MUNG BRITISH IMPORTERS Our Butter Packages are Largely the Cause

Fallure. [This Letter is registered in accordance with the Copyright act, and published in this paper by permission of the author.]

The British importers, while agreed on most points, showed some difference of pinion on the subject of batter packages. As many of my readers know, our export sackage is mainly what has been called the the pith of the Parliamentry proceedings Velsh tab. It is wider at the top than at sketches of noted persons, recent appoint the bottom, with a somewhat loose fitting cover, usually fastened down by strips of tin. The sizes range from a 25 to 70 pounds capacity. It is a stave tith. It is generally manufactured now by machinery, and may export trade, a tub of the above description, whole called a "tin-lined tub." The Danish package is a cask or barrel, with both ends neaded in the usual manner. It is also ing the country and will only visit George made by machinery, is light and clean-looking, and will hold about 100 pounds. Several of the importers in Bristol con-

OUR RUTTER PACKAGE PARLIE.

get loose, the tine break off, and the cover poor. These packages are faulty general The butter cores out, and around the edge, or where it touches the wood, it gets sidey, or strong testing." Mr. Hes also said that butter suffered from " confact with the wood." Mr. Clark spoke of the boxes which came into the market, and said they were a favorite package but the objection dear, you musn't tell these things. Sector to them was their expense, and thefact that the butter could not easily be taken out to "tare" it. He would prefer the lin-lined tabs. These allow the butter to come out easily, to be "tared" or "stripped," but | he thought their cost was an objection. Mr. Hes had less preference for Lin-lined all, however, he would like to have them | ing continental methods. sed altogether. He thought it a mistake have various sorts of packages in the market containing one brand of butter. When he offered batter in both packages, he argument which justified the use of the in-lining necessarily condemned the use of the wooden tab without the lining. As dealer, he had actually experienced this lifficulty of satisfying bayers thereither or oth packages were good! Here certainly, s another argument for uniformity brough in dairy matters. I say here what little experience I have had with the in-lined package goes in its favor. theapress will be an assential in the pack of the future, I would advise the dairyman not to allow a little extra cost to stand the way of his buying the best package in the market. Mr. Clarke advocated the adoption of the Dauish package, the cask or barrel, but of a somewhat smaller size,

say holding 70 to 80 lbs., instead of 100 lbs.

the batter, soaks into the wood package,

OUR PACKAGE ONE CAUSE OF FAILURE

am glad, however, to quote Mr. Price A GOOD WOED FOR CANADIAN TEES. He was much pleased with them. They could not be rolled like the the Danish casks, and so had to be lifted. This fact saved the outside, in some measure, from contact with dirt. His experience led him to believe that these packages had been received by importers in England, fairly clean on the outside. He believed that the dirty appearance of Canadian tabs was largely due to the effect of longstorage. He

claimed that Danish casks had never been tested by storage, and believed if they appearance than the Canadian tube do its teaching should not be lost sight of. In given next week. making a comparison between the two packages, we must remember the different Lambert, who was then foreman in the conditions under which they have been A Resident of This Township, Stupefied by Fren Press office, left Acton and establish | tested. as well as my own, I do not expect to have sovered the whole ground or to have settled the question. Rather, I have only opened up the question for discussion. As the reader will see, before I am done I anticipate the necessity of more than suggestions or opinions, of one or of many, to determine what is best. Actual experiment in practical lines will be necessary here as in other directions to the attainment of ego tubs, their extra cost also being his cess. Of experimental work I shall have main objection. . If they were to be used at something to say in a future letter touch-

THE ROYAL BEVIVAL

A series of Gospel Temperance meetings under the superintendence of Mr. and Mrs. R. D. Beman, the Excelsion Duett of the Royal Templars of Temperance, was opened in the town hall on Saturday evening and well attended meetings have been field every evening since. An entertaining programme is provided each evening. Mr. and Mrs. Beman are excellent singers, and though both have been soffering with severe colds their duetts and solos have been much enjoyed and appreciated. 'Miss Swan presided at the organ. Stirring addresses have been given upon the temperance question and the necessity for temperance organization by Rev's J. W. Rac, Dr. Gifford, R. B. Cook and other temperance workers. On Mouday evening Mr. W. W. prohibition through the Royal Templars of Temperance; gave particulars respecting the organization itself, its growth, and 000 in Canada alone. As we go to press the closing meeting is in progress, and pro-Mr. A. C. Steele, Past Grand Councillor, of

He also erplained the work now being accomplished for temperance and membership which now numbers over 12,-Toronto, is expected to address the mesting and it is intended to organize a council o There is much force in this statement, and | the Royal Templars. Particulars will be

The Georgetown Herald says :- John McAlpine, about 60 years of age, who resides with his sister and two brothers on the seventh line, has been missing since Saturday evening. He came to Georgetown Saturday morning, purchased a pair of boots and went home. He found that the boots were too small and returned to town to exchange them. He was seen in the evening passing along Church street intoxicated. He evidently was on his way home via Mr. Culp's and Mr. Cross'. On Sunday search was made for him in vain and on Monday and Tuesday the neighbors turned out in numbers to try and find the ody of the missing man. The boots he had purchased were found by the fence near Mr. Calp's, but, up to the time we go to press, all efforts to find trace of the los

to death and his body covered with the The conjectores of the Herald have proved correct. The unfortunate man was found next day frozen to death in the swamp west of Georgetown. He had climbed over a feuce, fell by the side of a log and there he was found. A whiskey bottle accompanied him. A sister of this unfortunate man was killed on the railway below Acton ten years ago last July, while
