DIED.

McDONALD—In Speyside, on the 30th ult., Alex McDonald, late Capt. of the Salvation Army, aged 27 years, 3 months and 26 days.

The Acton Free Press.

THURSDAY, AUGUST 2, 1888.

July 30

NOTES AND COMMENTS.

C. P. R. Superintendent Whyte thinks there is likely to be a surplus of 20,000,000 bushels of wheat in Manitoba this year, which will mean several millions of cash in the pockets of the farmers there.

The prohibition idea is spreading through the Southern States. The conscience of a very large proportion of the people has been awakened to the enormity of the traffic, and they are preparing to make sacrifices in order to its overthrow.

Mr. J. W. Manning, superintendent of Inspectors of Ontario, makes a return of Scott Act work during the quarter ending April 30 of this year which shows that the Ontario Government inspectors laid 1,286 informations and secured 716 convictions. The fines imposed in these cases amounted to the sum of $42,210.

Fifteen hotel keepers in the county of Halton have received their licenses, and although the commissioners are to meet again shortly it is not likely any further applications will be granted this year. Now that the new order of things is in force it will be well for the hotel keepers to observe strictly the law under which they are acting.—Streetsville *Review*. As they do (?) in Streetsville, for instance.

It is satisfactory to note that the Fire Underwriters have notified the municipal authorities of Montreal, that, inasmuch as steps had been taken to comply with their demands in connection with the fire protection of the city, the rates of insurance would be reduced in accordance with the resolutions adopted by the Underwriters in May last. Similar action would be taken respecting insurances in Acton if an adequate system of waterworks were put in.

His friends should without delay look after the editor of the Parry Sound *Star*. The warm weather is evidently affecting him. Last issue of the *Star* says:—"Charlie Finlay, a newsboy and message boy for the telegraph constituency during one session of parliament is the choice of the Reform convention in Halton." The boy's name is Johnnie Waldie, dear *Star*, and the session he spent in Parliament was more dignified than you make. Mr. Waldie was there as a member of the House of Commons of Canada.

Again will the voters' List, compiled from the assessment roll of 1885, be brought out to do duty at another election. This ancient document will be used in the coming election. Messrs. Waldie and Henderson will have the satisfaction of having had ample opportunity of becoming acquainted with all the men who have the privilege of voting for them. How can the Dominion Government rest easy with the knowledge that the very franchise law which was alleged to be enacted with a special view to extending the franchise, is really disfranchising hundreds of citizens of this county alone?

That the Prohibitionists are going to play an important part in national politics this year there can be no question. Their candidates for President and Vice-President are very clever men. They are good fighters and not inclined to lose their temper. Their speeches at the ratification meeting did not "scatter." They ignored the Democratic party as being past hope so far as Temperance Reform was concerned, and merely appealed to the anti-saloon minority of that party to join the Prohibition movement. The Republican party they attacked tooth and nail. It was once a grand party, Gen. Fisk declared, but now, like his field of New Jersey sweet potatoes, the best part of it was underground.—*Chicago News*.

AWARDED A GOLD MEDAL.

OTTAWA, July 26.—Capt. J. W. Dunham, of the ship Baronics, of St. John, N. B., has been awarded a gold medal by the American Government for services rendered to the crew of the United States schooner Geo. E. Young on the 3rd of April, 1887. Sir Adolphe Caron has been asked by the Marine Department to make the presentation to the captain, who is now in Quebec.

GLADSTONE'S GOLDEN WEDDING.

LONDON, July 25.—Mr. and Mrs. Gladstone celebrated their golden wedding today. Testimonials in the shape of letters, telegrams and presents poured in upon them by hundreds. The couple were presented with portraits of themselves painted by Frank Holl and Herbert Herkomer, and also with three large cups and an address signed by 150 members of Parliament. Lord Cranville made the speech of presentation.

A LENGTHY WALK.

Two young men named Smith and Acton, from Philadelphia, have adopted a novel way of spending their holidays. They started on foot from Philadelphia about the 20th of June and with the exception of a few miles have footed it all the way to Waterloo, Ont., the average tramp per day being 25 miles. One of them has kept a detailed account of their trip and intend giving lectures on their return. They are very favorably impressed with Canada. After visiting Detroit and Cincinnati, they will return to Philadelphia in time for reopening of the college.

A BURGLAR WHO CAPTURED HIMSELF.

ATHENS, Ga., July 28.—One year ago the house of L. S. Sessions, a few miles from this city, was robbed of some money and silver plate. The thief was discovered and almost captured, when he mysteriously disappeared in the darkness, and the most diligent search failed to trace him. Yesterday Mr. Sessions ordered a tree to be cut, as it gave evidence of rapid decay, and its proximity to his dwelling made it dangerous. It was an immense oak and, for years a hollow had extended up through it. When the tree fell, the skeleton of a man was found wedged in it, and near him the silver and money that had been stolen from Sessions. The supposition is that the burglar in escaping climbed the tree and stepped in the hollow so as to elude discovery, but found it impossible to get out.

Besides, natural gas or an illicit still has been discovered in Collingwood Township. The resources of nature in that section are wonderful.—*Ex.*

AN OUTSIDE OPINION OF HALTON'S COURSE

There is no doubt that Halton's prominent position on the temperance question, which has been maintained for many years has rendered the county an object of general public interest. The following from the editorial columns of the Montreal *Witness* will be read by our readers with interest:—

Halton seems to be the model county to do and suffer for prohibition, for and in the presence of the whole nation. Everything done in Halton in connection with the Scott Act awakes as much interest as in a dozen other counties. Halton was the first in Ontario to pass the Act. It was the first to resist its repeal. In it the Act was, perhaps, best enforced. In it the advantages of the Act were as plainly proved as anywhere; yet it was the first to repeal it, and now, as might be expected, it is for the benefit of the whole country experiencing the natural results of repeal—more drunkenness and more crime. For the three years on which Halton has now entered white glove assizes will be the exception instead of the rule. We are mistaken if all the money the brewers can spend in it will save Halton to the liquor trade when the time comes round for the people to say whether the desire license law any longer. Halton is also the banner county in the inauguration of the Alliance's more aggressive policy, as recently resolved upon at the Montreal Convention, being the first county to have an election after the Convention, except Cumberland, in Nova Scotia, where the temperance campaign had been inaugurated on a Third party basis, but proved unsuccessful. Should a prohibition conflict be provoked in the county of Halton by the failure of either party to put forward a prohibition candidate all the energies of the temperance forces should concentrate for a little time on that county.

THE EXPENSE OF THE CAMPAIGN.

A presidential campaign in the United States is a very costly luxury. Money is spent freely by all parties in what are regarded as the legitimate expenses of the election, and no one knows how far the "barl is drawn upon for illegitimate expenses of the election." During a campaign every district of every State in the Union is flooded with political literature. Great exertions were made to educate the electors up to the voting point, speeches, statistics, newspapers and pamphlets are flying about everywhere as thick as leaves in Vallambrosa. All this printed matter costs money and a great deal of it. Mr. Tilden is said to have spent $250,000 in supplying the electors with political information of what he considered the right sort.

But the National and other committees are not satisfied with instructing the people by means of books and papers; they send among them living teachers to show them the way in which they should go politically, and to persuade them to vote for the right men. Many of these speakers are paid as much as one hundred dollars per night, and some of them considerably more. Clever, well informed and lively stump orators are in great request during a presidential campaign, and their enthusiastic outbursts are not always inspired by pure patriotism alone. Their burning advocacy of the right and their fierce denunciation of wrong have, sad to say, their current market price.

Public meetings, processions and other political demonstrations are very expensive. A great public meeting in New York, for rent of hall, advertising and one thing and another, costs between $3500 and $4000. A big parade, which means a torch light procession, with music, banners, uniforms, fireworks etc., costs in New York about $500 per electoral district or from $12,000 to 20,000 altogether.

The committees must be well posted regarding the progress of the campaign and the state of the public opinion in the different districts. In order to obtain reliable information they must have intelligent correspondents in all parts of the country, who must be paid for the work they do and the time they lose. In the collection and dissemination of information the telegraph must be freely used, and this, as every business man knows, runs away with a great deal of money.

Where does all the money come from? As the great party committees do not publish full and accurate statements of receipts and expenditure, duly certified, no one not in their confidence can tell with certainty. Some time ago the party in power levied assessments on officials which they, willing or unwilling, were required to pay. But a stop has been put to this very pernicious and demoralizing practice. The election fund is raised by voluntary contributions. Some enthusiastic politicians who are rich gave very freely. It is reported on good authority that Edward Cooper and Mayor Hewitt, for instance, gave $100,000 each towards the expenses of the Cleveland campaign, and that Edward Pierrepont's contribution to another election fund was $20,000. A great deal of money is always needed to elect a President, and, wherever it comes from, it is always forthcoming. It has been calculated that a presidential campaign costs the people of the United States about $20,000,000.

It is believed that a great deal of the money spent is not for legitimate purposes. Money is sent to places where it will do most good. Electors who have votes to sell find purchasers. There are indications that the campaign of principle, will to a very great extent be a campaign of money.

BASE BALL AT KNATCHBULL.

On Saturday 21 ult., on the farm of Mr. A. McTavish, a most interesting game of base ball was played between the Knatchbull club and that of Sayer's mill. The interest taken in the game by the public was marked by an exceedingly large turn out of visitors, both ladies and gentlemen. The game was well contested, both clubs showing that they were well qualified to handle bat and ball. At the close of the game the score stood:—Knatchbull, 11 runs, and the mill boys 6 runs.

Mr. Wm. Crawford performed the office of umpire in such a manner as to bring forth the hearty approval of both clubs.

As the company dispersed the greater number of the players accompanied by their friends retired to the residence of Mr. McTavish where the hostess showed her hospitality by a bountiful spread of viands of which all were invited to partake, and no doubt refished after their eight hour fast:—

Score by innings.

	1	2	3	4	5	6	7
KNATCHBULL	0	4	3	0	3	1	0
MILL	3	0	1	0	0	1	0

SPECTATOR.

This report was handed in last week as we were going to press, and consequently too late for the issue for which it was intended. If correspondents would hand in their copy early in the week when they can do so just as well as not, all concerned would be better served.—ED.

—The largest assortment of neckties ever shown is at Kelly Bros.

THE CONVENTION.

David Henderson Again Nominated the Third Time in Enthusiastic Gathering.

HE WILL VOTE FOR PROHIBITION.

A large and representative meeting of the Liberal-Conservative party of Halton was held in Milton last Saturday for the purpose of selecting a candidate to contest the County of Halton against the Reform nominee, John Waldie, at the approaching election for the House of Commons.

The meeting was held in Chisholm's hall, which was filled with delegates, every ward in the county being represented. The president of the association, Mr. Harry Watson, was in the chair. With him were Samuel Dice, secretary of the association; Isaac Cartmer, treasurer; Lieut.-Col. Kerns, M.P.P.; David Henderson, ex-M. P.; W. H. Storey, Acton, warden; Senator McKindsey, W. J. Watson, Milton *Sun*, and other prominent Conservatives of the county.

Amongst the delegates were D. Vickerman, John Irving, E. Chapman, W. H. Patterson and Benjamin King, from Nassagaweya; Thomas Watson, Daniel McLaren, J. P. Field, E. Corlett, E. Paige, J. Molyneaux, George Richardson, John E. Correy, W. J. McClenahan and Samuel Alton from Nelson; A. G. Heaven, Geo. Buck, A. McCartney, Richard Hemstreet, Herbert Albertson, George Ford, Wm. Mcdonald, Henry Carrique, Andrew Coffee, Capt. Bunbury and W. H. Sargent, from Trafalgar; John A. Spreat, D. Laidlaw, Dr. Fox, Thomas Chisholm, Robt. Noble, Robert Watson, W. Buchanan, Major Applebe, A. W. Nixon, Thos. Cameron, Geo. Campbell, Isaac Newton, W. H. Reid and James Cook, from Esquesing; John Hunter, Geo. Hemstreet, Wm. Little, James Hollinrake, Wm. Book and Alex. Spiers, from Milton; W. F. McCallum, from Georgetown; W. H. Storey, Dr. McGarvin, Adam Cook and Thos. Perryman, from Acton; Jas. Biggar, W. H. Boon, George Andrew and G. L. Tizard, from Oakville; Lt.-Col. Kerns, M.P.P., C. Atkinson, from Burlington. S. Hannant, jr., J. W. Elliott, W. H. Dandie, H. Fox, Alfred Hemstreet, Jos. Anderson, Robt. Gallie and Charles Doty represented the various young men's associations of the county. Members of others were also present.

The chairman took his place at 2 p.m., and after a few preliminary remarks, called on the late member, Mr. David Henderson, for a speech.

Mr. Henderson, on coming forward, said he had supported the Government on their general policy during the last session, and referred to various measures that came before the house. In reference to the trade question introduced by Sir Richard Cartwright under the name of Unrestricted Reciprocity, he firmly believed the position taken by the Government was the only true one in the interests of Canada, and that when the details of the proposition of Sir Richard Cartwright were fully discussed and understood by the people, it would be rejected as entirely opposed to the best interests of all classes of the Canadian people.

In reference to the action taken by the County Temperance Association on the question of Prohibition, at the recent Convention, he did not think it would be manly to determine his action by what his opponent would do, and therefore would not propose to sign or refrain from signing the declaration to be placed before the candidates at this election simply because his opponent had or had not done so. Neither did he wish to see a triangular contest, which he thought would be very unsatisfactory to all parties. He did not think the people of Halton had rejected the Scott Act in March last on account of any decline in temperance sentiment, but rather because it had failed to accomplish all that had been expected from it. Viewing as he did the feelings of the County of Halton on the question of Prohibitory Legislation he would have supported the Prohibition resolution of Mr. Jamieson if it had reached a division. He therefore considered it the more manly course to sign the temperance Associations declaration, when presented to him, independent of what his opponent did.

A resolution was then submitted by G. L Tizard, seconded by W. H. Storey, and carried, setting forth that the convention having heard Mr. Henderson state his views fully and freely on the various questions before the people, approve of him as their standard bearer, after which Mr. Henderson accepted the nomination.

Unanimity and good feeling prevailed, and the Liberal-Conservative party feel that they have made an excellent selection in their candidate and feel confident of returning him by a large majority.

With cheers for the Queen, Sir John and Mr. Henderson, the convention closed.

SENSIBLE WORDS BY A PROMINENT JOURNALIST.

Mr. Charles A. Dana, the veteran editor of the *New York Sun*, delivered an address before the Wisconsin Editorial Association on Tuesday, in which, after stating that there was no system of maxims or professional rules laid down for the guidance of the journalist, he submitted the following principles for the benefit of the young newspaper men present:—

"First—Get the news, and get all the news, and nothing but the news. Second—Copy nothing from another publication without perfect credit. Third—Never print an interview without the knowledge and consent of the person interviewed. Fourth—Never print a paid advertisement as news matter. Let every advertisement appear as an advertisement. No sailing under false colors. Fifth—Never attack the weak or the defenceless, either by argument, by invective, or by ridicule, unless there is some absolute public necessity for so doing. Sixth—Fight for opinions, but don't believe they contain the whole truth. Seventh support your party, if you have one, but don't think all good men are in it, and all good men outside of it. Eighth—Above all, know and believe that humanity is advancing and that there is progress in human life and human affairs, and that, as sure as God lives, the future will be greater and better than the present or the past."

As Mr. Dana said, that is a pretty general code, but it seems to cover the case very well.

MR. WALDIE ACCEPTS.

Mayor Robertson, of Milton, D. Wheelihan, Nassagaweya, and Henry Robinson, Trafalgar, the deputation appointed to wait on Mr. John Waldie, who was unanimously selected as the Liberal candidate for the next election in Halton waited on that gentleman in Toronto on Saturday. He accepted the nomination and expressed himself as hopeful of success in the coming contest. Speaking of the Halton Temperance Alliance resolution, he said his friends all knew his temperance standing and his record in Parliament in voting for Temperance legislation. Mr. Waldie will take the field this week.

President Cleveland is 51 years old. Ben Harrison 55, Levi P. Morton 64, and Allen G. Thurman nearly 75.

A PRACTICAL MOVE BY FARMERS.

An Organized Effort to Establish Monthly Fairs and Public Weighing of Grain, Etc.

SIMCOE, July 28.—A public meeting in compliance with a requisition to J. R. Sing Esq., President of the Farmers' Council for Osprey and Nottawasaga Union school section of Sinclampton, was held here on Wednesday evening, when a Farmers' and Peoples Institute was successfully instituted, with William Pearson, President; David Grant, Sen., and George Thompson, Vice-Presidents; John Stinson, Treasurer; and David Grant, jr., Secretary. Among other business transacted the following is a synopsis: That monthly public fairs shall be held in Singhampton under the auspices of said Farmers' and People's Institute, and that the first of said public fairs shall begin on Monday, Sept. 10th, and continue thereafter on the second Monday of each and every month, for the sale and purchase or exchange of cattle, horses, and sheep, with other live stock, and articles of Agricultural production and requirements. Petitions were signed to Nottawasaga and County Simcoe Councils, to the effects as follows:—

Whereas Wm. Lynn, Esq., Deputy Reeve of Scuindale Township, having presented a petition to the County Simcoe Council, calling for a method of public weighing grain markets at produce buying stations, with monthly cattle, horse, and sheep selling fairs, therefore your petitioners respectfully request that the respective Councils will unitedly work so as to have a uniform method for said public markets and fairs established throughout the County of Simcoe, and in market places where necessary, in the several counties and provinces of the Dominion of Canada. A prominent feature in the platform of the Farmers' and People's Institute is, that by requisition to residents, future meetings will be held as may be deemed desirable for public discussion.

It is said that Queen Victoria will spend three weeks in the autumn with her daughter, the Dowager Empress Victoria at Baden.

$1,000 reward is offered for the capture of C. C. Nelson, an absconding banker from Atlanta, Ga., he is wanted for embezzlement, swindling, perjury and larceny. He is supposed to be summering in this district or Muskoka.

Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

The Favorite

Medicine for Throat and Lung Difficulties has long been, and still is, Ayer's Cherry Pectoral. It cures Croup, Whooping Cough, Bronchitis, and Asthma; soothes irritation of the Larynx and Fauces; strengthens the Vocal Organs; allays soreness of the Lungs; prevents Consumption, and, even in advanced stages of that disease, relieves Coughing and insures Sleep. There is no other preparation for diseases of the throat and lungs to be entrusted with this remedy.

"My wife had a distressing cough, with pains in the side and breast. We tried various medicines, but none did her any good until I got a bottle of Ayer's Cherry Pectoral, which has cured her. A neighbor, Mrs. Glenn, had the fever, and the cough was relieved by a dose of Ayer's Cherry Pectoral. I have no hesitation in recommending this

Cough Medicine

to every one afflicted."—Robert Horton, Foreman *Headlight*, Morrilton, Ark.

"I have been afflicted with asthma for forty years. Last spring I was taken with a violent cough, which threatened to terminate my days. Every one pronounced me in consumption. I determined to try Ayer's Cherry Pectoral. Its effects were magical. I was immediately relieved and continued to improve until entirely recovered."—Joel Bullard, Guilford, Conn.

"Six months ago I had a severe hemorrhage of the lungs, brought on by an incessant cough which deprived me of sleep and rest. I tried various remedies, but obtained no relief until I began to take Ayer's Cherry Pectoral. A few bottles of this medicine cured me."—Mrs. E. Coburn, 19 Second st., Lowell, Mass.

"For children afflicted with colds, coughs, sore throat, or croup, I do not know of any remedy which will give more speedy relief than Ayer's Cherry Pectoral. I have found it, also, invaluable in cases of Whooping Cough."—Ann Lovejoy, 1257 Washington street, Boston, Mass.
