The November report of the Ontario Bureau of Industries shows that the current year's yield of the principal cereals considerably less than the previous year.

A by-law to further reduce tavern licenses in Toronto by 50 and shop licenses by 30 passed its first and second readings in the City Council last Triday night and was ordered to be submitted to a vote of the people at the next municipal elections.

The condition of the health of the Crown Prince of Germany is very alarming, and Halton this and the following week. tion will have to be performed. The Eman incessant craving for his son's presence. | the liquor traffic.

The appointment of Mr. Justice Armour to the chief justiceship of the Queen Bench court of Ontario will give general satisfaction. Judge Armour has always shown himself to be a fearless and conscientious dispenser of justice, and he well deserved the promotion.

We are in receipt of the talented reports of the Provincial Inspector of Division Courts and Inspector of Legal Offices, There are getting to be so many of this class of officials that we expect before long to receive the report of the Inspector of

Government Inspectors .- News. A Preston man made the novel proposi tion to the Lutherau congregation of that place to complete the fine church in course of erection for which fauds have run short, if 150 of the members will form a total abstinence society, and give him their lager beer money each week for a year. He estimates the result in cash at \$5,000.

The Canadian railway companies have come to an arrangement which will be o much advantage to the public generally, and which will be of profit to themselves. By it return tickets will be good for one month instead of six days as heretofore. Passengers will also be allowed to stop over on single tickets, two days for every fifty miles travelled. These regulations came into force 1st November.

Good for Ontario. According to the annual report of the Bureau of Industries this province produces more wheat to the acre than New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois, Missouri, California or Kansas; it produces more oats than New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin Minnesota, Iowa, Missouri, Kansas or Nebrasks, and it produces more barley than New York, Wisconsin, Minnesota, Iowa, Nebraska or California.

The Canadian Pacific Railway Company has just agreed to the proposal from the North-West for the promotion of matrimony among the settlers. Under the new plan the single man in the West will purchase a matrimonial ticket for Ontario, paying the usual return fare. On presenting the the six years 1882-7 :certificate, at an Ontario station, he will be entitled to a free ticket to his North-West home for his bride. This is a humane arrangement, and is calculated to produce much happiness.

The military spirif is increasing in Causda. Eight years ago the prominent military forces of the Dominion comprised two schools of gunnery and about 300 Mounted Police. Now there are three schools of gunnery, three schools of infantry, one school of cavalry, one school of Mounted Infantry and 1,000 Mounted Police. All told there are about 1800 men now doing permanent military duty in the | 237 oats, and 1,925, 231 barley; while esti-Dominion. TEMPERANCE. MAYOR HOWLAND DECLINES When the business of the City Council, was finished last Friday night, Mayor

Howland, addressing the members said : GESTLEMEN-I wish to make the announcement that I shall not be a candidate for the office of Mayor next year. My father's delicate state of health has induced him to ask me for all the aksistance I can render him in the conduct of his usiness, and it is a duty I owe him to comply. I merely make this announcement to you, as I think it right it should be made known as early It is with very deep regret indeed, that I have

lecided upon this course, as I feel the deepest interest in all that concerns the city and her welfare. I had, however, no hesitation in taking this step, as I feel it to be my duty. The mayor was asked if there was no

possibility of having his decision reconsidered. He answered that there was none whatever. The mayor's decision is regret. ted universally.

When Mayor Howland accepted the competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cane. ROYAL BAKING POWDER Co. 106 Wall St., N. THE COUNTY ASSIZES. The assizes were held at the Court House siding. There were no civil cases. The only criminal case was the Queen vs. De-Gier. The prisoner was indicted for rape. The crime was alleged to have been committed on the road near Sodom, The prisoner, who is a contractor on the Guelph Junction railway, pleaded not guilty . The evidence showed that after the alleged crime was committed the girl accompanied the prisoner some eighteen miles to Quelph, and afterwards pretended to be his wife.
