**LOT FOR SALE.**  
A lot of land in Acton, suitable for building, for sale at a low price.

**HOME GLEANINGS**  
Which are mostly of a local character and all interesting.

**Laurel Wagon by Guelph Artillery Men.**  
The records of the general efficiency of the field batteries of the Dominion by which it is seen that A Battery, First Provisional Brigade, Guelph, takes the highest place and wins the Governor-General's cup and also a cup given by the Province, together with other prizes. The result is exceedingly creditable.

**The Chicago Livery Competitor.**  
Miss Anna Lynde, of York road, West Flamboro, has taken the following prizes this year in five acts and ladies' work: Southern Counties fair, St. Thomas, 22; Druggists fair, 25; Jarvis fair, 21; Milton fair, 20; Simcoe fair, 23; Barford fair, 26; special prize for collection of pictures and special prize for figure subject, also special prize for painting on China. Total 160.

**A Few Farmers Sleep.**  
Mr. J. H. Matthews, of Erin, is about to open a new saddlery and harness shop in the store next to Mr. James Matthews' residence opposite McGavin's drug store. Mr. Matthews has been in business in Erin for some time and has earned for himself a reputation for first class work and straightforward dealing. He will be ready to receive callers about the middle of next week.

**Beats the Record.**  
The clothes line of Mrs. Gilliland was stripped of its contents on Tuesday last, and it didn't take long to do it either. When Mrs. Gilliland arose at 5 a.m., and looked out of the window she found the clothes line empty. Ten minutes later, when she went to gather them in they had vanished. —Galt Reporter. That lively individual ought to have a good paying position in a city laundry.

**Milton's Municipal Troubles.**  
The sum of \$750 has been awarded to Mr. P. Walker by the arbitrators in the water-works case, the costs to be paid by the town. The town has now been beaten in its ten water-works arbitrations, with heavy costs against it. The awards and costs will likely be over much less than two thousand dollars. More than this, there will likely be two or three more cases to settle yet. —Reporter.

**A Good Example for Acton.**  
The Markham Village by-law to raise \$7,500 for water-works, was signed and passed on Friday by a majority of 10. Markham is about the same size as Acton; its total population is about the same, while our natural advantages for water-works are superior. Markham has over \$10,000 of a debenture debt, while Acton has only about \$5,000. One citizen should beat themselves to secure a water-works system for the protection.

More than this, there will likely be two or three more cases to settle yet. —Reporter.

**A Turkish Subject Naturalized in Canada.**  
The Stratford Herald of last week contains the following item:—Rev. G. B. Howie, late of Berlin, now pastor of Knox Church, Brantford, has taken the oath of allegiance to the British throne. He is the first Turkish subject naturalized in Canada. He will marry, on Nov. 1st, Miss Sarah Spur, late of England, and hopes still to return to the foreign mission field.

**Woodstock is favored with two excellent weekly newspapers which are a credit to that town as well as to their enterprising publishers.**  
It is frequently the case that live towns have one first-class paper and several others of very inferior standing. For years this was the case in Woodstock and until Mr. W. M. O'Brien assumed control of the Standard, the Standard Review, which, by the way, is one of the finest weeklies on the continent, had things nearly all its own way. Now, however, the Standard stands very creditably beside it and is doing a thriving business. The recent fair number it issued was a model of neatness and was replete with interest.

**Children Cry for Pitcher's Castoria.**  
When baby was sick, we gave her Castoria. When she was a child, she cried for Castoria. When she became a woman, she clung to Castoria. When she had children, she gave them Castoria.
