THE WELL ESTABLISHED AND HIGH repute of our Dress Goods and Dressmaking Departments have been alike the enry of competitors and the delight of an increasing host of customers. Many people have no idea of the widely extended connections which we enjoy in these Departments. We are favored with orders and purchasers from the West as far as ancouver and many of the leading towns along the C. P. R., including Winnipeg. In the bast our orders reach as far as Halifax, and in scores of towns and cities in Ontario do we count those who through the largeness of our stock and the excellence of our work have been led to favor us with their orders, and what is more having

come to us one season they invariably come back again. AND SO IT is in the Millinery Through the restlessuess of human nature and ambition for improvements, people move from one place to another, but in so many cases where our customers have with their patronage in those Departments. These reflections assure as that not by bombast, not by vain pretensions, but by fair and honorable attention to the requirements of our customers, that a bond of this kind is established and maintained. And while we do not claim to have an exclusive monoply of all the fine goods that are sold in Goelph we have good reason to know that a very large proportion of the

finest goods sold go across our counters. THE VARIETY of our Dress and Fancy loods at present is simply immense, and in certain lines-if not in all-we have i established by actual comparsion that our prices for goods of equal quality are in many instances lower than others in the trade. We enjoy a financial and trade position that opens up to us the keepest markets of the world, and being confined to no amount or place we make our selections wheresoever and by whomsoever the greatest and most tangible inducements come in our way. This is one reason for diffusiveness of our styles and the fact that the requirements of every pocket and fanc find a ready response in our Colossal Stock of Staple and Fancy Dry Goods.
