FIFTY YEARS AGO.

Fifty years ago, nearly all the land west of Toronto and north of the Grand Trunk now it is a flourishing capital of 30,000 | - Hartford Times. people. London, the leading city of the West, has also made wonderful strides during the last fifty years. There were only ten or eleven distinct municipalities in Ontario: now there are 48. Fifty years ago the total number of acres occupied in the whole Province did not exceed 4,000,000, and of those but half a million were cultisted in any fashion. The number of acres now under tilling is reported at about 22,000,000. The number of horses then of every kind was 25,000, while last year there were about 660,000, after 12,000 valued at \$1,550,000 has been exported. The number of cattle has increased from 70,000 fifty years ago to 2,000,000 last year. The County of York possesses at the present a larger population than the whole Province of that day, and more head of live stock of all kinds. Of sheep there was then no record; there are now about 2, 000,000. And statistics of this kind might be multiplied to any extent.

This young man was decked out in the latest style, high collar, immaculate shirt front and all the paraphernalia of the elegant she dropped it in her pocket, and then
