NOTES AND COMMENTS.

The Legislature will in all probability prorogue within a few days.

The $10,000 usually granted to the Dominion Exhibition has been voted to the Industrial Exhibition, Toronto, this year, by the Government.

The Dominion Parliament opened with due ceremony last week, and is now in full running order. The session is the latest except one since confederation.

The Ontario Government has instructed Provincial detectives to assist the New York police as far as lies in their power, in hunting down "sawdust and greenggoods" swindlers operating in the Province.

From the annual report of the Provincial Secretary it is found that there are 820 less liquor licenses issued in the Province last year than the previous one. It is probable that the present year will also mark a very large decrease.

In the new House of Commons there are sixty-three lawyers, a large increase over previous sessions. Merchants come next, with thirty-six representatives, farmers following with thirty-three. Six journalists have secured seats.

A magnificent donation has been tendered the city of Montreal this week by Sir George Stephen and Sir Donald Smith. It is nothing less than the presentation of $500,000 each for the erection and maintainance of a general hospital for the city.

It is claimed that the cost of preparing voters' lists, printing them and the salaries of returning officers involved an expenditure of $425,000. The score of expense, in addition to the alleged injustice, will give ample room for attack of the new Franchise Act, by the Opposition in the present session of the House of Commons.

We hope the people in this section of the township will give their assistance in making the show to be held at Acton this fall, a success. Although the Township Fair has had but little encouragement from Acton citizens, except when held there, we hope the inhabitants of this and the lower section of the township will be inclined to return good for evil.—*Herald.*

It is wonderful to how low a figure freiglits have been brought, said a gentleman to the writer. Tea, during last season, was brought all the way from Yokohama to Montreal, including transhipment, at 75 cents per hundred, while hops have come from Nuremburg at 80 cents per hundred. In our day, distance is a comparatively small factor in foreign competition.

The *Georgetown Herald* says:—"It will no doubt quiet the disturbed mind of the FREE PRESS regarding the financial success of the Esquesing Fall Show of 1886, when we say that we have it from the gentleman who occupied the position of treasurer at that time, that in every department, financially and otherwise, it was a decided success." If this is the case the *Herald* will surely have no hesitation in publishing the annual financial report of the Company. It would interest many of the *Herald's* readers and friends.

The electors of Toronto have emphatically sat upon the views of those who believe that the Queen's Jubilee can be fittingly celebrated by a wasteful expenditure of public money. They were a practical people, and while at the same poll they granted $400,000 for the new court house; $350,000 for a new city hall, and $20,000 for the construction of a "jubilee" wing to the hospital for sick children; they unceremoniously kicked out, by 1,015 majority, the proposal to spend $10,000 in festivites. These decisions smack of a sound common sense.—Ottawa *Free Press.*

Strikes are almost invariably disastrous to the laborer, and it is to be deplored that a few dissatisfied men may throw the whole country into disorder. An evidence of this evil is seen in a dispatch which states that a great strike, involving some 18,000 men, is liable to result from the dissatisfaction of 400 moulders in one of the Stove Works at St. Louis, Mo. These men demanded an increase of pay, were refused and struck. The stove company applied to stove manufacturers in other cities for castings and as each factory in turn attempted to fill the order their molders struck work. It is believed the strike will spread to all stove manufacturing centers, as the manufacturers have a combination also, binding them to mutual assistance in such cases. It will probably be an obstinate fight and many men and families will suffer severely from loss of wages. It is altogether wrong that a few dissatisfied workmen should be able to work such widespread disaster.

Sir John A. Macdonald says:—there was a time when it was respectable to be a member of parliament. If Sir John expects the people to believe this he will need to explain that it was when the members before proceeding to ottawa got all their clothing cleaned and dyed like new at parkers dye works, toronto.

ANNUAL ARBOR DAY.

For a number of years it has been customary for this municipality to set apart a day about the first week in May to be devoted to the planting of shade and ornamental trees on the streets and lanes in town. This day has almost invariably been well observed by citizens and as a result many of our streets are lined with beautiful maples and other suitable trees. The success of former years should encourage the people to healthy action this spring and we would suggest that Arbor Day be proclaimed for about the same date as usual.

There are more than ordinary considerations this year to induce our citizens to take an interest in Arbor Day. Now that the whole of the Cemetery is open to the public, there should be a good deal done in the matter of the planting of trees and shrubs, and every one can assist in accomplishing the work desired. Then further, the Education Departmentprovides that the first Friday in May be set apart by the trustees of every rural school and incorporated village for the purpose of planting shade trees, making flower beds and otherwise improving and beautifying the school grounds. In its suggestions with reference to the matter the department says:—

"Now that Arbor Day in spring is one of the school institutions of the province, it is desirable that the school grounds, and the outside strip in front of the school house and on the street, or road side, should be judiciously planted. Care should be taken to select the most suitable trees and shrubs for that purpose, considering the nature of the soil and the size of the school lot, etc. Flowers, too, should be provided for the beds in front of the buildings, and, if practicable, at the sides of the walks leading to the school entrances."

The grounds at our public school contain a number of fine trees, but owing to its commodious size there is ample room for the planting of quite a number additional. The suggestion respecting flower beds also deserves consideration. It is desirable that the Council and Board of Education unite and arrange for a general Arbor day upon the date above named. Their action would no doubt be heartily concurred in by our citizens.

THE PUBLIC HEALTH

What Our Board of Health Consider necessary for Proper Sanitation.

The Board of Health met in the Council Chamber last Monday evening.

Present, H. P. Moore, Chairman, and Messrs. Fyfe, McGarvin, McLam, Kenney and Lowry.

Minutes of last meeting read and confirmed.

The chairman referred to the work necessary to secure satisfactory sanitary condition for the municipality.

The committee which had accompanied Dr. Bryce chairman Provincial Board of Health, during his recent visit of inspection, reported that he had expressed full satisfaction in the position, surrounding, nature of soil, and drainage of Fairview Cemetery, from a sanitary point of view, and, had stated that the idea that the interment of the dead would ever interfere with the wells or the health of the neighboring residents, was absurd.

Moved by J. Fyfe, seconded by W. R. Kenney, that the secretary be instructed to communicate with Dr. Bryce to ascertain the amount of his charges for inspection of Fairview Cemetery.—Carried.

Moved by J. Fyfe, seconded by W. R. Kenney, that the citizens be requested, through the columns of the FREE PRESS to have their premises put in a proper sanitary condition, on or before Monday 16th May, after which date the sanitary Inspector will proceed with his duties.—Carried.

Moved by J. Fyfe, seconded by James McLam, that the sanitary Inspector be instructed to make a thorough inspection of the slaughter houses and butcher shops every month, to see that they are kept thoroughly clean.—Carried.

Board then adjourned.

COMPLIMENTARY WORDS.

Kindly Tendered by Brethren of "Art Preservative."

Bro. Moore, of the ACTON FREE PRESS, has received a bronze medal and diploma from the Colonial and Indian Exhibition for his excellent exhibit of job printing. He is proud of the honor, and justly so.—Shelburne *Economist.*

Editor H. P. Moore, of the ACTON FREE PRESS, is in receipt of a bronze medal and diploma, awarded him for specimens of job printing exhibited at the Colonial and Indian Exhibition, held at London, Eng., last year. Well done! Bro. Moore has every reason to be proud.—Oakville *Star.*

We are pleased to learn that the ACTON FREE PRESS has received a bronze medal and diploma for specimens of job priuting exhibited at the Colonial and Indian Exhibition.—Erin *Advocate.*

The ACTON FREE PRESS has just received a bronze medal awarded for job printing at the Colonial Exhibition held at London, Eng., last year. The FREE PRESS has always aimed at perfection in this department and has now well nigh attained it.—*Georgetown Herald.*

THE LAST VERSE

Of the Last Chapter of the Ridiculous Farce in Connection with Acton's New Cemetery.

The record of the proceeding of the High Court of Justice, published in the Saturday morning papers, contained this item:—

BURNSY. ACTON.—McLean (Guelph) obtained, on consent, an order dismissing the action.

And thus endeth the reading of the greatest farce that could be perpetrated upon a long-suffering community.

CONTEMPT OF COURT.

Mr. W. Panton of the Champion Twice Jailed for Refusing to Give Evidence in a Scott Act Case.

MILTON, April 15th.—Mr. Wm. Panton, editor of the Milton *Champion*, was summoned as a witness on Friday in a Scott Act case in Milton. He addressed the court at some length, refusing to give evidence. He held that his being dragged into court was personal spite on the part of the Inspector. Witness would have no difficulty in going into the box and swearing that he had always observed the provisions of the law, but he would not do so until the Inspector's father and brother-preceded him there. The Magistrate warned Mr. Panton that if he persisted in his refusal to testify he would be committed to jail for contempt of court. The witness replied that he was aware of this, and had fully considered his course. His quarrel in this matter was with the inspector, not with the magistrate. He supposed that the latter had no option but to do his duty and he expected to be committed. The magistrate tried to reason with the witness, but he failed, and he was committed to jail for four days for contempt.

He was liberated on Saturday evening with the expectation that he would give evidence at the court on Tuesday.

MILTON, April 19.—At the Scott Act trial held here to-day on the charge against David Dewar, before Police Magistrate Young, Mr. Panton, was asked the following question:—"Did you drink any intoxicating liquor at Dewar's hotel in the month of January last that was paid for?" Panton answered: "I did not drink any intoxicating liquor in Dewar's hotel in January last, without first making sure that it was not paid for, and that there was no violation of the Canada Temperance Act of 1878 by receiving it." The magistrate did not consider this an answer to his question, and committed Panton to jail for six days for contempt.

HALTON POLICE MAGISTRATE.

A Flattering Testimonial From a Body Embracing Prominent Men of Georgetown.

The Georgetown division, Sons of Temperance, has passed the following resolution:—

Whereas, Mr. W. H. Young, of Oakville, has for some time occupied the position of police magistrate in the County of Halton; and whereas, the duties of that responsible position have been faithfully discharged under his administration; and whereas, we, as a society of temperance workers, are much gratified to see the genuine progress that is being made in the line of temperance in our county, and especially in this locality; therefore resolved, that we, the members of Georgetown Division, Sons of Temperance, place on record our feeling of satisfaction with the impartial, equitable and just manner in which the Canada Temperance Act is being enforced in our county under the supervision of our respected police magistrate, Mr. W. H. Young. Resolved, that copies of this resolution be sent to the Attorney-General, Mr. Young and the *Globe* and *Mail* newspapers.

The people of the county generally who have an interest in the sustaining of the laws of our country heartily coincide with the above resolution.
