HOME GLEANINGS

Which are Mostly of a Local Character and All Interesting.

A Kind Word From a Neighbor.

Bro. Moore of the Acton Free Press, is certainly an artistic printer of a high order, and also by his handsomely printed journal, and also by his newspaper calendar for 1889, just received at this office, being somewhat of an artist himself, we take a pride in anything evidently more than mere mechanical effort.

He Done on a Sleigh.

On Tuesday afternoon at Limehouse a little fellow Willie Watson met with a serious accident while hanging on a sleigh loaded with wood. In passing in to the wood yard the hind runner struck a stone causing the load to upset almost completely burying the boy. Mr. H. LeBlond, who saw the accident, at once ran and extracted him and seeing that he was seriously hurt carried him home. Dr. Lowry was called and found that there was a broken thigh, severe injury of hip joint, and also probable internal injuries. Another warning for boys who persist in hanging on sleighs.

The Pulpit.

Rev. J. W. Mac, of Knox Church, preached at Berlin on Sunday and Rev. Dr. Gifford, of the Methodist Church, preached anniversary services at Elora, Rev. T. A. Clouston, D.D., Elora, on the 14th inst. of the Methodist Church, and preached acceptable sermons. His discourses were earnest and practical and calculated to set his hearers a-thinking seriously about spiritual matters. Rev. U. Branch Howie, preached in Knox Church, and succeeded in continuing the congregation that even if a man deprived of his eyesight, he can preach powerfully and eloquently, and in a confident and serene manner with grace and ability.

Too Poor to Take a Paper.

Referring to the importance of subscribing to a good newspaper, a French contemporary in its agricultural column, says:—"In a liquor shop, for five cents, you get a glass of whiskey; repeat the operation twenty times, and you will have spent one dollar, weakened your health and lost your reason. Go back to the same place next week and the week after, five or ten times during the week, and you will have spent twenty, thirty, fifty or a hundred dollars during the year, almost without knowing it, and you will be so much the poorer. Nevertheless, you say that you are too poor to take a newspaper."

Resolution of Sympathy.

At the recent meeting of the Hilltop Farmers' Institute at Brookville, Nassagaweya, it was moved by A. W. Peart, seconded by J. A. Watson that this institute desire to place on record its sense of the great loss sustained by it through the sudden removal by death of the late James Bradley of Eganville, the first president of the society in Hilltop. He ever devoted his time and energy to furthering the best interests of the farmers, while his honesty of purpose and sterling character won the respect of all. We but tender to the bereaved widow our sympathy and condolence in her recent affliction, and instruct the Secretary to prepare and forward a copy of this resolution to Mr. Bradley.—Wm. Clemens, Secy.

Compliments to Acton Falls.

Referring to anniversary services in the Methodist Church, Erin, the Advocate says:—"Rev. Dr. Gifford, of Acton, officiated morning and evening. The Rev. gentleman has a prepossessing appearance in the pulpit and agreeable in both manner and voice. He delivered able discourses giving utterance to some plain truths in a forcible manner. At the social on New Year's evening the choir of Acton Methodist church were conspicuous on the platform. Their various renditions of vocal music were very enjoyable, and at times led to ecstasies. There were some special pieces disapproved, which colored credit upon the ladies and gentlemen who took part in them. One of their artists' were said to be absent. When the choir did well, the audience would think the result be very interesting! Rev. Dr. Gifford gave a very interesting address interspersed with some old and new stories, which caused unbounded merriment among the audience during the recital."

Oriental Scenes.

Rev. C. Branch Howie, was greeted with a fair sized audience at his lecture in the town hall on Monday evening. Rev. Mr. Howie was chairman. The lecturer gave an interesting description of the land of promise, including its position and boundaries, climate, elevations and size. He referred also to the seasons, the crops and the weather. His description of the tropical climate in March or April the country was all abloom with flowers, some 2,500 varieties being found—in July all the splendor has completely disappeared and a generally barren appearance prevails. In winter at an elevation of 2,000 feet, two or three feet of snow often falls, while at all times of the year temperate, semi-tropical and tropical climates prevailed at different points in the April and continues until September. In 4,000 years no measure or other fertilizers have been used in the fields. Referring to the Cedars of Lebanon he stated that 400 of those plants still stand. They are found 6,000 feet about the sea, are 40 to 50 feet in circumference, 100 feet high and computed to be more than 3,000 years old. The lecturer also spoke of the schools, and showed that besides the Mohammedan schools there are 3,000 children attending christian schools under a distinctly christian influence. Mr. Howie appeared in Oriental costumes and delivered a portion of his lecture dressed in a costume similar to that worn by Abraham.

A Great Storm.

A storm of unusual violence raged during the greater portion of Wednesday night and Thursday morning last, doing a great deal of damage in the eastern portion of Canada, and protrating the telegraph and telephone service to a very great extent. The storm was also very serious in the Niagara Peninsula, and amongst other damage, completely destroyed the foot and carriage, and suspension bridge near the Clifton, bridge, a loss of \$300,000.

A silk factory, at Reading, Pa., and a mill, at Pittsburg, were demolished, and many lives lost and valuable property destroyed.

DEATH OF AN EARLY SETTLER.

Mr. John Newton, Postmaster, Limehouse, Ontario, died on the 14th inst. at the residence of the early settlers of this township in the person of John Newton, Esq., Postmaster, at the advanced age of 81 years. Mr. Newton was highly respected by all and his lengthened residence in this section gave him a very wide acquaintance and a large circle of warm friends. He was born in Yorkshire, England, in 1819 and received a good common school education in his early days. When 16 years of age he went to Ireland where he was engaged in a large woolen manufactory as a wool sorter. While here he met Mrs. Newton and they were married. Owing to the failure of the wool trade he went to France but remained only a few months and after a short visit to his family he left for America and in 1850 landed in Toronto. At Toronto he was directed to Mr. Wm. Barber, of the paper mill, Georgetown, and through Mr. Barber he met Mr. John Barst, then a school trustee, who resided on the farm now occupied by Mr. Joseph Arthur, on the third line, and was engaged by him as teacher of the public school at Glen Lawson, a mile below Acton. Having completed his year there he engaged with the trustees of Georgetown and taught there for a year. About this time his wife and little one arrived from the Old Country and they decided to engage in farming and purchased the farm on the second line, Erin, now occupied by Mr. James Atkins. A year sufficed for farm life, and seeing an opening to engage in his trade he embarked in a general store in partnership with Mr. Joseph Sykes and the firm opened a custom woolen mill at the Twelve Mile Creek near St. Ann's, Nelson. But Mr. Newton had not yet succeeded in satisfying himself that this was the place for him and in a year he left there and came to Limehouse in 1846, and here he spent the remainder of his life. He bought a few acres of land and built a mill, which was utilized during the building of the G. T. Railway as a water time mill. A saw mill was afterwards added, but out of these has grown the present excellent woolen mill and blanket factory, the productions of which have for many years enjoyed a very wide reputation for superior quality and honest work. Mr. Newton was a just and only Postmaster Limehouse ever had. He was appointed when the office was first opened in 1854. He was a Justice of the Peace, but rarely sat on the magisterial bench, preferring always to advise his neighbors and acquaintances to settle their differences quietly out of court. He was a man of retiring disposition and never sought for any of the public positions for which his ability and integrity amply qualified him. "His home was his castle," and to spend all his leisure with his family was his continual delight. Mr. Newton was a man of sterling character; upright, straightforward and honest in all his transactions. He was a member of the Episcopalian Church, but thought of the Episcopalians as a sect, and he has not failed to be a faithful student of God's Word and endeavor to measure his every day life by its precepts and teachings. His partner in life, who has spent nearly fifty years of his long life, survives him, as well as four sons and three daughters—Messrs. James, John, Isaac, William, and Miss Hannah and Mrs. Nichol, at Limehouse, and Mrs. James Brown, formerly at Acton. The funeral last Saturday was largely attended. The remains were carried to the tomb by six old settlers, Messrs. Ninian and John Lindsay, Dr. McCulloch, John Lawson, Alex. Henderson and James Farquhar, Toronto. Rev. Joseph Pennell, assisted by Rev. A. H. Drummond, conducted the funeral services.

THE GREAT CARNIVAL.

Tremendous interest is being taken in the approaching Carnival in Montreal. The Governor-General is to inaugurate the festivities and give the entire week's programme his patronage. State Governors from all parts of the world are to view the spectacles. Letters are pouring in to the Committee from Europe and the United States enquiring for particulars. The Committee are making extraordinary preparations for a magnificent Carnival. Those who cannot go to Montreal for a week of the wondrous amusements will hear, and the events in all their marvellous beauty reproduced in the Carnival Number of the Montreal Star, which it is said will be a perfectly stunning number.

Customs officials and informers received, last year, \$99,000 in addition to their salaries for their share of fines imposed on violators of the law. As was proved in court, a great deal of this money went to be described as blackmail.

ROYAL BAKING POWDER Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than flour or wheat, and makes the best bread with the smallest amount of water. Sold only in the Royal Baking Powder Co. 100 West St. N.Y.

THE taking of this space is with us a purely business transaction.

We purchase it for a given time, agreeing to pay for it just as we would for an invoice of Dry Goods, expecting in-return value for every dollar invested.

The important question is then, will we receive value for our investment; will our advertising in this paper increase our business? If not, then it would be much wiser to have invested in something else instead. Now whether it will pay us or not depends upon what we furnish the proprietor of the FREE PRESS to put in our space. If we act on the assumption that its readers, are simple and credulous, and that any kind of false statements will answer provided they sound large enough, we will find that few people will read our advertisement. That it will not be worth the paper it is printed on; and in fact it would be better to pay the proprietor the same amount each year to have our advertisements kept out.

However, we are not accustomed to doing business, or advertising, on these principles. Our aim will be to set before you the various lines of goods we are dealing within, the lowest prices at which we are offering them, and to retain your confidence that you will examine our space for prices just as you look at the market reports for the price of wheat.
