A dog and a calf came running down the lane and started the colts so suddenly as to force Mr. Kinnard violently against a projecting fence rail then to the ground and while down was trampled upon. The muscles of both thighs were badly bruised. Upon examination it was found that no ribs were broken, though severe pain resulted from his collision with the fence. His injury was such that he was unable to ride for some time, however, he signified his mother who happened to come out to the orchard, when with assistance he reached the house. About a week ago a neighbor, Mr. Benjamin Anderson met with an accident under somewhat similar circumstances but was less fortunate, having sustained a broken rib from his colt stamping upon his chest. Dr. Lowry attended both the injured men and they are doing well.

The Merry Wedding Bells.

The Dundas Banner gives the following report of the marriage of Miss Minnie Foster, eldest daughter of Dr. Foster, of Dundas, who was for some time a resident of Acton:—"About 75 guests from Toronto, London, Paris, Halton and the village assembled at the residence of Dr. Foster last Wednesday afternoon, the occasion being the marriage of the doctor's eldest daughter, Minnie, to Geo. Stewart, Esq., of the Paris Transcript. Rev. C. A. Moore, of the Paris Transcript, officiated.

A fire which had been smoldering for some time on the farm of Mr. George Ingles, Nassauwya, broke out last Thursday and ran along the fence into the house. Considerable lumber, rails and winter wood were destroyed, a dozen or so of the neighbors turned out and succeeded in subduing the flames.

On Saturday night the Salvation Army obstructed the sidewalk, Newmarket, and refusing to move, the wild army officers and privates were arrested and placed in the lock-up. They were bailed out in about half an hour, when they again began their religious exercises on the streets.

A Toronto policeman arrested and took before the Police Magistrate a 5-year-old boy on a charge of stone throwing. That's right. Keep up the reputation of the city for being "good." If you have to arrest a whole kindergarten. If five-year-old boys are allowed to throw stones they may go from bad to worse till finally they end up in jail.

In connection with the great political contest now in progress among our American cousins over the line a new game of a very amusing character has been invented by one of the country's enterprising citizens, Mr. Lamp Smith, editor and publisher of the "Herald," Philadelphia. The game has been christened "Political Enclosure," and brings in the political characters engaged in the Presidential campaign with their portraits and historical notes. The game will be interesting and instructive to Canadians. Address 700 Chestnut St., Philadelphia.

A VISITOR'S FIRST IMPRESSIONS.  
The Editor of the Newmarket Era tells H.H. Headley something about Acton.

The last issue of the Newmarket Era has the following from the pen of its editor. The kind words will be appreciated by our readers:

The editor of this journal had the pleasure of a visit with friend Moore of the Acton Free Press and his estimable lady over Sunday, which was heartily enjoyed.

Acton has a population of 1,400, is distant from Toronto on the west exactly the same as Newmarket on the north, and its inhabitants take pride in artistic residence with beautiful surroundings. Two fine brick churches and a splendid brick Town Hall are also evidences of the wealth and spirit of the place. Of mercantile establishments it has nothing to boast of but when it comes to manufacturers Acton is well represented. The large four story brick Glove Factory of Messrs. W. H. Storey & Son stands at the head of the street, in the point of employment, from 150 to 200 hands being engaged on no less than 350 lines of gloves and mitts from the coarse buckskin to the finest lady's kid, as well as 200 lines of moccasins. There is a Messrs. J. E. McFarlin & Co.'s Trunk Factory, employing 35 hands; Messrs. Beardmore & Co.'s Tailor, in which about the same number of men work and somewhere like \$20,000 to \$30,000 worth of hemlock bark alone is used every year in the manufacture of leather; there are also three other tanneries in Acton, which give it the nickname of "the leather-head town." A nice little sheet of water known as "Fairy Lake" extends along a portion of the Fair Ground, and a beautiful piece of ground has recently been laid out for a Cemetery. Acton has a good Brass Band which has been in constant organization for nearly 20 years and the only recognition the efficient leader, Mr. J. C. Hill, has received for his untiring zeal, nearly the whole of this period was the presentation of a beautiful silver cornet. The question of Fire Protection and domestic water is not being agitated by the Free Press and should a delegation visit Newmarket we can assure them that the officials of our Fire Brigade would be only too happy to show the power and efficiency of our water works system.

INFORMATION FOR THE VILLAGE OF ACTON.

We have just received the following letter from our resident buyer in Glasgow.

J. D. WILLIAMSON & CO.

Glasgow, Aug. 17th, 1888.

MESSRS. J. D. WILLIAMSON & CO.,

Guelph, Ont.

DEAR SIRS:—I have just returned from a trip to the Continent in your interest and have succeeded in completing your order for French Dress Goods, Silks, Satins and Trimmings. I secured some of the most exquisite Suit Patterns in French Dress Goods ranging from 40 to 75 Francs which are marvels of beauty.

I also bought some novelties in the way of Buttons and Trimmings such as other houses in your city will not have as they are not in the English Market.

I visited a number of German Manufacturers and purchased a full range of Mantles and Fur Goods. On my return I visited London and completed town order.

In Leeds I purchased a large line of Tweeds and Cloths

and also a job lot of Dress Goods which I cleared at 15% in the £. If there are more than you can handle you can no doubt sell a portion of them to other Merchants in Guelph.

On Monday I shall run over to Belfast for a week and complete your Linen order as there are many lines I can get better there than in Manchester.

I was glad to hear of your good season's trade and hope it will continue, you cannot fail to do a good business this fall with the splendid values you will have.

Yours very faithfully,

D. WILLIAMSON.
