We have heard Dr. Talmage on the platform, and we must say that in phraseology, gesture and style in general Mr. Rogers succeeded admirably in portraying the original lecturer's personal poculiarities. The lecture itself is certainly a grand defence of the to the most feeble mind the utter worthwhich he so carefully copies and parades. Mr. Rogers was well received and all present expressed themselves as more than pleased and edified. Any future appearance of Mr. Rogers will command a full hall. Rev. W. C. . It appears some time ago, prior to the building of the town hall in this village much was written and spoken tipon the many advantages that would accrue from having such a commodious building in our midst, and among the many uses it was most ostentationsly set forth that there would be a room set apart where young men might assemble to their mutual benefit, in stead of frequenting hotels or street corner The town hall being a public building, was naturally expected the room in question would be free for such purpose, but such to relieve it from the monotony which fre. not or has not been the case. Now, Mr. quently characterizes entertainments of this | Editor, I notice the young men have rented class. The daily, weekly, sporting and high cultured papers, such as the Week. Century, Palladium of Labor, Globe, Mail, News, Canadian Sportsman, Peck's Sun, and others, cigars and soft drinks, but no intoxicants, can be had at this club, and this constitutes what they call the "Club." But this is objectionable, if you please, to a certain few, and a certain party, interested in a public-house, I understand has interviewed some of the dignataries of the town i order to stamp out this nuisance, the club, because, for sooth, "it stops the grist coming to our mill," i.e., hotel.
