#### THE WEEK'S RAKINGS. Which are Principally Local and All

The Farmers' Institute

The first Farmers' Institute held in Haltour county will be held in the town, hall Georgetown, to-morrow and Saturday. An interesting programme will be carried out. We hope the farmers generally throughout the county will take on interest in the institute. It will be to their individual profit.

Local Board of Health. following persons we appointed as a local board of health for the present year :-The Reove, the Clerk and Messre. H. P. Moore, Joseph A. Speight and Robert Royce. Dr. Lowry was appointed medical health officer and Mr. Thos. Easton sunitary inspector.

Fourth Division Court Sittings. The several sittings of the Fourth Division Court for the present year will be held as follows :- Thursday, March 11th; May 13th; July 8th; Sept. 16th. and November 11th. It will be noticed that the day of the week for the court exhibition should they fail to secure the to Thursday. -

What He Should Do. If every farmer advertised overy strange animal that came into his premises, and every farmer read the notices of the same, there would not be a missing horse, cow, -Mr. Matthew Sweetnam, of Guelph sheep, or pig in the country. Don't give the animals a first-class boarding house fare for months, till the cost exceeds their worth, but advertise them immediately after they arrive. If animals are kept several weeks before any notice of them is given, the owner is not bound to pay the costs for all that

The Legal Powers of a Chairman. What legal powers has a chairman at a pub lic meeting, appointed by those present, in the matter of keeping order? In reply, we would say: That if a meeting be called by virtue of chap. 177, Revised Statutes of Ontario, that the chairman, under section 11, can command order and have party arrested for disturbing meeting; and under section 12, may appoint constables, Justices of the Peace and others to aid and assist him in so doing.

Drawings for the Colonial Exhibition The teachers of this Province have been invited to send specimens of drawing by their pupils to the County Inspectors, who will have them forwarded to the proper of ficers for transmission to the Colonial Exhibition at London, Eng. It is carnestly desired by the inspector of this county that all specimens be sent to him not later than Saturday of this week. Only a dozen teachers have as yet complied with the request, and as it is desirable that Halton be well represented, we hope all the others will at

once respond. The Skating Exhibition The exhibition of fancy and acrebatic skating in the rink last Friday evening by Prof's. Bruce and Saunders, of Galt, was only fairly attended. 'The exhibition of all conceivable movements by the professors on the ice was something wonderful, and called forth unamimous praise and bearty applace. The feats of Messrs. Bruce and Saunders were performed with such ease and perfection as to win the admiration of every spectator. Although the attendance ing a four-storey building, to be enclosed in | was not sufficiently large to make the proiron, to their already extensive works, dur- ceeds particularly attractive to the manfied with the performance that they have arranged for a second exhibition, due notice of which will be given.

> A Case of Small-pox. Georgetown has had a small-pox patient for the past mouth, but'we are pleased to state that the afflicted young lady has almost recovered. The Herald says :- She states that her family, who live in Toronto, were quarantined for some time for that disease, but the medical health officer finally pronounced it measles and gave them their liberty. A brother and sister have, we understand, since died in the hospitalwhere they were taken by the health officers after being allowed their freedom-and other members of the family are still

A Brand New Fighting Editor. The editor of the Tilsonburg Liberal had increase to his family last week in the shape of a brand new first and foremost son and heir. This is how the overjoyed parent regards the acquisition :-- "We have secured the services of a genuine fighting editor for the Liberal, and we take this opportunity of warning all political heelers and ward caucus organizers that we will not be at their mercy in future. The fighting editor is young and inexperienced, and will be ready to take lessons in his business at once. He came to town yesterday, in time to have his name recorded on the new franchise voters list and if Clerk Jackson forgets to record his name, we will charge him with being one of the noted partizan Revising Barrister's clerks. The young editor weighs over eight pounds, is all wool and a

Halton County Agricultural Society. From the Sun we glean the following respecting this society, the annual meeting of which was dield in Milton on Wednesday, 20th inst.:-Receipts of the year, \$2,122.80; expenditures, \$2,220.58; balance due treasurer, \$97.78. The following officers were

Thos. Chisholm, Esq., President Jas. A. Watson, Esq., 1st Vice-President. Wm. Patterson, Esq., 2nd " Directors Messrs. Robt. Stewart Abraham Stark, for Esquesing ; John Dickson and Thos. Chishom, Trafalgar ; Thos. Blanchard, Col. Campbell and Thos. Elliott -The dissolution sale still continues at Nelson; A. McGibbon and A. C. McMillan,

Anditors J. H. McCollom and E. Dixon. Mr. Awrey, M.P.P., was the society's choice to the Provincial Board.

About a year ago, Mr. A. E. Matthews. son of our estoemed postmaster, left for Buffalo to take a situation in the office the Buffalo & Ohio Tel. Co. He was sub sequently removed to Syracuse and given the management of the Company's business there, which office he filled to the entire satisfaction of the superior officers of the Company. We have just learned that Mr. Matthews has now entered into arrange ments to het as confidential secretary for Mr. McGonegal, President of the American At the last meeting of the council the Railway Construction Company, at a salary of \$1,000 and expenses, with prospects of a liberal advance if services are fully acceptable. Mr. McGonegal is one of the principal shareholders in the above telegraph company, and while in the office became acquainted with Mr. Matthows. After the first of April his headquarters will be in New York. A portion of the interval will be occupied in visiting the principal Southorn cities with the president.

Oumbing Up the Ladder.

An Exhibition for acton. The Georgetown Herald says :- "The people of Acton contemplate holding a union sittings has been changed from Wednesday | township fair next fall. We have no doubt that an attempt in this direction would prove successful, Acton being situated near the boundary of two of the leading agricultural counties in Outario. But as for Acton expecting the township show next fall, or at any time, is entirely unreasonable, as it should be held in the place where it would be most convenient to all-which is, of course, Goorgetown," Well, we are glad to hear the Herald admit that something could be made a success in Acton. This is the first admission by the Herald in this line for some time. Acton will continue to press its reasonable claims for the exhibition this year, and if they are not granted she will proceed in the organization of an agricultural society of even more than town ship extent. Then Georgetown will require to do more than ever before, if Esquesing show is to continue successful.

> A Good Templar's Lodge for Acton For some time there has been no temperance organization in Acton but the local Scott Act Association, and it has been considered advantageous to organize a lodge of Good Templars. Mr. R. C. Stewart, organizer for the Grand Lodge, visited town last week, and after a few hours' canvassing succeeded in securing some 56 names a applicants for a charter. A preliminary meeting was held in the Odd-Fellows' Hall -which for the present will be the place of meeting-last Monday evening, when arraugements were made for the organization of the new lodge on Monday evening, 8th February. A number of the members of Royal Oak Lodge, of Glenwilliams, will be present to assist in the ceremonics. We hope to see the full number of applicants present, and have no doubt the order will be instituted with a satisfactory list of carnand responsible charter members. Monday has been selected as the regular night of meeting.

Goldwin Smith on Prohibition. Goldwin Smithi's pamphlet on "Temperance rs. Prohibition," a copy of which we have received, sets forth the liberal tem perance advocates' objectious to prohibition presents a review of the working of prohibition measures in Canada and the United States, which is evidently compiled with the single view of pleasing the opponents of prohibition generally. Truthfulness, as to the existing state of affairs in our county has obviously been deemed an unnecessary consideration in the composition of the review. Views are advanced respecting the professor's opinions as to the true methods of dealing with intemperance. It is writ ten in Prof. Smith's usually terse and vivid style, and well merits the perusal of all anti-Scott Act advocates. An appendix by C. Gordon Richardson, deals with alcohol from a so-called scientific point of view. Strangely enough neither Mr. Richardson nor his publishers prefix his name with his usual campaign title, "Prof."

Courtesy of Knox Church Session. Owing to the sudden illness of Rev. R Phillips there was no preaching in tho Methodist Church last Sunday morning. A prayer and fellowship service was substituted. In the evening Rev. Mr. McLaren of Knox College, Toronto, who has preached in Knox Church here the past two Sabbaths, kindly officiated, upon the invitation of Rev. Mr. Phillips. He preached a very intere-ting sermon, having special reference to "The atonement." It was well received by the large congregation assembled. Our Methodist friends appreciate very highly the kind and brotherly courtesy of the members of the session of Knox Church in withdrawing their evening service and permit? ting Mr. McLaren to take the work of his afflicted brother in the cause of God. Such acts of friendly consideration among sister denominations tend very materially to the strengthening of that Christian unity which should invariably exist among the children they may be recognized.

of a common Father, by whatsoever name The Latest Swindle. A new swindle has been invented which s having a successful run in Western Ontario. The operator gets himself up in a clefical rig, white choker and sable suit and calls at a farm house in the afternoon to explain that he is agent of a religious society and is delivering bibles and hymn books gratis. He takes a handsome book out of his gripsack and presents it and is of course asked to tea, or to stay for the night Whatever hospitality is tendered he insists upon paying by laying down twenty-five cents if for a single meal, or seventy-five cents, it for supper, bed and breakfast, say ing in reply to his host's objection that his instructions from his employers make it imperative to pay as he goes, and make a return for all his expenses. Taking out a receipt book he proceeds to fill up a receipt for the money he has paid, and requests the farmer to sign the document as'a voucher, The receipt is signed and he departs, leaving the family loud in his praise, and nothing more is heard of him. Three months after the farmer gets a circular from som bank in the neighborhood, to the effect that "your note for \$121.75 is now due."

Big reductions of all kinds of mens' underolothing, gents' furnishings, men's ordered clothing, ready-made clothing and overcoats, carpets, flanuels, tweeds, blank ets, furs, hats and caps.
