

The Acton Free Press.

THURSDAY MORNING, JUNE 8, 1886.

A LIBERAL OFFER.

Five Thousand Dollars to any Charitable Institution,

IF IT CANNOT BE DONE AS IT IS STATED.

Rockester, N. Y., Union and Advertiser.

Friends of Ex-President Arthur are very much disquieted.

Of course he is not going to die! He is in the hands of a very particular physician.

His doctor does not call it Bright's Disease! No, it is stomach disorder that is suffering from now, and every few hours he takes a cold and from time to time many other symptoms are developed.

These symptoms the public should know are really secondary to Bright's Disease.

His physicians say that everything that medical skill can do for him is being done.

That is not so!

The case is a prominent one because the general is an ex-president; and yet there are thousands of farmers quietly dying in their farm houses, of secondary symptoms of Bright's Disease, called by every other conceivable name; thousands of workmen, likewise dying, leaving helpless families; hundreds of thousands in all walks of life who have sickened, and are likewise dying, helpless victims of powerless physicians.

Eight years ago a very well-known gentleman was about to enter upon large commercial transactions. His medical adviser quietly dropped into his office one day and told his confidential clerk that he would be dead in three months, and that he ought to settle up his business affairs at once!

That man is alive and well to-day, yet he was given up as incurable with the same disease that is killing General Arthur!

One reporter met this gentleman yesterday and in conversation about the General's case, he said:

"I will give \$5,000 to any charitable in-

stitution in the state of New York, to be

designated by the editor of the New York

"World," the editor of the Buffalo News and

"W. E. Kisselburgh of the Troy Times," if

"Warner's safe cure" (taken according to

"my directions") which cured me eight

"years ago, cannot cure General Chester

"A. Arthur of Bright's disease from which

"he is suffering."

"Now I want you to understand," he

said, "that we do not profess to make new

"kidneys, but we do know from personal

"experience and from the experience of

"many thousands of similar cases, that

"we can stop the consumption of the kid-

"neys. Many a man has gone through

"life with one kidney" without inconven-

"ence. Thousands of people have lived a

"majority of their life with one lung."

"They did not have a new lung made. We

"do not make new kidneys, but if the kid-

"ney is not consumed too much we can

"stop disease and prolong life if taken in

"time."

"This offer comes from H. H. Warner, proprietor of Warner's safe cure, of this city."

Mr. Warner also said, "My dear sir,

"there are governors, senators, presidential

"candidates, members of congress, promi-

"nent men and women all over the coun-

"try whom I personally know have been

"cured of disease, such as General Arthur

"suffers from, by our Warner's safe cure,

"but owing to the circles in which they

"move they do not care to give public tes-

"timony to the fact."

Mr. Warner is interested in General Ar-

"thur's case because he is personally ac-

"quainted with him and he says that it is a

"shame that any man should be allowed to

"die under the operation of old-fashioned

"powerful cathartics, which have no cura-

"tive effect, rather than that a modern,

"concocted specific for kidney disease whose

"worth is acknowledged world-wide, should

"save him."

"If you doubt the efficacy of Warner's

"safe cure," say the proprietors, "ask your

"friends and neighbors about it. This is

"asking but little. They can tell you all

"you want to know."

"We have kept a standing offer before

"the public for four years," says Mr. War-

"ner; "that we will give \$5,000 to any per-

"son who can successfully dispute the

"genuineness, so far as we know, of the tes-

"timony we publish, and none have done

"it."

Were General Arthur a poor man, unable

"to be left in the hands of his physician,"

he would use that great remedy, as many

"thousands of others have done, and get

"well. How absurd then for people to say

"that everything that can be done is being

"done for the ex-president, when the one

"successful remedy in the world that has

"cured, or that can cure a case like his, has

"not been used by them!"

An Editor's Son Saved.

A Fair Proposition.

There could be no offer more fair than

that of the proprietors of Hagyard's Yellow

cent expended for that remedy, if it fails

to give satisfaction on fair trial.

Declared incurable.

E. C. McGovern, of Syracuse, N. Y., who is a well known resident of that place, was declared incurable by his physician, but recovered from it, and every few hours he takes a cold and from time to time many other symptoms are developed. These symptoms the public should know are really secondary to Bright's Disease.
