VENTION

the world
over. Not least
among them
is the fact
that it can be performed
in a liberal, say one
encouraging
and comfortable
atmosphere.

— Mr. Sheriff Clements has laid
the foundation for a large new brick dwelling
house on Brown St., Milton.

— Threshing is pretty general now among
the farmers. The sample of the grain
threshed is an average.

— Rev. J. W. Kelley, of Fredericton Falls,
will preach in the Baptist church, Acton, on Sunday next at 3 p.m.

— Messrs. Beardmore & Co., have added
a few new thirty horse power engine to
their plant. Their increased capacity rendered this necessary.

— Improvements are the order of the day,
both in Larivière Place and Smith's New Survey. New houses and neat fences
are to be seen.

— A curiosity in the shape of potatoes
growing from the stalk above ground, instead
of the roots has been sent to the Free
Press office by Mr. George Leslie, Erin.

— A base ball match between the Merchants and Canada Grove Works was played
last Friday afternoon and resulted in a
victory for the glove makers in a score
of 11-1.

— The secretary of the Provincial Board
of Health, Dr. P. H. Bryce, states that the
Providence of Ontario is at present free from
contagious diseases than it has been for
years past.

— Yesterday was the 8th day of the 8th
month of '85. It will be one hundred years
before persons will again entitled to give
receipt in the brief business formula :
— "8-8-85."

— A local citizen has calculated that
there are \$30 a day spent for whisky in
Georgetown.—"Herald," \$10,000 a year for
"hedge" is pretty lively drinking even for
that enterprising town.

— Our Little Once" for August is to hand
and is good, as usual, with gladness by
the juveniles. It is up to high water mark
in point of excellence. \$1.50 a year. Retail
Pub. Co., Boston, Mass.

— Harvest operations are now beginning,
the result of the hard and toilinder is
heard throughout the rural districts and
dealers in bidding twice are hustling off
their stocks as fast as they can.

— The Free Press acknowledges with
gratitude the valuable and neatly bound copy
of the Statistical Record of Canada for
1887, from the Dominion Government,
through the Minister of Agriculture.

— The Beardmore & Co. base ball team
went up to Kennedy's crossing Saturday
afternoon to teach the Grevson's Corner
boys how to play ball. Sure, Grevson's
Corner, St. Tannen, 14, "Nuff said."

— What do you publish a paper for, I'd
like to know?" I earnestly inquired of
an old political, taking a country editor
"For a few years, in advance," responded
the editor, "and you owe me for ten years."

— The finest sample of comb honey we
have seen this season has just been re-
ceived from Mr. Alfred Boomer, a subscriber
to the "Herald." It is of excellent quality,
and notwithstanding the poor season, the
honey was packed and so have escaped.

— "Break the Ice That冻s!"

Arrangements are being effected for a
united Sunday School picnic in which all
the children, teachers and friends of the
Presbyterian and Methodist Sabbath
Schools may unitedly participate. Committees
from both churches will join in arranging
all details; the hand will likely be
engaged; a procession will be formed to
march to the grove and every effort will be
put forth to ensure the children a right
affection of innocent enjoyment.

The picnic will likely take place some time
prior to the opening of the public schools.

The Free Press Department.

The constant desire of the Free Press is to
keep abreast of the times and to render
the public a valuable service.

— The first political meeting of the cam-
paign will be held at Brookville on Monday
evening. Others followed at Campbellville
on Tuesday. A meeting is announced for Norval
on Saturday. They are in Mr. Henderson's
interest. We understand that Mr. Wallace
will not commence his meetings until next
week.

— A couple of local sportmen while on
the pond one evening a week or so ago
handled their firearms rather carelessly
for their neighbors' safety. A bullet from
one of their guns struck the bank between
a couple of young fellows on shore. No
one desires to curtail the sport of the young
people, but those engaging in shooting
should be careful that they do not endanger
the lives of citizens.

— The oat crop this season is above
the average hereabouts and the farmers take
pleasure in letting their neighbors know of
the superior crop with which they have
been favored. Mr. A. L. Heppire, of
Lakeview Farm, brought to this office on
Tuesday morning a stalk of Ayrshire White
Oats which measured 60 inches
from root to stem. The weight of the single
seed is 60 grains, as may be verified
counting them at this office.
