

A BECLOUDED "SUN."

In its last issue the editor of the Milton Sun continues to ride his recently-mounted hobby with inordinate persistence...

The Sun is apparently trying to hide from public gaze, as far as possible, its own unwarrantable action in turning a summer-sault out of the Scott Act...

The approach of the summer season has again brought the discussion of the probable outbreak in Ontario of Asiatic cholera into a place of first prominence...

Measures tending to lessen the likelihood of its occurrence, or to prevent its spread should an outbreak occur, have been discussed and are being taken by almost every State Board in the Union...

It is now shown conclusively that the Milton Sun has in no way connected with or amenable to any political party...

It is now shown conclusively that the Milton Sun has in no way connected with or amenable to any political party...

It is now shown conclusively that the Milton Sun has in no way connected with or amenable to any political party...

It is now shown conclusively that the Milton Sun has in no way connected with or amenable to any political party...

It is now shown conclusively that the Milton Sun has in no way connected with or amenable to any political party...

and echo the thought what his paper publishes. He is no more than a looking glass...

PREPARE FOR CHOLERA.

The recent outbreak of cholera in Spain has again attracted attention to that terrible disease. The type of cholera prevalent in that country is said to be very virulent...

Warning and Comfort.

What say you to a Piece of Roast Beef and Mustard?

PARLIAMENT PROROGUED.

Summary of the Governor-General's Speech.

A SIX MONTHS SESSION.

OTTAWA, July 20.—Parliament was prorogued this afternoon. The speech from the throne refers in terms of praise to the services of the volunteers in the North-west, expresses sorrow for those who have forfeited their lives, acknowledges the action of the United States in protecting their own frontier, refers to the franchise act, ventures to hope that Manitoba will be satisfied with her settlement and that the Chinese restriction bill will ally the feeling of discontent in British Columbia, declares that the additional aid granted to the C. P. R. will ensure the completion of the road, that the success of Sir Leonard Tilley's recent loan shows the high standing of Canada's credit abroad, and that the re-adjustment of the tariff will tend to increase the revenue and enable the government to meet the various engagements of the country.

RIEL'S TRIAL.

A Long Adjournment to be Asked for.

Rockwood News.

From our own Correspondent.

The fall wheat is well filled and is a good sample, with very little rust.

Rev. F. Swan now occupies the Methodist pulpit. We wish him success.

Mr. John McQueen is recovering from his recent illness. One of his children was buried while he was unable to be out of bed.

Mr. Wm. Sharp is approaching convalescence from his recent sickness. Many others in this section suffered from inflammation.

Messrs. Harris & Co. are rebuilding their woolen factory. The roof of the new building is iron, and although expensive will be fireproof.

Good haying weather. Most farmers are now busy. Some have only commenced. At this date last year the haying season was over, and many had begun to cut wheat.

During the wool season the numerous teams waiting to be served at the Rockwood Wollen Mills presented the appearance of a large camp. Many comb fifteen and twenty miles to do business with the firm, which has always given universal satisfaction in fair and just dealing.

THE SCOTT ACT.

Ontario Says for the Act—Haldimand Against.

WARRER, July 16.—The majority for the Scott Act in Ontario as far as known is 1,978.

DUNVILLE, July 16.—The Scott Act was defeated in day in Haldimand by 308.

P. DYNES.

A MARVELOUS STORY TOLD IN TWO LETTERS.

FROM THE SON: "My father, New York, Oct. 2, 1882. 'Dad: My father resides at Glover, Vt. He has been a great sufferer from Sciatica, and the enclosed letter will tell you what a marvelous effect."

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I saw a physician who was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case. Yours truly, W. M. Zwickler."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of Ayer's Sarsaparilla."

Six months ago I was completely covered with a terrible humor and scrofulous sore. The humor caused an incessant and insupportable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the Sarsaparilla in April last, and have used it regularly since that time. My condition began to improve at once. The sore has all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 78 years of age. Many inquire what has wrought such a cure in my case, and tell me, 'I have heard that you used Ayer's Sarsaparilla.' Glover, Vt., Oct. 2, 1882. Yours gratefully, HIRSH PIMMER."
