

WANTED - A MUNICIPAL COUNCIL.
Such is the tenor of the announcement published by the municipal clerk last week in compliance with a warrant issued by Judge Fyfe, and to-day at noon a meeting of the ratepayers will be held to take the steps necessary to secure a Council for this municipality for the current year.

THE ACTON FREE PRESS.
THURSDAY, JANUARY 3, 1888.
NOTES AND COMMENTS.

The fiscal returns of the Dominion for the last six months are reported to show a substantial increase over the two previous half years.

An anti-Scott Act meeting was held at the north-east end of the county last week. The chairman stated that their cause was a lost one, and the few present did not know what to do, and concluded the case was a hopeless one.

Chicago, which introduced the nostrum of high license some years ago as a cure for drunkenness, has had more, and more flourishing saloons ever since, and more of the fruits of the drink traffic. The Chicago case, from the criminal record, appears to have been a calamity.

The returns of business failures in Canada and the United States during the past year show a slight decline. The average liability of those going into bankruptcy in 1887 was \$17,292, compared with \$11,600 in 1886; the average in Canada this year being slightly higher than in the United States.

It is worthy of remark that when a business house fails in any part of the Dominion in these days, the whole or the greater number of the creditors are Canadians. This was not the case some years ago. Then the chief creditors of bankrupt firms lived in Great Britain. This shows that in business as well as in other matters Canada has become less dependent on other countries.

It is understood that at the request of Sir Charles Tupper the proclamation appointing the Dominion Parliament for the September 1st business on the 31st of January will be cancelled, and the session postponed until the 27th of February. Sir Charles appears to be still hopeful that he may succeed in making some arrangement with the United States in regard to the fisheries question and hence he wants as much time as possible for negotiation.

The Woodstock municipal elections resulted in a great triumph for the temperance people. In his speech on nomination day, Mayor Francis proposed to improve the morals of the people by repealing the Scott Act and licensing the liquor trade, but the people thought a better way to treat that evil would be to remove Mayor Francis from public life. This they did, by the large majority of 116, and elected in his stead Mr. John White, who at the nomination declared his determination to be elected, to uphold his honest ability as represented by the people. Mr. C. Wilson, who was with the mayor, was the most pronounced in the last council in defence of the liquor traffic, but also he was defeated, and Mr. W. K. Arn, an old and well known man, put in his stand. On the whole the temperance cause is considered a great improvement on the old.

THE DOMINION MAJORITY.
Mr. Clarke, M.P., defeated all opponents in the majority contest in Toronto, by 502 votes. The result of the vote is as follows:—Clarke, 1251; Rogers, 1204; Howe, 1219. All the by-laws, including that for the election of a mayor and aldermen, were defeated. It may be said that this defeat signifies that the movement which carried Mr. Howland into office by enormous majorities two years in succession, has spent its force, but this is certainly not a correct conclusion, for the fact remains that at least twenty of the thirty aldermen are strong temperance men, and Mr. Clarke, the new mayor also professes to have temperance interests at heart.

HALLOW SCOTT ACT REPEAL PETITION.
We are told that the petition for a vote on the repeal of the Scott Act in Halton is a defective form that the Dominion Government cannot act upon it, and that the Dominion Government are trying to get the temperance organizations to consent to the amendment of the petition.

THE FIRST TRAIN CROSSING THE "BOO."
SUIT ST. MARK, Dec. 31.—The first train crossed the International Bridge at 2:30 this afternoon. Great interest was manifested in the event, which will open the route via the "Boo" to the great west.

THE CHEAPEST MORNING PAPER IN CANADA.
The Toronto World is now the leading paper of that city. It is a bright and new sheet, and should have widespread patronage. It gives all the news of the day in concise form, free from bias. Write to them for their special terms. Address: The World, Toronto.

THE ROMAN PANTHEON AT GRIMSBY PARK.
Work on an immense building at Grimsby Park will be begun immediately. It will seat from 8000 to 10,000 people, and will resemble the Roman Pantheon. The dome of the new structure will be on a grand scale, and its 119,000 feet of lumber will be without truss or brace of any kind. It will rival in appearance the dome of the Mormon Temple at Salt Lake City.

INVENTION.
The inventor of the "Litho" has revolutionized the printing process. Not only is the work of the litho a method of printing, but it can be performed by the workman without the aid of any machinery. The inventor says that the work is other than young or old, and is not a trade. Capital is not needed, and you are started free. Cut this out and return to us and we will send you free, something of great value and importance to you, that will return to us in full. It will bring you in more money than anything else in the world. Grand outfit free. Address: TACK & CO., Agents, Montreal.
