**NEIGHBORHOOD NEWS.**  
Furnished by Correspondents, Collected From Exchanges and Picked up by the Way.

**MILTON.**  
Every available carriage in our town was hired to go to Acton last Saturday.  
We were sorry to see the despatched state of our lacrosse team on their return from Acton last Saturday night. Their usually bright and cheerful countenance, then betokened unmistakable evidence of defeat. During the afternoon some evil-minded person had sent word to Milton that our boys had won by four straight games, and in consternation with which we received the news it is easier imagined than described. The boys say they cannot run all over a "Milton" farm" and play lacrosse at the same time.

**Last week a farm horse in the South Block, owned by Mr. Chas. Joyce, and occupied by Mr. John Fletcher, caught fire from the chimney and burned so rapidly that it required the greatest efforts on the part of the occupants to save the furniture before the house was completely destroyed. The house was insured for \$500.00.**

**KNATHOULL.**  
Mr. Thos. Bolen Nassagaway, raised the frame of a fine bank 30 x 54 feet last Friday. There were about a couple of hundred present. Amongst the spectators was Mr. D. Henderson, ex-M.P., Acton. The captains were Messrs. John Logakrand and David Black. The contest was a close one but eventually Mr. Black's men were the victors. After the raising a grand tug of war was pulled, six men being chosen from each side but this time the laurels went to Mr. Logakrand's men. Mr. and Mrs. Bolen Nassagaway were most hospitably for the large crowd, and a pleasant time was spent after the raising.

**One day recently a little son of Mr. Wm. Lang, Nassagaway, was attacked by a hailer. Mr. Lang who was working in an adjoining field, hearing screams ran to his son's assistance and seeing a heavy club about the size of a heavy hammer on the head loosening its horns before it could reach the boy was not much hurt beyond receiving a number of bruises by the heavy tramping upon him.**

**HAMILTON.**  
Another newspaper is to be started here in this year. Three of the working men in the city are mentioned as furnishing the capital, and it will be a one cent paper and independent in politics. The Times, and the Spectator, will have to hustle to keep their subscribers. Naturally enough rumor has it that first-class writers and energetic managers are to be engaged. The office has not yet been selected. I believe, although a newspaper of this character was started here some years ago and failed in a short time there seems to be a welcome for this one, and, if properly managed, it should pay. Readers are very glad to get an independent paper, as a rule, and read unbiased reports of meetings and matters of public interest.

**I mentioned some time ago that a batch of juvenile thieves had been brought before the Police Magistrate and though generally were dismissed with a warning, Gentle treatment was not what two of them wanted evidently as they were captured in a coal and wood office this week, having broken in with the orthodox crow-bar. Their parents appeared before the Magistrate and stated that they had done their best to reform their boys, but had failed. The P. M. enjoined good behavior on them for the term of three years in the Reformatory.**

**The criminal committee are rapidly getting things into shape and have already arranged a list of attractions that will place the most fastidious. There will be no better place in Canada in which to spend a week than in Hamilton while the carnival is going on, from the 19th to the 23rd August. In my next letter I will be able to give you some of the leading events on the programme.**

**One of the local newspaper complains that news is scarce just now and calls on the Free Library Secretary to call a meeting of the Board. That would certainly be a thing to do for a day or so.**

**There are not many men out of employment now at during the spring months. Applications have been frequent from Old Country office boys, salesmen, and laborers of all classes, and one wonders what the reason is for the paucity of work. It is not unusual for us, are going to do when these cheap are willing to fill any place at any salary. It is getting more and more difficult every year to start a boy in the city, and boys and parents in many cases are thoroughly discouraged. Short-hand writing for a time was a field that enabled many to secure employment, but it is now included in the curriculum of the city schools, and hundreds of both boys and girls are adept at it.**

**The weather has been exceedingly pleasant during the past week and the thermometer maintained its summer base nicely.**

**OAKVILLE.**  
More pleasure-seekers, or as the old-fashioned "summer boarders" are to be seen in Oakville at present, than at any other time. The only complaint that I have heard many of them utter, so far as the roadways which exist on certain corners of oak-favored little town. A few take it upon themselves, to gather together in the evening, more especially on Sunday; and their remarks, of seeming to give the passing remarks about passers-by, the spitting of their tobacco juice on the sidewalk, making it unfit for an animal to tread upon let alone civilized people in a civilized country.

**We all know that of all the evils that curse this earth, "intemperance" is one of the worst. Very few of us have any idea of the terrible magnitude of this rapidly increasing scourge. I, for one, strongly believe that tobacco is the forerunner of intemperance, and am often led to wonder why temperance reformers and judges don't say more about it. Why don't they include it with spirituous liquors when the temperance pledge is passed; for how can we expect to overcome any evil, if we don't begin at the very root of it?**

**The pulpit of the Methodist church was occupied on Sunday last by Mr. Peart, of Burlington. In the morning he strongly urged before his congregation the great necessity of private, as well as public worship. In the evening he dwelt chiefly upon the force of kind words.**

**"Kind words can never die," Chambers and West, God knows how deep they lie. Send it to the Editor."**

**I noticed in the Reformator last week that it has again become a thing of its old days. "This time it is not towards the Acton Free Press, but the Oakville Star. The Star has never, to my knowledge ceased to shine, and never has it shone more brightly than at present; but the Reformator, I think, is occupying its position by displaying so much of its envious disposition.**

**The temperance excursion from Hamilton, which was to have been held here on Saturday last, did not arrive, owing to the boat being disabled.**
