. How many loving parents have since then blessed him for the preparation of a medicine which arrested the grip of Death when it was fixing its inexorable talons in the hearts of their sons and daughters, which restored pristine health and strength to worn organs, and as it were, gave a new lesse of life to bodies apparently.

of America, says that while a passenger from New York on board a ship going around Cape Horn, in the carly days of emigration to Calfornis, he learned that one of the officers of the rossel had cured himself, during the toyage, of an obstinate disease by the use of

Ayer's Sarsaparilla.

Since then Mr. LELAND has recommended ATER'S SARSAPARILLA in many similar cases, and he has never yet heard of its failure to effect a radical cure.

Some years ago one of Mr. LELLEND'S farm laborers bruised his leg. Owing to the bad state of his blood, an ugiy scrofdlous swelling or lump appeared on the injured limb. Horrible itching of the skin, with burning and darting pains through the lump, made life almost intolerable. The leg became enotmously enlarged, and running ulcers formed, discharging great quantities of extremely offensive matter. No treatment was of any avail until the man, by Mr. LELAND's direction, was supplied with AYER'S SARRAPA-RILLA, which aliayed the pain and irritation, healed the scres, removed the swelling; and completely restored the limb to use. Mr. LELAND has personally used

Aver's Sarsaparilla

for Rheumatism, with entire success; and, after careful observation, declares that, in his belief. There is no medicine in the world equal to it for the cure of Liver Disorders, Gout, the effects of high living, Sale Rheum, Sores, Eruptions, and all the various forms of blood diseases.

We have Mr. LELAND's permission to invite all who may desire further evidence in regard to the extraordinary curative powers of ATTR'S SARRAPARILLA to see him personally either at his mammoth Ocean Hotel, Long Branch, or at the popular Leland Hotel, Broadway, 27th and 28th Streets, New York. Mr. LELIND's extensive knowledge of the good done by this unequalled eradicator of blood poisons enables him to give inquirers muck valuable information.
