HOME GLEANINGS

Which are Mostly of a Local Character and Interesting.

A Dislocated Shoulder. Last Thursday while engaged in house cleaning Mrs. Wm. Lynd, of Main street, in getting down from a table upon which she had been standing stepped upon the edge of a chair lost her balance and fell to the floor. Her whole weight coming upon the elbow resulted in the dislocation of her shoulder.

Methodist Sabbath School Anniversary. Sabbath School Anniversary services will be held in the Methodist Church on Sunday and Monday, 18th and 19th December. Mr. D. McLean, one of the most prominent Sabbath School workers in Toronto, will officiate at the Sunday services, and arrangements will be made for the usual Christmas entertainment on Monday evening. An effort is being made to have Mr. Wm. Goodham to address the children on the Monday evening.

Occidental Concert and Comedy Company. The Occidental Concert and Comedy Company, who are billed to appear in the town hall, Acton, on Saturday evening, are, we venture to maintain, the best company of highly cultured musicians and comedians on the road. Their comical sketches and operatic selections are always enthusiastically received. Their laughable musical comedy, O.P.R.A., or "A Man, Ager in Trouble" never fails to create a great deal of amusement.

On Saturday Mr. J. Creelman, of Creelman Bros., was getting his revolver in shape for shooting when it discharged and sent a bullet through the palm of his hand. He was in the act of taking a cartridge from the pocket and, not knowing the revolver was cocked, had the muzzle pointing toward his hand. The result was a very ugly wound. On Sunday W. Blaker, Jr., was picking at a cartridge with a pin; it exploded and wounded his hand.-Herald.

Milton Wants the Telephone. The county town is at last waking up to the subject of telephone convenience. A block of which was some time ago pointed out by the Free Press. The *Champion* says: "It is a matter of frequent remark by visitors to Milton that, though so progressive a town in other respects, she is still without telephone communication. This is something that would be a great convenience to the business men and townspeople generally, it is something that many towns and villages in Canada, smaller and less important than Milton, have had for years, and it is something that can very easily be obtained.

The Silverbrook Assault Case. This case, which was expected to come up for the fourth time before the magistrate here, last Friday, failed to connect. Owing to the absence of principals and counsel, it was indefinitely postponed. It cannot come up for further hearing unless a new information is laid, and this is unlikely. The object was apparently intended to perjure the Scott Act constables in the performance of their duty. This object has however, thus far, failed, and by the time the costs of the case, and the \$50 fees to Nicholas Murphy are paid, it is likely somebody will be thinking "We paid too dearly for our whetstone."

A Groundless Rumor. A report has been current here during the past week that Jack Gordon, better known in some circles hereabouts as "Speyside Terror," who has been working on the Guelph Junction Railway, in Nassagaweya, had been fatally stabbed by an Italian fellow workman. The story gained credence as it spread, and one farmer living near Campbellville went over on Friday to attend Gordon's funeral. No stabling after that place at all. One of the men struck an Italian on the head with a stone. The Italian thought Gordon was the man and made a race at him with a knife. The boss interfered, however, and there was nothing more about it.

Sitting for a Portrait. A New York photographer prints a circular containing the following advice: "When a lady sitting for her picture would compose her face to a serene character she should, just before entering the room, say "bosom" and keep the expression into which the month subsides. If, on the other hand, she wishes to assume a distinguished and somewhat noble bearing, she should say "truly," the result of which is infallible. If she wishes to make her mouth look small she must say "sip," but if the mouth is already too small and needs enlarging, she must say "Cabbage." If she wishes to look mournful she must say "Kerchunk" if resigned, she must forcibly ejaculate "B'ca!"

Dr. Sexton on Indigestion. Rev. Dr. Sexton preached twice in the Methodist Church, Georgetown, last Sunday, and lectured on Monday and Tuesday evenings. The subject on Monday evening was, "If a man die shall he live again?" and on Tuesday, "The difficulties of Infidelity." The sermons of the learned Dr. were much appreciated by the large audience which gathered here on each occasion. His addresses were clear and logical and while many points taken up were deep and heavy they were fully explained, and in such language as all could understand. The speaker proved that he is thoroughly conversant with all his arguments and sophistry of every phase of infidelity and also with the facts and arguments of the most modern science and philosophy, and consequently is always able to speak with authority on the great questions that touch every one's future. The answers to the diversified character of the questions found in the question drawer were really wonderful and showed that the Dr. possesses a rich fund of knowledge and information upon the subject and a peculiar aptness for presenting it.

For the past four years additions and improvements have been the constant order of the day with the enterprising firm of Beardmore & Co., at their tannery on Main and Queen streets. During that time between \$75,000 and \$100,000 has been expended for new buildings, new machinery and appliances. Over \$2,000,000 has been expended during the past summer in putting in vats, building a new steam house, and sweat pits. These are not yet completed, but plans are already out for further additions and enlargements which will necessitate large additional outlay. The contemplated improvements will include the erection of a four story building, 500 feet long on top of the main building, 50 feet high, about the same height as the present kiln on the west end of the works. Thirty new vats and twelve coolers will also be put in; excavations for which are already in progress. This, with the vats now being completed, will make an additional capacity of sixty-four vats and twelve coolers to the present capacity. The improvements will increase by over fifty per cent the original capacity, and the out-pat will then reach something like 1,200 sides per week. The increasing demand for the excellent sole leather manufactured by this firm renders the proposed additions imperative.

A Happy Family Reunion

Undoubtedly a happy lady in town on Monday was Mrs. Elizabeth Turnbull. The occasion was a family reunion, when her two sons William, of Chicago, and Richard, of Toronto, met at their old home to spend a few hours together; the next time for sixteen years. Mr. William came on Saturday evening and remained until Tuesday, but Richard, whose visits are more frequent, was only here for a part of Monday and Tuesday. Their many friends and former companions were pleased to meet them again.

Orange Blossoms in the Fall. Mr. E. A. Robertson, only son of Alex. Robertson, Esq., and bookkeeper at the Oakville Basket Factory, and Miss Anna H. Ziller, youngest daughter of George Ziller, Esq., were married yesterday at the residence of the bride's parents at 10:30 a.m. The Rev. Mr. Kettlow, pastor of the Methodist church, performed the interesting ceremony. The bride was attended by Miss Belle Smith, and the groom was accompanied by Mr. W. Ziller, of Toronto, and Mrs. Thomas, of Toronto, Mr. and Mrs. Robertson left on the 1:03 p.m. train for Detroit. Among the many presents bestowed upon the young couple was a handsome silver service, the gift of the brothers of the bride. Mr. and Mrs. Robertson enter upon their new estate with the good wishes of a large circle of friends. They are among the most popular young people of Oakville, and have ever been recognized as an acquisition to the Ziller gathering.-Oakville Star. The Free Press has much pleasure in extending congratulatory to the happy couple. May comfort, happiness and prosperity attend them through life.

A New Pastor in St. Albans. Rev. Mr. Westmacott, of Toronto, has been appointed and installed as the incumbent of St. Albans' Church, here. There seems to be some dissatisfaction among the membership, on account of the summary manner in which in the appointment was made, rather than owing to any objection to the Rev. gentleman placed in charge. The congregation had expressed a preference for another clergyman, but His Lordship, the Bishop of the Diocese, failed to consider favorably their choice, and immediately appointed Rev. Mr. Westmacott, who was invited by Rural Dean, Rev. W. J. McKenzie, of Milton. It is to be hoped the members of St. Albans' will lay aside their feelings of resentment and rally around their new pastor, who appears to be an earnest Minister of the Gospel, anxious to build up the Master's Kingdom. They have a neat and comfortable little church and a pleasantly situated parsonage, and by loyally uniting together to do their duty to their church, and to their superior officers, they will undoubtedly be blessed both spiritually and temporally.

A new swindle upon farmers has been perpetrated. They are invited to sign an agreement not to kill birds for a year, and the pledges, with a little manipulation, turn up in the form of proprietary notes.

The firm of G. C. Cummings, real estate and general agents, of Orillia, both of the members of which are old Acton boys, has been dissolved. Mr. Secord will continue the business, which is a prosperous one.

Misses Moore & McElroy are putting in an improved water pump with which to supply their boiler and steam heating apparatus. The pump will bring the water from a reservoir at the creek above River Street.

The Acton Free Press, one of our best publications, continues to increase in interest. The village of Acton has reason to be proud of its local paper, as no doubt it is.-Streetwise Review.

Another earth was presented with her first example of crime, for the seven on Friday evening last. Old Sol soon dispersed it next morning, however, and it hasn't since been assumed.

Bill head, letter heads, note heads, and envelopes printed in the best style of the art and at most reasonable rates at the Free Press office. Leave your orders now as collecting time is at hand.

At a meeting of the official board of the Dublin Street Methodist Church here last night, it was unanimously decided to extend a call to Rev. A. M. Phillips, B.D., of St. Mary's, to become their pastor during the next term.-Guelph Mercury.

A meeting was held in Georgetown the other evening to consider the matter of erecting a public drinking shed for the village. Nearly \$400 was subscribed for the purchase of a lot and the erection of the shed.

The exterior of the new Presbyterian church in Georgetown is being completed. It will be a very handsome and substantial edifice, and will make an excellent model for a new place of worship for Knox church congregation here.

Rev. Father Kiley superintended the services in St. Joseph's Church, last Sunday. He has succeeded Father DeMortier in this mission. Rev. Father DeMortier has been here for some time, but he is unable to take further charge of outside appointments.

The next best best country paper in our exchange list is the Acton Free Press. A town of only 1000 inhabitants supports one of the nearest newspapers in the Dominion.-Mitchell Advertiser. Thank you, bro. Colwell; but place our population at 1200 next time, please.

A few advertisements denouncing many attractive features will appear in next issue for the *Notable Dry Goods House of R. B. Jermyn*. A large stock of the best quality, cheaply priced and novelties in dress goods have just been opened. The millinery department is crowded with orders, but every customer is well served. Mantles and overcoats are shown in profusion.

One of the most enterprising concerns on our list is the Shelburne *Economist*. It is only four years old, but hasn't an all-starred with baby clothes, for it has twice enlarged and is now a handsome eight page six column paper. We cordially expect the next improvement will be to adopt the all-home system of printing, and banish the "patent" from so enterprising an office.

Orillia has electric light, Barrie's street lamps burn gas, which Colingwood which claims to be a progressive town has purchased fifteen coal oil lamps to show the broken planks in its sidewalks. Colingwood is a town, Allison a village, yet the former can only boast of three lamps more than the latter.-Beston World. And Acton pays its lamplighter for lighting twenty-five.

The attention of our newspaper friends is directed to the card by Messrs. W. Barber & Sons, of the Georgetown Paper Mills, in another column. For nearly ten years we have continuously used paper manufactured by this responsible and obliging firm with great satisfaction. The stock in this issue speaks its own excellence. The character of the firm is universally known and requires no word of commendation from us.
